MINUTES No. 1.

IN COMMON COUNCIL,
Buffalo, Monday, Jan. 7, 1861, 5

On the assembling of the new Council, after the dissolution of the old, there were present—Aldermen Adams, Allen, Beckwith, Bemis, Brush, Crowder, Dorr, Felton, Goebel, Grass, Hanovan, Howard, Howell, Jones, Mills, Palmer, Russell, Rutter, Savage, Schwartz, Storck, Walsh, Wheeler, and Yaw.

Absent—Aldermen Pratt and Scheu.

Ald. Howard moved that Ald. Palmer take the Chair.

Ald. Howell moved that Ald. Howard take the Chair. Carried.

On motion of Ald. Howell the Common Council then proceeded to ballot for President of the Council; and on such balloting, Asaph S. Bemis received 24 votes; blank, 1; and Asaph S. Bemis was declared duly elected President of the Council.

On taking the Chair the President addressed the Council as follows:

Gentlemen of the Common Council:

I should prove ungrateful toward you, as well as do injustice to the impulses of my own heart, did I not profoundly acknowledge to you this renewed mark of your favor and esteem.

I had hoped, however, that the arduous duties of this chair,—with its honors, might fall upon some other of our number at this time than myself, and that I might be permitted to resume my seat as an humble member of this Board. But your choice, gentlemen, has ruled otherwise, and calls me again to this post, to preside over the deliberations of this Council,—bespeaking a degree of confidence and respect, which I am indeed happy to acknowledge as a high compliment from you.

With many thanks to you therefor, for the honor you have conferred, in again calling me to this chair; and with the hope that our official relations here, may be characterized with a spirit of friendly co-operation with each other, in our efforts to administer the government for the welfare of our city,—and that our official pulse may beat in unison with the wishes and desires of our people; I accept the post to which you have assigned me, and with your friendly aid in all cases wherein I may err in judgment, will endeavor to the best of my ability, to discharge its duties.

Gentlemen, we are entering upon the administration of the affairs of a new year. The accounts of the past have been closed, and a new record will be opened on your account, in which to record your transactions in this Board. The good or bad administration of the city government rests mainly upon you. Experience will teach you that this is the time and season to inaugurate the policy proposed to be pursued by the Council during the term. The Common Council has absolute jurisdiction and control over all the departments of the city government, and power to define and prescribe the duties of officers therein. No liability against the city can be created by any department of the government thereof; no local improvement of a public nature made; no tax levied, nor can a dollar be drawn from the treasury, except by the order

of the Common Council. You, gentlemen, have this whole matter in charge, and the records at the end of your respective terms will show the good or bad results of your stewardship.

The past two years have worked salutary reforms in various departments of our municipal government. All business matters amongst our people wear a more lively appearance, and joyfully may we look upon the dawn of returning good cheer and prosperity in our midst.

Let us then pursue a course here which shall revive the courage and strengthen the hopes of our fellow-citizens for the future of our city.

It is indeed deeply to be deplored that any portion of these United States—after passing, in common, so severe a financial revulsion in the land, should come to be afflicted with the elements of revolution in its midst. Let us counsel moderation and forbearance in our rulers, "until forbearance ceases to be a virtue." Let not the hand of brother be raised against brother, nor the land of our father's be stained with the blood of our brethren, except in a most holy and righteous cause. But come what may, "for weal or woe," let this Union be preserved, and the Constitution maintained, as the costliest of all earthly treasures.

May God, in his infinite mercy, avert these impending calamities, and lead our countrymen to realize and rejoice—in the language of an eminent divine discoursing upon this topic—"In the fact, that the Ship of State long tossed by tempests and threatened with destruction by conflicting and angry elements, is at last sailing in a calm sea with a law-abiding crew, and the flag of the Union nailed to her masts."

Ald. Adams offered the following:

That the salary of City Clerk, be, and the same is hereby fixed for the year 1861, at the rate of nine hundred dollars per year, and one hundred dollars extra, as Clerk to the Board of Health. Adopted.

That this Council do now proceed to an informal ballot for City Clerk.

Ald. Howell moved to amend the said resolution, so that the ballot be a formal ballot. Carried.

And the resolution as amended was adopted.

The Common Council then proceeded to ballot for City Clerk, and on such balloting Otis F. Presbrey received 18 votes and C. S. Macomber 8.

There being only 25 Aldermen present and 26 votes being cast, the ballot was declared irregular.

The Common Council proceeded again to ballot for City Clerk, and on such balloting Otis F. Presbrey received 17 votes and C. S. Macomber received 5 votes; and the said Otis F. Presbrey was declared duly elected City Clerk of the City of Buffalo.

On motion of Ald. Adams the oath of office was then administered by the Clerk to Otis F. Presbrey, Clerk elect.

Ald. Howard moved that a committee of three be appointed to wait on the Mayor and inform him that the

Council will be in session at 2½ o'clock this afternoon, and will be ready to receive any communication which he will be pleased to make. Carried.

All Howard, Storck, and Beckwith were appointed such committee.

All Howell moved that a Committee of three Aldermen be appointed to fix the salaries of officers to be appointed by this Council. Carried.

Aldermen Howell, Adams and Walsh were appointed such Committee.

On motion of All Waist, the Common Council then adjourned, to meet this afternoon at 2½ o'clock.

C. S. MACOMBER, City Clerk.

IN COMMON COUNCIL,
Buffalo, Monday, January 7th, 1861.
At 2½ o'clock, P. M.

Present — Asaph S. Bemis, Esq., President of the Council, and All Adams, Ailen, Beckwith, Brush, Crowder, Dorr, Felton, Goemmel, Grass, Haneyan, Howard, Howell, Jones, Mills, Palmer, Pratt, Russell, Rutter, Savage, Schen, Swartz, Storck, Walsh, Wheeler and Yaw.

The minutes of the last meeting were approved.

COMMUNICATIONS FROM HIS HONOR THE MAYOR.

MAYOR'S OFFICE,
Buffalo, Jan. 7th, 1861.

To the Honorable the Common Council of the City of Buffalo:

GENTLEMEN:—The commencement of the fiscal year, with the reorganization of the Common Council, has been the occasion of a message to your Honorable Body from the Mayor, in which a general statement of the affairs and condition of the city has been presented. In conforming to the custom I beg to remark, that such statements must be general in their nature, and the general information therein contained can only be valuable by the details under them receiving close and careful attention from individual members of your Honorable Body.

The responsibilities which you have assumed, and are expected to properly meet, are of a character that can only be correctly discharged by each member giving much of his time and individual attention to the various subjects presented to you. In a great measure is the growth and prosperity of one of the most healthy and beautiful cities in the world placed in your hands, and undoubtedly much rests with your legislation to attain such desirable ends.

Through the prudent legislation of the Common Councils of the years 1859 and 1860, great reductions have been in the expenditures as compared with preceding years. This has had a salutary effect, and has encouraged our citizens to undertake new enterprises, and strangers to invest their means, where taxation is not excessive. I

indulge in the belief that you will make the budget of expenditures for the present year still lower than in either of the years mentioned, thereby proportionately reducing taxation. This can be done, and by so doing you will receive the thanks of your constituencies.

The taxation for the year 1860 has been greater than in 1859, and I have taken occasion to examine why it is so. The legislature of 1859 authorized the payment of one hundred dollars to each of the Aldermen for their salary. This Act was passed after the estimates of 1859 were confirmed, consequently there was borrowed from the contingent fund of 1859, \$2,600, which was reimbursed to said fund from the tax levy of 1860; and providing for the payment of their salaries in 1860, \$2,600 additional, in the estimates of that year, increased the amount over 1859, \$5,200 in this department alone. The contingent fund of 1859 was also drawn upon \$1000, to provide for expenditures created by prevalence of small pox, which was likewise reimbursed from the tax levy of 1860.

In the same manner \$400 was reimbursed from the fund of 1860 to the election department of 1859. The deficiency arising in that department, was created by an act of the Legislature creating the present expensive election law, after the estimates of that year was confirmed. The cost of holding elections under the new law amounts to fully the amount provided in the estimates of 1860, viz. \$1,775, which is an increase in the amount provided in 1859, of \$1,075, which in this department increases the amount \$1,475 over last year.

The amount of funded debt provided for in 1859, was \$24,600; in 1860, \$27,000, thus increasing this department \$2,400 over 1859.

The amount raised in 1859, for improvements of the Harbor, was \$2,000. This year \$8,000 was raised by General Fund Tax, increasing the expense in this department, \$6,000.

By the purchase of Steam Fire Engines, six thousand dollars have been paid from the estimates of 1860 greater than in 1859.

An additional clerk has been employed in the Treasurer's office, who has been mostly occupied in getting up a statement of a balance account, at an increased expense over 1859, of \$600. The estimates for the celebration of 4th of July, 1860, was \$500 greater than in 1859.

The estimated resources of 1859, (excluding balance in hand in Local Improvement Fund, and Special Local Improvement Fund, which were not included in estimated resources of 1860,) was \$52,100. The same for 1860, was \$42,600, a difference against 1860, of \$9,500.

The total amount of increased expenditures thus noted, and deficiency in estimated resources, amount to \$32,675.

The General Fund Tax of 1859 was \$239,419.90; of 1860, \$255,073 60.

Thus while proper and unavoidable expenses were met to the amount of \$32,675, as aforesaid, the General Fund Tax was increased but \$15,653 70.

Real estate has also had increased taxation by reason of the large decrease of personal property taxed. This falling off has been occasioned by the decrease of banking capital, and dissolution of several corporations of large capital. The General Fund Tax, and the annual expenditures for a series of years has been as follows:

General Fund Tax.	Expenditures.
1854—\$322,155 00	\$318,660 68
1855— 275,580 00	317,834 43
1856— 310,900 00	336,791 29
1857— 297,825 00	456,507 47
1858— 294,777 25	375,411 18
1859— 239,419 90	312,594 13
1860— 255,073 60	

The exact amount of disbursements for the past year cannot now be determined, yet sufficient is known to show that more means were provided than will be required.

The amount of personal property upon which taxes were levied for a number of years, is as follows:

1857,	\$8,129,770 60
1858,	6,065,720 60
1859,	5,485,080 60
1860,	4,743,689 00

The Comptroller in presenting his annual statement of anticipated expenditures, for the past year, estimated that \$50,137 85, would be required to reimburse the fund of 1859, for loss on personal Taxes, &c. The Common Council determined not to include this amount in their estimate, and after thorough examination, I am satisfied that their course was correct, and that there need be no levy made to repair this deficiency.

It has been customary, and no doubt proper, for the Comptroller, at the expiration of any fiscal year, to transfer the balance of the preceding year to the year just closed, thus leaving but one

general fund account for all the years prior open, thus 1859 on the 7th of January, 1861, become merged in 1860; and there has balances accrued in '51, '55, '56, '57, and '58, greater than the amount of balance estimated. Take the financial history of the year 1854 for example: the Comptroller estimated in 1855, that there would be as resources for that year, a general fund balance from 1854 of \$54,400. Now on examination I find that the Treasurer has transferred from that fund \$69,093 24, and yet there was a credit balance in that fund on the 1st of January, 1861, of \$1,911 78, making in all an excess of \$16,605 02 over amount of balance estimated.

The transfers were as follows:

43,893,24,	to General Fund 1855,	made in 1855.
9,000,00	" " " 1856,	" 1856.
10,300,00	" " " 1857,	" 1857.
5,900,00	" " " 1858,	" 1858.

The total amount of general fund orders outstanding, prior to January 1st, 1860, amount to \$24,994 58.

To meet which there is in the Comptroller's office, of the tax of 1854 and 1855, uncollected, about \$5,000; sundry debts deemed collectable, amounting to near \$1000; balances of general funds since 1853, amounting to \$6,586 13, and the indebtedness of Solomon Scheu, late Receiver of Taxes, over \$25,000, more than sufficient to cover the entire indebtedness outstanding and unprovided for. There is also a balance of several thousands of dollars in the general fund of 1853.

There has been quite a large amount of money due the city from collectors, and which has remained uncollected and in some instance without a settlement between the city, and the collectors, for a number of years. Notwithstanding a determination on part of city officers to close all such outstanding claims, and much attention on their part thereto, it has been impossible to do so. Yet progress has been made, and they will continue their efforts to effect a settlement of those yet unadjusted at an early day.

A settlement has been made with M. Cadwalader, formerly Comptroller, by which the city realized nearly \$3,000.

The suit of John D. Berry has been closed, the City receiving \$3,500 in cash.

A settlement has been made with John Heiligell, former collector, by which ample security has been received for the payment of \$5,000, with interest, in installments of 2, 3, 4 and 5 years.

A settlement has been agreed upon, but not completed, by which the City will collect the entire amount that was due from Mr. Carpenter.

The large amount due from Mr. Schen, it is hoped, will be soon realized. The Receiver of the Sacketts Harbor Bank declared a dividend of ten per cent. on the 1st instant, and I have been assured that the receiver will, early in the season, pay a large proportion of the balance due to creditors of the Bank. The original amount of the debt due from Mr. Schen was \$29,993 89—on which there has been received \$6,656, leaving a balance (aside from interest) of \$23,277 89.

In view of the large amount of money that may be jeopardized, as in the case of Mr. Schen, I advised, in my inaugural message, that you should require the Receiver of Taxes to deposit the receipts of his office with the Treasurer daily.

By the financial management of the past year City orders have been, since April last, at par, and creditors of the City have not been obliged to resort to brokers to realize on their orders. City orders can and should be kept at par the entire year. An amendment is proposed to the Charter, which, if granted by the Legislature, will, with a continuance of the present judicious system, accomplish this desirable purpose.

The system adopted by the Common Council the past year, requiring the payment of tax scrip to be made at the Comptroller's office, and refusing to assign the same to parties for collection, is, in my judgment, highly proper, and should be adhered to. It protects tax payers from great annoyance, and from large and unnecessary expenses, besides giving the City the benefit of the high rate of interest allowed.

I regret to state that a very large amount of scrip of this character has been issued from the Comptroller's office, to various parties, without security; and as yet satisfactory settlements have not been made with all persons who are thus indebted. Such issue has been, in all instances prior to January, 1860. The Comptroller and Finance Committee have the matter in charge, and have given it much attention, and I have no doubt will soon be able to make proper explanations to your Honorable Body.

The harbor of our City received at the hands of your predecessors that attention and care the importance of the interests involved in its efficiency demanded, and I have no doubt will receive equal consideration from you. Five thousand dollars

was appropriated for dredging the harbor outside of the North Pier; but two hundred and sixty-three dollars of that amount remain unexpended. The following amounts were expended for a like purpose: in 1855, \$2,000; in 1857, \$2,394 64; in 1858, \$1,165, and in 1859, \$222 75. The improvement of this year was large, and thoroughly done, and, judging from the information I have upon the subject, and by the amount expended in former years, it would seem that not a very large sum would be required for 1861. Six thousand dollars were expended in improving two hundred feet in width in the centre of the Creek, at such points as most required dredging, from the North Pier to South street, one-half of the expense of which was defrayed by local assessment, making the entire cost for the past year nearly eleven thousand dollars. Complaint has been frequently made that vessels get aground at the docks, outside of the channel as excavated the past year. To this subject I particularly desire to ask your attention, as it is very necessary and important that the sides of the Creek should be kept at the same depth of water as the channel. Some years since improvements of this character were made, and the expense assessed upon the property immediately adjacent thereto. A very important improvement can be made to the harbor and to the Erie Basin by removing from eighty to one hundred feet of the old North Pier. I called the attention of the Common Council, last year, to this matter, and understand that action was not taken, on the ground that there were doubts as to their jurisdiction—the Pier having been built and kept in repair by the United States Government. I do not think the objection a valid one; yet if it is so esteemed, your Honorable Body could, without doubt, easily acquire permission to make the removal. Your action in harbor improvements should be prompt, that those contemplated may be completed early in the year.

The management of Schools and their affairs, during the past year, reflects credit on all concerned. At no time in their history was their efficiency so great, or the high purposes they are destined to achieve so successfully demonstrated. I have no recommendations to offer that can possibly improve them, if adopted, and can only earnestly advise that your Honorable Body give every assistance in your power to a continuance of their high efficiency.

By the following statement, an exhibit is made of the General Fund expenses of the Schools for the years named, and the average number of scholars taught:

Years.	Expenditure.	Av. No Scholars.
1854,	\$19,143 71	6,672
1855,	\$1,239 84	7,369
1856,	\$5,733 64	6,916
1857,	\$102,101 86	7,444
1858,	\$109,773 17	6,295
1859,	\$4,584 99	7,000
1860,	\$7,681 66	7,469

The amount named for 1860 is the appropriation, and is sufficient to defray the expenditures of the year.

During the past year the purchase of two Steam Fire Engines has been completed, and at least another should be procured very soon. In my opinion, the time has now come for the Common Council to establish some certain, definite system, and determine how many companies they intend to disband, and at what time. The remaining companies, if any, then would have the benefit of the knowledge that they would be retained so long as they were effective and useful. The interest heretofore felt in the Fire Department seems to have slackened, and I believe more from the vague uncertainty of their condition than to other motives. The vacant Engine Houses and the machinery no longer required, should be disposed of.

There are three points about the City, in the New Territory, which should have Fire Engines. I refer to the two villages of Black Rock and the Cold Springs. In or near each there is a large amount of valuable property, which, if once on fire, must be nearly or entirely consumed before assistance could reach them from the City proper. By disbanding fire companies there will be valuable machines that are not needed, that cannot be sold for much more than half they are really worth, and which, instead of being sold, should be placed in those localities.

No action on this subject can be taken by your Honorable Body without the consent of a majority of the property holders who are to be embraced in this extension of the Fire Department, but I have deemed it proper at this time to invite public attention thereto.

The effective force of the Department consists of two excellent Steam Fire Engines, eight hand Engines, six Hose Carts, and two Hook and Ladder Carts, managed by about five hundred active, able firemen. The expense of maintaining this

Department for a number of years has been as follows:

1854,	\$22,493 65
1855,	15,598 78
1856,	16,168 41
1857,	18,586 59
1858,	15,273 50
1859,	13,960 00
1860, [estimated]	15,062 00

Of the last amount, seven thousand dollars has been paid for Steam Fire Engines.

The expenses of the Police Department have been as follows:

1854,	\$59,575 91
1855,	36,171 09
1856,	37,254 18
1857,	37,173 72
1858,	40,169 42
1859,	36,426 95
1860, not exceeding	34,800 00

One year since I expressed an opinion, held in common with many citizens, that the Police force was larger than necessary. Experience has taught the error of that opinion, and has compelled me to ask an increase rather than its diminishment. The number of Policemen employed is but sixty—five only are detailed for day duty, one at my office, leaving fifty-four to be divided between the four Stations—twelve are assigned to Station No. 3, and by the following statement of the beats, it will be seen how inefficiently citizens and property are guarded. I regret to publish such a statement, but it is more forcible than arguments or appeals.

BEATS IN POLICE DISTRICT NUMBER 3, AND POLICEMEN.

BEAT No. 1—Main, Washington and Pearl streets, between North and Genesee streets. Policemen—Orra Chandler and Joseph Bachan.

BEAT No. 2—Main, Washington and Pearl streets, between Genesee and Court streets. Policemen—Phillip Stauh and Friderik Weiss.

BEAT No. 3—Main, Washington and Pearl streets, between Court and Eagle streets. Policemen—George Denny and Christian Bronner.

BEAT No. 4—South by Eagle, North by Mohawk and Hospital, East by Pearl, and West by Terrace street. Policemen—James Van Valkenburgh and Jacob Beilman.

BEAT No. 5—Sixth, Seventh, Niagara and Ninth streets, between Morgan, Hospital and York streets. Policemen—Anthony Drexelius and Daniel Magarrey.

BEAT No. 6—All the Territory West of Pearl, East of Ninth, North of Mohawk, and South of North street. Policeman—Joshua P. Cole.

When it is almost dark these men are not in duty all night, but must necessarily spend a part of the time in the Station Houses, your Honorable Body can appreciate the unpleasant position the Chief of Police and myself must often be placed in, when complaints are made that officers cannot be to duty at night when required. I have investigated many complaints of this character, the past year, and found that the Policeman was on duty in another part of his beat, and so far removed from where his services were wanted, that no voice could have reached him.

The same statement holds good in the other Districts, except that part of Main, Washington and Pearl, between Eagle street and the Terrace.

The duties of the present Police Department have been arduous, and the various duties deputed to them have been promptly discharged.

The same recommendations made in reference to an extension of fire districts in the new Territory apply to the extension of police districts. Frequent calls have been made for Police aid and men who are detailed to serve there are drawn from service in the city proper. The Police districts should be extended, and the police force increased, as it is impossible and unjust to give the assistance often required; unjust, because that portion of the city pay no part of such expense and are protected at the expense of others.

The receipts and expenditures of the Markets, as well as receipts from butchers for licenses, will be found in the accompanying statement:—

Year.	Receipts.	Expenditures.	Liens.
1857	\$1,474 24	1,392 89	81 35
1858	2,430 93	6,613 21	41 95
1859	1,857 97	5,780 00	1,125
1860	1,201 31	about 3,000 00	1,358

The markets have been well managed the past year, and the present market system seems to merit a general satisfaction.

I present a statement of the General Fund debt, as reported to the Board of Finance in your report of 1859:—

1861	\$597,563
1855	607,663
1856	57,000
1857	550,750
1858	612,114 75
1859	585,600
1860	79,000
1861	1,141 00

Twenty-seven thousand dollars of the amount now due was raised by tax in 1860, and is to be applied to the payment of funded debt, leaving a balance of funded debt unprovided for \$227,000. Twenty-seven thousand dollars becomes due early

in 1862, which must be provided for in this year's estimate.

This steady reduction of debt should be the policy of the city and not departed from. The only addition to this debt that should be permitted for many years, is the bonds of the city issued for building the Ship Canal, which were issued anticipating the collection of taxes to defray the same. It is almost certain, beyond a contingency, that these bonds—amounting to \$37,000—will become a general fund debt; this addition to debt is properly chargeable to the bad administration of city affairs at the time the canal was constructed. Eighteen thousand dollars of the above is included in the statement of funded debt—and were issued in 1859.

This last year has witnessed a general revival of business interests, and the administration of city affairs by the Common Council and the executive offices of the city has assisted, in no small degree, to create that revival. Among some of the causes may be named the important harbor improvement—the purchase of a Steam Fire Engine with the understanding that it should be built in Buffalo, which has established the manufacture of that article—the building and completion of nearly seventeen miles of street railway tracks—the manufacture at home of the hose required by the fire department—the improvement of the various parks—the erection of a liberty pole—the building of blast furnaces, &c.

All of the items, except the last, were materially assisted by your Honorable Body, and though some may seem insignificantly small, still even small indications of returning enterprise have their merit and achieve some practical good.

In conclusion I beg leave to hope that your legislative career may meet with the encouragement and approbation of your fellow citizens, and to assure you that all efforts intended to advance public interests will receive my hearty co-operation.

Very Respectfully,

F. A. ALBERGER, Mayor.

All Beckwith moved that the message be received, placed on file and printed with the proceedings. Carried.

FURTHER FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, Jan. 7, 1861. }

To the Hon. the Common Council.

GENESEE.—The usual police force, as authorized by Charter and acts of the Common Council, consists of a Chief of Police, four Captains of Police, eleven Police Constables, and sixty Policemen. In the nominations

presented to you herewith, but nine Police Constables and fifty-six Policemen are named, there being four Policemen and two Police Constables whose term of office expires as follows :

Policeman Leonard Metzger, appointed July 12, 1858, term expires July 12, 1861.

Policeman Peter Weigle, appointed August 2, 1858, term expires August 2, 1861.

Policeman George Dany, appointed November 15, 1858, term expires Nov. 15, 1861.

Policeman Edward Bennet, appointed December 31, 1858, term expires December 31, 1861.

Police Constable Benjamin Toles, appointed April 16, 1860, term expires April 16, 1863.

Police Constable J. F. E. Plogstzul, appointed April 16, 1860, term expires April 16, 1863.

All of those were appointed to fill vacancies in the department, but I think the true construction of the Charter is that all appointments must be made for three years, and that those receiving appointments are entitled to hold them for the full term of three years, unless removed for cause or by resignation. I have nominated the twelve persons confirmed by the Common Council, August 27, 1860, they having immediately after their appointment tendered their resignation, to take effect on the 1st day of January, 1860. I accepted their resignations and have kept them in service since then by creating them specials.

The object of this procedure by resignation was to have all the force paid as near as possible the same salaries. It is believed that those persons would be entitled to \$500 per year during the balance of their term, that being the rate received by them last year, instead of which they will now receive but four hundred dollars per year. This was the only mode by which the pecuniary interests of the city could be protected, and a proper equality of payment maintained.

The term of office of all police captains, police constables and policemen, having expired, except those before mentioned, I herewith nominate to your honorable body the persons below named to fill the offices to which they are respectively designated :

Elijah K. Richardson, Jerome B. Shumway, William Messing and Charles Stein, to be captains of police in place of Michael Loftus and Georgo A. Rheinhart, whose term of office has expired, and in place of Elijah K. Richardson, who resigned Jan. 4th, 1861, and of Peter Weter removed.

Jacob Emeick, David S. Reynolds, David Cooper, George B. Mitchell, Stephen Thornton, John O. Hopkins, Adam Jones, Eli Fontaine, and James Van Valkenburgh to be police constables in place of Courtland Luke, Joel W. Burton, George W. Sherwood, Asa P. Harris, David S. Reynolds, Theobald Stuch, George H. Poth, and Levi H. Williams, and to fill vacancy occasioned by the death of Wm. W. Mason.

Cyrenius C. Harris, Lorenzo Kent, Joseph Lawrence, Joshua P. Cole, William Price, Robert Watts Joseph N. Litz, John Hoerline, Thomas Reiley, (5th ward) Mathias Butler, Adrian Schanne, Louis Neft, Michael Bechtel, John Rich, Philp Stuch, Martin Zimmer, Charles Karmeyer, Charles Marvell, Jacob Bloom, William Swartzenburgh, Charles Darcy, John B. Bennett, Peter Cannon, Holden S. Howland, John Campbell, Phillip Walls, Peter

Reinhardt, Jacob Huntzinger, Thomas Lord, Peter Carr, Edmund Hann, James Crudden, Lewis Freeman, Frank Micklas, Wendlen Hanser, Julius Scheffel, John B. Bellis, Peter Britz, Frederick Weiss, Nicholas Brick, Michael Storck, Sherman B. Burns, Phillip Klein, Joseph Friess, John Kain, Hugh Boyd, John Flinn, Patrick McKernan, Patrick Boyle, Niel Carney, Peter Beiber, Christian Burckhardt, William Saville, Adam Weaver, Charles P. Clapp, Jasper Hodge, to be policemen in place of—

Luzerne Gilbert, Stephen Varley, John Valk, Nicholas Feltes, George Dell, Joseph Backer, James O'Grady, Timothy Crowley, Daniel Magony, Jerome B. Shumway, Joseph Githric, Anton Drexeliars, Thomas Hanson, Dennis Collins, Omer Chandler, William Riggs, Onis Martin, John Butler, Michael Seeriter, Charles Darcy, John Walsh, Richard McCarty, Joseph Hoag, Peter Becher, Michael Haley, John Talman, Wm. Sheehan, James Gavin, Patrick Gorman, Henry Foersch, John Zimmer, John Rose, John Hussey, James Van Valkenburgh, Christian Bronner, Charles Marvell, Luke McDonogh, James O. Donnell, John Hopkins, Thomas Kennedy, whose term of office has expired, and to fill vacancies occasioned by resignations and removals

Respectfully submitted,

F. A. ALBERGER, Mayor.

Ald. Howard moved that the Council sit with closed doors while considering the communication from the Mayor nominating Policemen, &c.

Lost for want of a two-third vote. Ayes, 12; Noes, 13.

Ald. Pratt moved that the communication of the Mayor be received and placed on file, and the consent of the Common Council is hereby given to the appointment of the several Police Constables, Captains of Police and Policemen therein named.

Ald. Beckwith offered the following as an amendment to the motion of Ald. Pratt, and move 's adoption.

Whereas His Honor the Mayor, in his last annual communication to this Council, uses the following language upon the subject of the Police: "The Police system has been highly commended, and is believed to be effective and capable of answering the purposes desired. I am under the impression that the number of men employed is larger than is necessary, and believe it should be reasonably reduced."

And, whereas, the number of Police recommended by His Honor the Mayor to this Council for confirmation is greater than the number of Police at the time of his said annual communication.

And, whereas, the Mayor and a majority of the Common Council were elected upon the pretended issue that the expenses in all the Departments of the City Government were to be lessened, and particularly the expenses of the Police Department; and, whereas, integrity and good faith to the tax-payers require that promises made before election should be kept after election; and, therefore,

Resolved, That said communication be sent back to His Honor the Mayor, with instructions that in the opinion of this Council, 40 policemen, selected for their fitness for the offices, rather than for services as political partizans, are sufficient to protect the varied interests of our city.

Ald. Adams moved the previous question which was ordered.

The question was then taken on the amendment offered

by Ald. Beckwith and the same was lost. Ayes, 7, Noes, 19.

The motion of Ald. Pratt was then carried. Ayes, 19; Noes, 6.

FURTHER FROM THE MAYOR.

MAYOR'S OFFICE,
Buffalo, Jan. 7, 1861.

To the Hon. Council:

GENTLEMEN—With this communication I transmit the report of the Chief of the Police for the quarter ending December, 31, 1860, and also containing a summary of the quarter report of the year.

Respectfully,

F. A. ALBERGER, Mayor.

I received and placed on file, and the report of the Chief of Police ordered printed.

REPORT OF THE CHIEF OF POLICE.

Hon. F. A. Alberger, Mayor:

SIR.—In conformity with the rules and regulations instituted for the better government of the Police Department, I herewith submit to your Honor my quarterly report of the business and condition of the department for the fourth quarter of the year 1860, which embraces the months of October, November and December.

This being, however, the closing quarter, I have extended the limits of the report to the business of the year, in order to afford at one time a better understanding of the labors and general workings of the department.

The arrests for the quarter exceed the arrests of the corresponding quarter of the year 1859, one hundred and thirty three (133). They are as follows:

Vagrancy.....	71
Disorderly conduct.....	253
Drunkenness.....	133
Drunk and Disorderly.....	122
Assault and Battery.....	21
Petit Larceny.....	66
Grand Larceny.....	16
Burglary.....	6
Highway Robbery.....	2
Picking Pockets.....	3
Passing counterfeit money.....	3
Gambling.....	2
Seduction.....	1
Bigamy.....	1
Manslaughter.....	1
Fraud.....	2
Escaped convicts.....	2
Araon.....	1
Rape.....	2
Maleficous trespass.....	5
License.....	3
Total.....	716

In addition to the number of arrests, as above, there have been lodged, but charged with crime, two hundred and ninety-three persons, making a total of persons arrested and persons lodged of ten hundred and nine persons (1,609).

The total of arrests for the year, as will be seen from a table attached to this report, is two thousand six hundred and eighty eight (2688.)

The total of persons arrested and persons lodged for the year, is three thousand eight hundred and sixty, (3860.)

In comparing the table of arrests of the present year (1860) with that of 1859, I find there is a decrease of crime, which, and this decrease is the more manifest

from the record of property reported as stolen, kept at my office.

I allude to this decrease with much pleasure, not only because it shows to some extent the efficiency of the department in the prevention of crime, but also, because it speaks improvingly of the morals of the city.

Five hundred and eight of the arrests reported for the quarter, are chargeable to the excessive use of intoxicating liquor and to disorderly conduct.

Most of the arrests made for disorderly conduct were females, leading a life of shame.

Two hundred and eight females were arrested during the quarter, and seven hundred and two during the year.

But few of the number arrested, however, were charged with the higher grades of crime, as only eighteen of the number arrested during the quarter were taken for larceny and one for bigamy. Of the eighteen arrested for larceny, three were professional shop-lifters.

Seventy four arrests have been made by the day force attached to my office during the quarter; twenty one of which were petit larceny, ten for grand larceny, three for burglary, one for highway robbery, one for manslaughter, three for passing counterfeit money, and three for picking pockets.

The number of arrests made by the day force, for the year, is two hundred and fifty-two.

The business of the day force is wide and varied, requiring often times the exercise of much more than ordinary skill and judgment. A larger number than I have had at my command, could have been employed with benefit to the city.

Aside from the labors of the police, as given in the tables attached, there has been a large amount of service performed to the public. Stray horses have been taken in charge, and returned to their owners, lost children found and restored to their parents, and fires discovered, often in time to prevent much destruction of property.

There has been lost sixty-seven days, by policemen, from sickness.

When sickness is the result of the efficient performance of duty, the time so lost, in general, should, in my opinion, be allowed.

During the quarter there has been one suspension, and two resignations from office. The suspension was for neglect of orders.

I secretly need remark, that to give efficiency to the department, the rules and regulations made for its government, must be observed. Such violations as have come to my knowledge have received their proper attention.

There have been only nineteen persons sent to the Poor House, from the police stations, the present quarter. The number sent during the year, is one hundred.

The amount of property reported at my office, as stolen within the limits of the city, during the year, is much smaller than for either previous year of my administration. Much of the larger share reported has been recovered and returned to the owners, and the persons committing the larcenies arrested.

There has also been a considerable amount of property recovered, stolen in other places, and with the recovery of the property, the arrest of the thieves has been effected.

The number of complain's made at my office during and for the year for violations of the city ordinances have not been numerous. These coming more immediately within the province of the department for its notice, have been submitted to the City Attorney for disposal.

So far as I am able to judge, from the complaints made, and the Captain's returns from their Police Stations, the ordinances in relation to the Sabbath have been as well observed as for years previous.

Perhaps I should here remark that but little complaint has been made against the hackney coachmen. Their general conduct at the railway depots, and other places of resort, where they assemble, has been of a creditable character.

The expenses of the department the present year have been considerably less than the year previous, and over three thousand under the year 1858.

The estimate for the expenses of the department the present year, as fixed by the Council, is \$35,505 00.

The amount of fines collected by the Watch House Justices and Police Constables, and received by the Watch House Justices, for the year, is two thousand one hundred and forty dollars and twenty-five cents.

The amount stands credited as follows:

To H. B. Burt.....	\$31 00
Chas. Gardner.....	1,735 25
C. T. Shattuck.....	374 00
	<hr/>
	\$2,140 25

The amount of fines, however, collected through the agency of the Police Department, is much larger than would appear from the above statement; but I have no direct means of knowing what that amount is, as only the fines received through the police stations are reported at my office

As this is the closing report of my official term, I cannot refrain from expressing to your Honor my obligations to the captains of police and policemen who have acted under me, and whose term of office expires with mine, for their general good conduct and disposition manifested to perform their duties, often laborious, as well as dangerous, in a creditable manner.

During the time which I have held the office, there has been no riot or other public disturbance of a character to require the services of extra policemen. The system I do not regard as perfect yet. It has been quite effective in the protection of life, property and the public peace of the city. Respectfully submitted,

R. H. BEST, Chief of Police.

FURTHER FROM THE COMPTROLLER.

COMPTROLLER'S OFFICE, }
Buffalo, Jan. 14, 1861. }

To the Hon. the Common Council:

In compliance with a resolution adopted by your honorable body on the 27th ult., requiring me to report any and all orders withheld under said resolution, I respectfully report that the order for \$75 drawn in favor of Charles Gardner, on the 21th ult., in full payment for his services as Watch House Justice, is still in this office. Mr. Gardner proposed to deposit said order in the City Treasury in part payment of his indebtedness to the city for fines collected, which proposition I accepted, but on his refusing to sign a receipt for the same in full payment and satisfaction of his salary, I withheld the order with his assent, and he also promised to report to me at once the amount of his collections, &c., which report he has neglected to make. The amount collected for fines during the year 1859, as appears by the report of the Chief of Police, submitted to you on the 7th inst., is \$2,192 25, of which H. B. Barn collected \$31; Charles Gardner collected \$1,735 25, and Charles T. Shattuck \$421. Justice Shattuck has paid into the treasury the full amount collected by him. Justice Barn's account for the years 1859 and 1860 have not been examined, but think he is still indebted to the City for some amount. Justice Gardner has paid into the treasury \$1,214, leaving him still indebted \$188 25. He refuses to accept his salary as fixed by the Council for 1860, and it would thus seem that the matter may be litigated. It is time that officers of the city government should understand that they can not knowingly retain with impunity the moneys of the city. An officer so doing and withholding moneys due the city may be arrested criminally, indicted and convicted of a misdemeanor, fined or imprisoned, or both, and broken of his

office, besides being liable in a civil prosecution for such amount of indebtedness. I recommend that in this, and in all other cases of defalcations to the city, where the statute of limitations has not run, a summary process be adopted when a full and immediate settlement cannot otherwise be had.

I also report that the order directed to be drawn on the 24th ult., for \$225, in favor of C. S. Macomber, Esq., City Clerk, has not as yet come to this office, the same being retained by Mr. Macomber.

Respectfully submitted,

ALONZO TANNER, Comptroller.

Ald Howell moved that said communication be received and placed on file, and that the subject matter thereof be referred to the Committee on Finance and City Attorney, with directions to prosecute.

Pending the question on the above motion, the hour of 7 o'clock P. M. arrived, and the President declared the Common Council adjourned until one minute past 7 o'clock this evening.

FURTHER FROM THE COMPTROLLER.

COMPTROLLER'S OFFICE,
Buffalo, January 21, 1861. }

To the Hon. the Common Council:

GENTLEMEN:—The city has tax scrip of the sales in 1851 in amount about \$3,000; of the tax sales in 1855 about \$3,000; for the year 1856 about \$1,000; 1857 about \$12,000; 1858 about \$8,000; and of the sale in 1859 probably \$25,000 in amount. It would certainly be gratifying to me, as I have no doubt it would to your Honorable Body, could any plan be adopted whereby the bulk of the scrip owned by the city for the years named, could be paid; and the city treasury receive the funds therefor. Every subsequent sale of a lot for unpaid taxes impairs the sales of prior sales on the same lot. I know of no better way for the city to realize the money on these scrips, than that the Common Council should vest some discretion in the Comptroller, so that he may be authorized where circumstances will justify, to receive the taxes for these years at a less rate of interest than that fixed by the Charter. In order that the tax-payer may receive the benefit of such reduction, I would recommend that I be directed to advertise in the official

paper for three months, that any and all tax-payers will be permitted to pay such back taxes and redeem their respective lots from such sales so held by the city, at any time within said period of three months, by paying into the city treasury the amount for which the same were sold, and interest at a rate not less than seven per cent thereon, together with any expenses that may have been incurred for searches, serving of notices, &c. The city certainly would lose nothing if this plan should be adopted, while our oppressed citizen tax-payers would be much benefited and have an inducement held out to them to clear their lands of taxes. It will be seen that the plan proposed is wholly for the benefit of those indebted, and not for the benefit of parties dealing in scrip by way of speculation. At the expiration of said three months, I would allow any and all parties the privilege of buying scrip on the same terms. If the foregoing or a similar policy should be adopted at once, I think a large amount would soon be realized and the tax loan fund kept good to meet liabilities thereon as they may accrue, and parties interested, and the city, mutually benefited. The accumulation of back interest on old sales is so large, in many instances exceeding the principal, that tax payers find their burdens in this respect onerous in the extreme, and they certainly will appreciate by early payments the liberal policy proposed. If this policy should be adopted, I would compel parties redeeming under the same to pay all back taxes and make full redemptions for all sales prior to the sale of 1859.

Respectfully submitted,

ALONZO TANNER, Comptroller.

Filed and subject matter referred to Committee on Finance and Comptroller.

To the Honorable the Common Council of the City of Buffalo:

GENTLEMEN,—If you should not be able to act upon the subject of Charter amendments at your meeting this day, I would suggest that you have a meeting on the 22d or 23d instant, to fully consider the subject. Many of these proposed amendments are of much importance, and must soon go before the Legislature, if passed into a law during the present session.

I have a bill for the collection of County taxes by the Receiver, and sale of lands for the non-payment of taxes by the Comptroller, which I purpose laying before your honorable body at such meeting.

I have seen the Hon. S. V. R. Watson this day, and he expresses a desire that the Council shall act at once.

FROM THE SUPERINTENDENT OF SCHOOLS.

SUPERINTENDENT OF SCHOOLS' OFFICE,
BUFFALO, Jan. 14, 1861.

To the Hon. the Common Council:

GENTLEMEN:—On the 3d of December last I communicated to the Common Council my apportionment of the moneys due from the School Fund of 1860 to the St. Vincent's Orphan Asylum. The law governing this apportionment reads as follows:

"§ 1. The schools of the several incorporated Orphan Asylum Societies within this State, other than those in the city of New York, shall participate in the distribution of the school monies, in the same manner and to the same extent in proportion to the number of children educated therein, as the common schools in their respective cities or districts."

"§ 2. The schools of said societies shall be subject to the rules and regulations of the common schools in such cities or districts, but shall remain under the immediate management and direction of said societies, as heretofore."

Since my apportionment was made, I have been called upon by Rt. Rev. John Timon, Bishop of Buffalo, the incorporator, or one of them, of St. Vincent's Orphan Asylum. He urges upon me that the law evidently intends an apportionment to these orphans, per capita, of all the monies raised by general fund tax for school purposes, whether for salaries, fuel, maintenance or repairs. Taking the school fund of 1860 as the basis, such an apportionment would be as follows: Total School Fund, \$77,651 66; total School population, 33,153; Per capita to each scholar, \$2 54-10. Making the apportionment to St. Vincent's Asylum, \$241 13. But Bishop Timon further claims that the apportionment should be made on the actual cost of instruction per scholar; which would make the amount due St. Vincent's some \$500 or \$600.

I am disposed, however, to believe that my apportionment is legal and just. The City of Buffalo is a single school district, with one trustee—the Superintendent of Schools. The subdivisions known as "districts" are mere local conveniences, and in the distribution of money to them, the Superintendent is governed only by the amount he considers necessary to their support. In some districts the cost of instruction, per scholar, is twenty dollars per annum; in others, not more than five dollars. In some instances, teachers legally presumed to be of equal capacity, receive \$1,000 per annum; in others, only \$325 per annum. There is, therefore, no basis of equality among the districts themselves, upon which to apportion moneys to Orphan Asylums. But in all instances the school population of the district does govern the expenditure, and in proportion to the number of scholars the expenditures to each district increases. The school

population of the district known as St. Vincent's Orphan Asylum is 96; that of the city, 30,153. In my apportionment, I assumed that the State law could reach only the State moneys, viz: \$24,526 58; inasmuch as the remainder of the school fund, raised by tax upon the city, is in part devoted to repairs and department expenses, and is literally and absolutely under the control of the city, without reference to any existing State legislation.

Should the other theory be adopted, St. Vincent's Orphan Asylum would thereby become a "district," falling under the authority of the Superintendent to support it at such an expense as he may deem necessary; and, furthermore, it will then be his duty to enforce the ordinances as to the qualifications of teachers, the observance of holidays, full school-hours, avoidance of sectarian teaching, and other regulations specified by the law, when it provides that "the schools of said Societies shall be subject to the rules and regulations of the common schools in such cities or districts." This course has been already pursued in the case of the Buffalo Orphan Asylum, which stands merely *in loco parentis* to its children, exerting no more authority or control over their education than is conceded to any parent. In this case the system of entire submission to the Department has been found to work to the great convenience of the Asylum and its neighborhood.

Respectfully,
SANFORD B. HUNT,
Superintendent of Schools.

Referred to Committee on Schools, and ordered to be printed.

Ald. Jones called up the following petition, presented to the Council at the meeting this afternoon, and laid upon the table:

To the Honorable the Common Council of the City of Buffalo:

The undersigned begs leave to call your attention to certain abuses now existing in the collection of City Tax scrip, and to that end respectfully calls your attention to the following statement:—

On or about the — day of December, notice that the property described in Tax Sale certificates, Nos. 1221, 1257, 1222, 1248 and 1258, for taxes assessed to Raze & Dickey, was served by William A. Chard as a Notary Public, and as holder of said certificates, on Mann & Lord, in the city of New York.

That said notices were by them sent to your petitioner for the purpose of redemption.

That on the 11th day of January, 1861, your petitioner called on said Chard for the purpose of redeeming said Tax Sale certificates.

That the amount of certificates Nos. 1221 and 1257, and for which the same were sold, was \$9 75, to redeem which said Chard demanded and required the sum of \$28 05.

That both certificates covered the same premises included under one fence and one occupation.

That amount of tax sale certificates Nos. 1222, 1248 and 1258 was \$17 28—to redeem which said Chard demanded and required the sum of \$38 53.

That said Chard had with each of said certificates a search, and demanded on each \$1 25 for notices, but presented no proof of service of notices, and finally accepted 25 cents for each notice served.

That on or about the 10th day of February, 1860, your petitioner redeemed 15 tax sale certificates from said Chard, of a like character, and a portion on the same premises, and then enquired of said Chard, if he had any other certificates in which your petitioner was interested or against Raze & Dickey, and then offered to pay them, and was told by said Chard that he had none. Yet your petitioner finds annexed to the certificates herein-after mentioned, an affidavit of S. C. Adams, as deputy

clerk of search sworn to on the 13th day of February, 1860, and a search annexed to each of said certificates of sale at an expense of \$2 75 for each of said searches.

That at the time your petitioner paid the scrip herein mentioned, be supposed said William A. Chard to be the owner of the same.

That on paying the same to said Chard, he endorsed on the face of said scrip, "Received payment, January 11, 1861. W. A. Chard."

Your petitioner after payment took such scrip to the Comptroller's office, in order to have the same cancelled and discharged, and delivered them to J. F. Chard, Deputy Comptroller, who endorsed across the face of the same, "Discharged January 12, 1861. J. F. Chard, Dep. Compt."

That since said payment and discharge of said scrip, your petitioner has further examined said scrip and finds said W. A. Chard was not the owner of said scrip or assignee thereof, or entitled to receive or demand money on them or direct their discharge, and finds that in fact the same belongs to the City of Buffalo, and that fees and expenses have been made on the same by said Chard, as the agent of the city.

Your petitioner respectfully asks your Honorable Body in view of the large and onerous taxation that such order may be taken in the premises as shall relieve your petitioner, and other tax-payers, from further imposition and unnecessary expense in like cases, and determine by what authority the burthens of tax-payers are increased by those having no power, authority or interest in the scrip belonging to the city, and by whose direction such expenses are made.

And that your petitioner may have refunded to him the sum of \$13 75, paid to said Chard, as an agent of said city, for said searches, and that such further order may be taken as to the Council shall seem fit and proper.

OFFICERS OF THE CORPORATION.

COMPTROLLER'S OFFICE, 1
Buffalo, Jan. 28, 1861.

To the Honorable, the Common Council:

GENTLEMEN: I herewith submit to your honorable body, as required by the City Charter, a statement in detail, of the several sums that will, in my judgment, be required to meet the expenses of the year for all proper city purposes, and of the condition of the funds and revenues of the City, and showing what balance will, in my opinion, be necessary to be raised for specific purposes, in which is included the sum required for the support of the Fire-works, for twelve months, and to pay such principal and interest of such portion of the funded debt of the City, as shall hereafter become due within eighteen months after the first day of April next, and is not otherwise provided for. Acting upon the knowledge of the wants of the various departments of the City Government, and judging from the experience I have had in the discharge of the duties incumbent upon me, I have endeavored to estimate for no larger amounts than shall be reasonably, or rather actually necessary to meet the requirements of the Charter. The total amount of estimate, as will be seen by the statement in detail, is \$293,247 82; less estimated resources, \$38,250, leaving \$254,997 82, amount to be raised by tax for the current year.

The estimate for the different departments is considerably less in the aggregate than the amount fixed in 1860. My estimate for the departments of the government are \$17,161 66, less than the amount appropriated for the year 1860. This is exclusive of principal and interest on the funded debt. That is, the estimate for the Mayor's, Common Council, Comptroller's, Treasurer's, Assessor's, City Clerk's, City Attorney's, Board of Health, Receiver of Taxes, Police, Public Ground, Superior Court, Lamp, Hydrant and Water, Market, Election Expense, and Fourth of July Departments, and for dredging outside North Pier, Erroneous Taxes, and for interest on orders, is in the aggregate, \$22,758, less than the amount appropriated for 1860, while the Surveyor's, Poor Master's, Street Commissioner's, Fire, City Hall, and School Departments, have been increased, in the aggregate, \$5,596 04.

In my judgment, the several departments have been, and are being, economically managed. I have estimated for one clerk in the City Clerk's office, and also for one clerk in the Street Commissioner's office, more than your honorable body have determined for these offices respectively. I am satisfied this helps, and will continue for a year or two, to be needed in these two departments. My estimate for the Fire Department is largely in excess on the supposition that two new steam fire engines will be purchased here in the year. It is thought not to be entirely advisable, the estimate for the Department, of course, being thereby increased. The school Department is increased 1,410 last year, in my estimate for the current year [2,110] following to the increased number of Teachers. The Buffalo Savings Bank holds \$11,000 of the funded debt of 1852, 1859, on account of Ship Canal, and the President and Secretary of the Bank have given me notice that the money was to be required this year, hence, I have estimated for the same. These bonds were payable in one year from their issue. I regret that the bank requires this money so soon, for I am not without hopes that the money might eventually be realized from a ship

Canal tax scrip, and so save the general fund from the payment of same. I have estimated nothing for the Local Improvement and Special Local Fund, as in the first named fund there is a balance of \$1,453 09, and in the last named \$569 09, it not being necessary in my judgment to increase these funds this year.

The Library Fund is not provided for by taxation—the balance in the same is \$203 01, to which will soon be added \$1,166 25, the apportionment from the State.

The following table shows in the first column the amount determined and fixed for city purposes for the years 1854 to 1861, and the second column shows the actual amount raised during these years by direct tax after deducting the estimated resources for said years:

Year.	Total amt of estimates.	Am't raised by Tax.
1854.....	\$322,155	\$322,155
1855.....	342,950	273,550
1856.....	419,063	319,900
1857.....	442,650	297,825
1858.....	364,927 25	293,777 25
1859.....	295,009 90	239,419 90
1860.....	297,673 60	255,073 60
1861 estimated.....	293,247 82 estimated	254,997 82

It affords me pleasure to act with your honorable body in any and all measures calculated to lessen our city expenses, and I trust after you shall have passed upon the estimates herewith submitted, the public at large, interested as well as ourselves, will be satisfied that the action had in the premises is right.

Respectfully submitted,

ALONZO TANNER, Comptroller.

The following communication was received:—

To the Hon. the Common Council of the City of Buffalo:

I hereby report that I have examined the proceedings of your honorable body in regard to Assessment Roll No. 2292, and also Nos. 2299 to 2336, both inclusive.

From the opinion that Roll No. 2317 is illegal; (this Roll is for constructing a sidewalk on the southerly side of Ferry street, between Niagara street and the Erie Canal; on the 4th of June, 1869, your honorable body ordered the sidewalk on the southerly side of Ferry street graded between the westerly curb line of Niagara street and the Railroad bridge; on the 11th of August, 1869, you ordered a sidewalk to be constructed on the southerly side of Ferry street from Niagara street and the Erie Canal, by laying down the plank. It will be noticed that the *termini* of the two works ordered are different; I think they are two separate works. On the 22d day of Octo-

ber, 1860, the Street Commissioner reported both works completed, the grading at a cost of \$48 25, the plank work at a cost of \$8—making in all \$56 25. On the 12th of November your honorable body ordered an assessment for said sum of \$56 25 to pay the expense of both works. This I think you had no power to do, but that you should order a separate assessment for each improvement.

I further report that I am not satisfied of the legality of Rolls Nos. 2292, 2321, 2330 and 2332, and desire to give them further examination.

I am of opinion that your proceedings on the remainder of said Assessment Rolls have been regular, and that said Rolls are valid.

GEORGE WADSWORTH,
City Attorney.

COMMUNICATIONS FROM THE MAYOR.

Gentlemen,—I return without my approval, the resolution passed by your hon. body on the 21st ult, directing an order to be drawn in favor of William Riggs, for Fifteen Dollars, seven cents, pay as Policeman for December 1860.

The objection to this resolution is, that Mr. Riggs performed no duty during the month of December, he being sick, and that he has been allowed, previous to this order being drawn, all that he was considered entitled to, such allowance being a liberal one under the circumstances. The precedent established by your resolution is one which would have the tendency to cause frequent applications for relief, from the members of the Police, and a bad effect on the efficiency of that Department.

Very Respectfully,

F. A. ALBERGER, Mayor.

Filed and subject matter referred to Committee on Police.

FURTHER FROM THE MAYOR.

GENTLEMEN: I return, without my approval, the following resolutions, adopted at your last session:

One directing an order to be drawn in favor of Churchyard & Bensingler, for \$46 60, on fund for constructing sewer in Emslie, Seneca, and Van Rensselaer streets.

One directing an order to be drawn in favor of George L. Burns, on fund for Fire Department for 1860.

The objection to the first resolution is that when the assessment was made for the sewer in Emslie street the work to be paid for was not contemplated in such assessment, and it would therefore be improper to draw an order for new work on that fund.

The objection to the second resolution is, that there is no authority to draw an order on the fund of 1860 for work or material furnished in 1861.

Very Respectfully,

F. A. ALBERGER, Mayor.

Filed and so much thereof as relates to order for Churchyard & Bensingler referred to Committee on Sewers and balance referred to Committee on Fire.

FURTHER FROM THE MAYOR.

Gentlemen,—I return without my approval so much of the resolution passed by you at your last session, as authorizes the City Clerk to cause the "official city paper" to be furnished to each member of the Common Council.

The objection to this resolution is, that I find no authority for the Council, by resolution or otherwise, (by a valuable gift) to increase their salaries during their term of office.

If they have authority to vote themselves, by resolution, the "official paper," the same authority would allow them carriage hire or any other convenience, for each individual member, that they might think proper or necessary. With this construction of the Charter I cannot agree, believing that such construction would be dangerous as a precedent, and leading to unusual expenditures which should be avoided.

Respectfully,

F. A. ALBERGER, Mayor.

Filed and subject matter referred to Committee on Claims.

FURTHER FROM THE MAYOR.

Gentlemen—I have been served with a summons to appear before Charles T. Shattuck, Esq., on the 6th inst., at 2 o'clock P. M., wherein Richard Hornbuckle is plaintiff and the city of Buffalo is defendant.

Respectfully submitted,

F. A. ALBERGER, Mayor.

Filed, and the City Attorney directed to defend, if deemed advisable.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

Gentlemen—H. Monlun of the City of New York, holds \$2,000 six per cent. Buffalo city bonds, issued June 1, 1852, due June 1, 1861, which he offers to give up on receiving the principal, thus abating the interest that has accrued since December 1, 1860. I think the proposition should be accepted, and I would recommend that an order be drawn in my favor, payable out of the General Fund for 1860, upon the estimates for the payment of the principal on the funded debt, for \$2,010 02, with which to pay the same.

Principal.....	\$2,000 00
Commission to Duncan, Sherman & Co. $\frac{1}{2}$ per c.....	5 00
Premium on draft.....	5 02

Total as above..... \$2,010 02

ALONZO TANNER, Comptroller.

Filed, and orders directed to be drawn as recommended.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN: I have re-appointed James F. Chard as Deputy Comptroller, James Inghs book-keeper and William H. Slade clerk in this office, and I respectfully ask that these appointments be confirmed. The position occupied by M. Danner, Jr., during the past year, was vacated by him on the 11th ultimo without notice to me, and I have not yet permanently filled the same. As we are now and have been since the 20th ult., copying the returned taxes as provided by the Charter, and the business of the office being also materially increased in making bills for taxes, &c., I have employed for the present exigency Mr. Lewis Trowbridge and Henry Tanner, Jr. Mr. Trowbridge having been employed since the 21st ult. and Mr. Tanner since the 1st inst. I would ask that my action in the premises be approved by your honorable body.

ALONZO TANNER, Comptroller.

Ald. Howard moved that said communication be received and filed, and that the nomination of William H. Slade and James Inghs be confirmed, and that the subject matter of the balance of said communication be laid on the table. Carried.

FROM THE CITY ATTORNEY.

I hereby report that an action has been commenced against the city by Elizabeth Read, to recover the amount due upon 17 local orders. I have examined into the condition of the several funds upon which said orders are drawn, and have ascertained the following facts: four of said orders, one of which is dated October 2d, 1854, the other three of which are dated Sept. 18, 1854, are drawn on the fund "for abating nuisance east side of Chicago street, south corner of Mackinaw street; said orders are for \$37 50, \$4 00, \$14 00 and \$19 25 respectively. The Treasurer books show a debtor balance to this fund of 5 cents. I am informed that the city holds scrip on account of this fund to the amount of \$226 52, which is probably worthless, for the reason that the land is erroneously described,

Three of said orders, drawn for \$46 87, \$16 18, and \$2 25 respectively, one of which is dated February 21, 1853, and the other two February 14, 1853, are drawn on the fund "for billing Fir street, between Carolina street and Johnson and Park Places." This fund is not good for the reason that the city holds scrip on account thereof to the amount of \$141 78, the money for which has not been paid into the City Treasury.

Three of said orders all dated Nov. 6, 1854, for \$16 00, \$50 00 and \$50 00 respectively are drawn on the fund "for sewer in Goodell alley from Tupper to Goodell street." This fund is not good for the reason that \$96 56 of the assessment has been remitted.

One order for \$25 00, dated October 16, 1854, is drawn on the fund "for work on well corner of Pennsylvania and N.agara streets." \$24 50 of this assessment remains uncollected, the scrip being owned by the city and the fund is good for \$2 11 only.

Six of said orders are dated September 12, 1853, and are drawn on the fund "for abating nuisance, on the south side of Exchange street, 440 $\frac{1}{2}$ feet front, 300 feet west of Michigan street, for \$3 66, \$1 31, 80c., 41c., 80c., and \$2 50 respectively.

This fund is deficient, because the Council on the 12th of December, 1853, remitted \$15 of the assessment. I am of opinion that there is no valid defence to this action, and therefore recommend that your Hon. Body provide some way for the payment of these various orders.

GEORGE WADSWORTH,
City Attorney.

Referred to Committee on Finance.

FURTHER FROM THE CITY ATTORNEY.

I hereby report that by an order this day made by the Superior Court of Buffalo, Hiram Barton, William W. Mann, and Fayette Ramsay were appointed Commissioners in the matter of extending Katharine street.

Respectfully submitted,
GEORGE WADSWORTH,
City Attorney.

Received and placed on file.

FROM THE STREET COMMISSIONER.

GENTLEMEN:—Believing that you have been misinformed in relation to the amount of labor necessary to conduct the business of this Department, I deem it a duty to you, the public and to myself as its head, to say that from three years experience, I am satisfied that the duties cannot be well performed with less than two clerks or assistants. The business of this department, like other departments of the city government, is constantly increasing as improvements extend out from the centre, and as the population increases; and what could be done six years ago with ease requires extra exertion at the present time; and while the number of employes in the other departments have been greatly increased, the business in this is done with the same assistants; therefore I respectfully ask that so much of the proceedings of your honorable body as provides for only one clerk in this office, may be reconsidered and two allowed as heretofore.

L. J. WATERS, Street Commissioner.

Referred to Committee on Streets.

FURTHER FROM THE STREET COMMISSIONER.

GENTLEMEN—On the 21st day of November, 1859, the Common Council ordered a public well constructed at the corner of Michigan and Carlton streets, at an expense not exceeding \$100. The work has progressed under many difficulties, by reason of quicksand. It is now excavated and tubed to the rock, without obtaining the necessary amount of water, and the amount limited in the order is expended; therefore it will be necessary for further action of your honorable body before the well can be completed. The total expense, including pump and fixtures, will probably exceed \$2 0, making it necessary to publish a notice that the Council intends to order the work; and the undersigned respectfully recommends that such action be had as will complete the work at as early a day as possible.

L. J. WATERS, Street Commissioner.

Referred to Committee on Water.

FROM THE CITY SURVEYOR

In compliance with your resolution of January 28th, I have examined the Bridge over the Cazenovia creek, on the Cazenovia road, and herewith submit a plan and estimate of the cost of thoroughly repairing, and making it perfectly secure.

The plan on which the bridge was first built was so defective that it is utterly impossible to repair it so as to make it secure on the present plan. It will therefore be

necessary to put in new trusses entirely, as shown by the plan hereto annexed.

The total cost of this change, together with the expense of securing the abutments, will be \$256.

The present bridge is in a very dilapidated condition, and should be attended to immediately.

PETER EMSLIE,
City Surveyor.

Referred to Committee on New Territory.

FROM THE SUPERINTENDENT OF SCHOOLS.

SANFORD B. HUNT,
Superintendent of Schools.

Referred to Committee on Schools.

FROM THE CITY TREASURER.

Gentlemen,—I have nominated to the position of book-keeper in this office, Mr. James W. Otto, and would respectfully ask the confirmation of said appointment. I would also recommend the continuance of the services of Mr. John Mather in the completion of the labors on the old balances previous to 1854, between this office and the Comptroller's. All of which is respectfully submitted.

JOHN S. TROWBRIDGE, Treasurer.

I concur in the recommendation last named in the above communication.

AN ACT,

To amend an act entitled "An act to revise the Charter of the City of Buffalo, and enlarge its boundaries," passed April thirtieth, eighteen hundred and fifty three, and the several acts amendatory thereof.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 11 of Title 2 is hereby amended, so as to read as follows:

Section 11.—The Inspectors of each district shall proceed in the manner required by the general laws of the State, relating to elections other than in towns. They shall provide one ballot-box, to be marked "City," and one ballot-box, to be marked "Ward." All city officers voted for, except ward officers, shall be on one ballot, to be endorsed "City," and the ballot for Ward officers, shall be endorsed "Ward," which ballots shall be respectively deposited in the boxes, marked "City" and "Ward." Upon the closing of the polls the Inspectors shall forthwith, without adjournment, canvass the votes received by them, and shall on the same, or next day, make, certify, and file with the City Clerk, a statement of the result, specifying the whole number of votes given for each officer, and the number of votes given for each person for each office.

Section 17 of Title 3, is hereby amended so as to read as follows:

Section 17. The act now in force concerning the limitation of the number and the appointment of Commissioners of Deeds and Notaries Public, in and for said city of Buffalo, by the Common Council, shall continue in full force, and the Comptroller, City Clerk, Auditor,

Treasurer, Receiver of Taxes, Street Commissioner, Assessors, City Surveyor, City Attorney, Superintendent of Schools, and their respective deputies, where a deputy is designated, shall by virtue of their office respectively be ex officio Commissioners of Deeds of the city, and in taking acknowledgments and affidavits, pertaining to their respective departments, shall not exact or receive a fee therefor.

Section 8 of Title 5 is hereby amended so as to read as follows:

Section 8. The Common Council shall not, by drafts or warrants on the Treasury, or by any other form of contract, create a liability for the city to pay a greater amount in any one department of city expenditures than shall have been specified and provided for in the previous annual statement of the Comptroller, as adopted by the Common Council, and any drafts, warrants or contracts that shall be issued or made, after such specified amounts shall have been reached or exhausted by previous drafts, warrants or contracts, shall be void as claims against the city, but may be enforced as personal liabilities, jointly and severally, against the members of the Common Council voting in favor thereof; but nothing herein contained is intended to prevent the Common Council from drawing orders on the Treasury in payment of the salaries of all officers of the city, and for the ordinary expenses of the city, between the first day of January in each year and the time when the estimates are confirmed—but the aggregate of all the drafts or warrants drawn in any year against any department shall in no case exceed the annual estimate of the Comptroller, as adopted by the Council for that year.

Section 10 of Title 5 is hereby amended so as to read as follows:—

Section 10. On the first day of September, and on every twentieth day thereafter, there shall be added to every unpaid tax one per cent. thereof until the amount added shall be six per cent. of such tax. On the first day of January the Receiver shall add to every such tax six per cent. of the amount thereof as stated in the Roll, and the amount of the tax and of such addition shall thenceforth be the unpaid tax, and shall bear interest from that day at the rate of seven per cent. per annum until paid.

Section 12 of Title 5 is amended to read as follows:—

Section 12. Every tax and assessment heretofore or hereafter levied, with the addition thereto authorized by the several sections of this Title, and the interest on the aggregate amount at and after the rate of seven per cent. per annum, shall be a lien upon the land upon which it is assessed or charged for five years from the time the roll containing such tax or assessment shall be finally confirmed.

Section 15 of Title 5 is hereby amended so as to read as follows:—

Section 15. Every lot advertised for sale shall be subject to a fee of twenty cents, to be called "printer's fee," and also shall be subject to a further fee of twenty-five cents in case of redemption before sale, and of fifty cents if a sale be had, to be called the "Comptroller's fee," but both said printer's and Comptroller's fee to belong to the city. A sale of any parcel may be prevented at any time by payment to the Treasurer, by bill from the Comptroller, of the full amount of the unpaid tax thereon, with the interest and Comptroller's and printer's fees.

Section 16 of title 5 of said act is hereby amended so as to read as follows:

Section 16. No sale shall be valid unless made while the tax for which it is made is a lien upon the land sold. All such sales shall be made for the shortest term of years for which any person will take the premises and pay the unpaid tax, with the interest and charges. Such payment shall be made before the conclusion of the sale, and if not so made the Comptroller may re sell the property, or the City may have its action for the payment and interest at fifteen per cent. per annum. The sale may be adjourned from time to time until the lands are disposed of, and such as are not bid for when offered for sale or for re-sale as aforesaid, shall be struck off to the city for the term of one hundred years. A certificate of the sale of each parcel of land sold shall be made by the Comptroller and delivered to the purchaser, provided such purchaser shall, within thirty days from the close of the sale, take an assignment of and pay for all tax liens, if any, held by the city; but in default thereof the certificate of sale shall issue to the city as a bidder for the term of one hundred years. Such certificate shall contain a description of the property, and the time for which it was sold, and the amount with interest and expenses for which the sale was made, and the time when the right to redeem will expire.

Section 20 of Title 5, is hereby amended so as to read as follows:

Section 20. The holder of any such certificate or certificates shall file a copy thereof in the office of the Comptroller, including an account of the expenses actually incurred and paid by him, her or them, and allowed by this act, in items and in detail; which statement shall be verified by the oath of the holder of such certificate, or his agent or attorney, to the effect that such amount and the expenses therein included have been actually incurred and paid, except as to such items as shall relate to amounts charged in such accounts as having been paid to any city or county officer. Such last mentioned items shall be verified by the sworn statement of such city and county officer to whom such amounts are charged to have been paid, to the effect that such payments have been made in good faith to him for the identical services charged in such bills, and that such services have been actually rendered by the person making such statement, at the request of and for the holder of such certificate, and that he is not interested in such certificate, or in the redemption of the land therein described, in any manner directly or indirectly, and that the said charges do not exceed the fees allowed by law.

Any owner or claimant of any parcel of real estate heretofore or hereafter sold, or any specific part or undivided interest in or share of such parcel, may at any time, after such sale (and before a declaration of sale is granted as provided by section 15 of this title,) redeem the same, by paying to the City Treasurer, for the benefit of the holder of such certificate, his representatives or assigns, the amount paid by him, her or them, with the addition of ten per centum per annum on such amount, and the expense of any publication, and all other expenses incurred by him, her or them, and allowed by this act, and specified in the statement above provided for. And on such payment being made, the title acquired by such sale shall cease. But until the copy of the certifi-

cate of sale, together with the statement herein before mentioned, shall be filed as herein before required, the owner or claimant of any parcel of real estate so sold, or any part or parcel thereof or interest therein, may redeem the same by paying to the Treasurer the amount for which the same was sold, with the addition of 10 per cent. per annum, and depositing with him ten dollars to meet the holder's said expenses and his written promise to pay the residue, if any; but if any portion of said ten dollars shall remain after paying said expenses, the same shall be returned to the said owner upon his demanding it, at any time after three months from the time of making such deposit. And in such case upon such payment being made to the Treasurer, as aforesaid, the title acquired by such sale shall cease. Non-resident owners may appoint agents residing in the city; and on filing such appointment with the Comptroller, he shall enter the name of such agent in a book to be provided by him and kept in his office.

The 21st section of said title 5 is hereby amended so as to read as follows:

Section 21. At any time after nine months, and within three years after the sale of any parcel of land for any tax, the purchaser, his representatives or assigns, may give notice to the owner requiring him to redeem the same in three months thereafter, by making payment above required. If such owner be a resident of the city the notice shall be served on him personally, or by leaving the same at his residence or place of business, with a person of suitable age and discretion; if he be not a resident of the city, it shall be personally served on his registered agent, if he have one; if he have no such agent, then by properly enfolding and enclosing the same in an envelope directed to the place of residence of such owner, and after pre-paying the postage thereon, depositing the same in the Post Office at said city of Buffalo; if the place of residence of such owner be not known and cannot be ascertained, then by publishing said notice for three days in the official paper of the city, a copy of which paper, containing said notice, marked so as to call attention thereto, mailed to such owner, directed to his last reputed residence, and also by serving a copy of said notice on the person in possession, if any. If the owner shall not redeem the land in three months after any such service or first publication of such notice, or before a declaration of sale is granted, his right of redemption will be divested; and an affidavit of any such service or publication, and of the facts authorizing the service by publication taken before an officer authorized to take affidavits, to be read in courts of records and filed in the office of the Comptroller, shall be presumptive evidence of the facts therein contained. And such notice shall in all cases be served by some person other than the bona fide owner of such certificate of sale.

The 23d section of title 5 is hereby amended so as to read as follows:

Section 23. The provisions of the act entitled "An act authorizing mortgages to redeem real estate sold for taxes and assessments," passed May 14, 1840, except so far as they are inconsistent therewith, shall apply to all sales of real estate for taxes or assessments made under this act. The Clerk of Erie County, when requested by the owner or owners of any certificate or declaration of sale issued under this act shall search and certify the title of

and Incumbrances upon the real estate therein described, from such time as the Common Council shall direct, and shall be paid therefor the fees specified in the thirteenth section of the 342d chapter of the laws of this State, passed in the year 1810. On a redemption under this title the person or persons redeeming shall pay to the purchaser, his representatives or assigns, the amount of the bid, together with 10 per centum per annum thereon, and all expenses actually incurred for searches of title, but no more than one search shall be allowed when said party holds more than one scrip on the same premises. Newspaper publication, postage, and notarial fees, and twenty-five cents for every notice served, when not served by a notary, and when served by a notary the fees for service shall be fifty cents, including said notice and notary's certificate, and twelve cents for every affidavit necessarily made and filed in pursuance of this title.

Section 31 of Title 5 is hereby amended so as to read as follows :

Section 31. The Receiver of Taxes or the Comptroller, as the case may be, in all cases of unpaid taxes and assessments on account of the city, upon rolls in their respective offices, before a sale for such taxes, and thereafter if the certificate of sale shall belong to the city, shall on application of any person desiring to pay any of the taxes set forth in said rolls, or certificates of sale as aforesaid, together with the interest and expenses that shall have legally accrued thereon, furnish such person with a transcript in detail of the taxes, interest and expenses thereon so desired to be paid ; and upon payment into the Treasury of the amount specified in such transcript, and necessary to cancel such tax, and the receipt of the City Treasurer endorsed upon such transcript, and countersigned by the Receiver or Comptroller, such tax shall be cancelled or sale discharged by the Receiver or Comptroller, as the case may be.

The Receiver of Taxes shall report weekly to the Comptroller, and file with him on Monday of each week a statement of the amount of taxes and expenses thereon, discharged by him during the previous week, which statement shall specify the fund on account of which every part thereof accrued, and shall also specify the aggregate amount of taxes and expenses discharged by him from each assessment roll as numbered.

The Receiver shall also present a duplicate copy of such statement to the Common Council on Monday of each week, or at such other time as the Council may direct, and said Receiver shall also daily report to the City Treasurer a statement of all taxes and expenses thereon, discharged by him during each day—specifying the fund as aforesaid ; and the Treasurer shall thereupon receipt daily, in a book to be kept by said Receiver, the amount so received through his office.

The Comptroller shall make a like report daily to the Treasurer, of the amount of taxes and expenses thereon, discharged by him during each day, and the Treasurer shall receipt the same in like manner as provided for the Receiver. The Comptroller shall also make a like report to the Council as that required by the Receiver, and present the same weekly to the Council as aforesaid, showing a statement of the amount of taxes and expenses, thereon, discharged by him during the previous week.

The City Treasurer shall report to the Council on the first Monday of each month, or at such other time as the

Council may direct, a statement embracing the daily reports to him from the Receiver and Comptroller, of the previous month, which report shall specify the amount of money so received by him during the previous month, as well as any and all other monies he may receive on account of the city, specifying the fund, whether General or Local, Water or Lamp, &c., in the aggregate as aforesaid in detail. He shall deposit daily, subject to his own draft, in the Bank or Banks as designated by the Council, and shall embrace in his said monthly report to the Council, a statement of the amount of cash on hand and in Bank, his daily deposits therein, and drafts daily therefrom, during the previous month.

It shall be the duty of the Bank or Banks, so receiving the deposits on account of the city, to report to the Comptroller on the first Monday of each month, or at such other time as the Council may direct, a statement of the amount of money belonging to the city on hand, the daily additions thereto, and the daily drafts therefrom, during the previous month, which statement shall be laid before the Council at the time aforesaid and filed in the office of the Comptroller.

All other officers of the city who shall receive any money on account of or belonging to the city, shall, on receipt thereof, pay the same forthwith to the Treasurer and report the same to the Comptroller, and make a report of the same to the Council, at the next meeting thereafter.

A willful neglect or omission on the part of any officer of the city, to comply strictly with the provisions of this section, shall be deemed sufficient cause for his removal from office, and on satisfactory proof thereof to the Council, after an opportunity to be heard, any officer of the city so offending may be removed from office by a vote of two-thirds of the Aldermen elected to the Council, all other provisions of the City Charter, or statutes of the State of New York, to the contrary notwithstanding.

Title 5 is hereby amended by adding the following as Section 40 :

Section 40. The Common Council may in their discretion allow payment by owners or others interested in lands sold to the city for the non-payment of taxes, where the certificates or declarations of sale are held by the city, to redeem the same by the payment of the amount for which such sales shall have been made, and not less than 7 per cent. interest thereon, and the expenses properly chargeable thereon.

Section 5 of Title 6, is hereby amended so as to read as follows :

Section 5. The Common Council may, whenever they shall deem it expedient, establish, maintain and regulate a Central School, in which shall be taught the higher branches of English education, authorised by the Common School laws of this State, and buy such land and erect such buildings thereon as may be necessary for the purpose, and raise the necessary money as a part of the general city tax ; such school shall be entitled to its pro rata share of the Literature Fund of the State, equally with and on the same footing with the academies and high schools of the State, under the charge of the Regents of the University of the State.

Subdivision 6 of section 9 of title 6, is hereby amended so as to read as follows :

6th. To order from time to time a tax to be levied up-

on the taxable property of any district, sufficient to pay all such sums as they may deem necessary to be expended in such district, for the purchase of or payment for land therein, and the building, furnishing and repairs of school houses and their appurtenances, and no expenditures for repairs less than twenty five dollars shall be a charge upon the district, but the Common Council shall assess the cost of any expenditure larger than twenty-five dollars upon the taxable property of the district.

Section 35, of title 7, is hereby amended so as to read as follows:

Section 35. The Police Justice of the city shall receive from the Board of Supervisors, in lieu of all fees whatever, an annual salary of not less than two thousand dollars. He shall have sole and exclusive jurisdiction in the city, to hear complaints and take examinations in criminal cases, except as is otherwise provided by this act. He shall also have sole and exclusive jurisdiction to hear, try and determine all cases of vagrancy in the city not disposed of by the Justice or Justices of the Peace attending the public Station houses under section 34 of this title. He shall possess, and may execute and perform the duties required by said section 34 to be performed by Justices of the Peace.

All statutes or sections of said City Charter inconsistent with this section, as now amended, are hereby repealed, except that nothing herein contained shall repeal section 36 of said title 7.

Section 31, of Title 8, is hereby amended so as to read as follows:

Section 31.—The Common Council shall not order the making of any improvement specified in this title the expense of which, exclusive of the fees of assessment and collection, as first estimated, shall exceed two hundred dollars, unless by a vote of two thirds of the members elected to the Common Council, and after publication of their intention to make such order in ten successive numbers of the city paper, nor shall they make any contract for making any new work or improvement specified in this title, the expense of which shall exceed \$100—until they shall have caused notice to be published at least six days in the city paper, asking for sealed proposals, to do such work, according to the plan, specification, or order therefor, which they shall adopt to be made at a time and place to be mentioned in said notice, but said Council may award the contract for such improvement to any bidder therefor, other than the lowest, as they shall deem best for the interest of the City, but in case they award the contract for such improvement to any person other than the lowest bidder therefor, they shall specify the reason for such awards, in the order making the same. Adopted.

Section 6, of Title 2, is hereby amended so as to read as follows:

Section 6.—The electors of each ward shall elect annually, in each ward, in the manner now prescribed by law, one Alderman, and one Constable; also, one Supervisor and three Inspectors of Elections, in each election district of the city, and no Alderman hereafter elected shall directly or indirectly receive, or be allowed a greater sum than one hundred dollars, for his services as such Alderman, in any one year, and in that proportion for any shorter term.

Title 8, of said Charter is hereby amended by adding the following as Section 34:—

Section 34. It shall be lawful for the Common Council to cause any and all awards hereafter made under this title, to be credited on the tax levied under section 17, so that any party who may have an award in his or their favor, made by the Commissioners for lands taken, damages sustained, &c., shall be compelled to apply the amount of such award to the payment of the assessment named, and if the award be greater than the assessment in any such case, it shall be lawful for the Common Council to direct an order to be drawn in favor of the City Comptroller, for so much of said award as may be sufficient to pay the tax or assessment against the party assessed, and in whose favor such award is made, and for the balance of such award, after the paying of the tax as aforesaid, an order shall be drawn in favor of the party entitled thereto, as named in the report of Commissioners, in full payment of such award.

Title 9 is hereby amended by adding the following as section 13:—

Section 13.— The Common Council shall have power to purchase a lot of land for the purposes of a pest house, and to erect proper and suitable buildings thereon, for a pest house, and for a keeper thereof, and by a vote of two-thirds of the members elected to the Council, may issue the bonds of the city for a sum not exceeding \$15,000, payable at such time as they shall determine, not exceeding 10 years, bearing interest not exceeding 7 per cent., and in case of the purchase of a new lot for the purpose aforesaid, the said Council may in its discretion sell the pest house lot now owned by the city, on such terms as in their judgment will best promote the interest of the city and in case of a sale, shall apply the proceeds of such sale exclusively to paying and discharging the principal and interest of the debt created for the purchase and improving such new lot, and the said Council shall in their annual estimate raise so much money as shall be necessary to meet the principal and interest of the said debt not otherwise provided for.

Title 12, is hereby amended by adding the following as Section 88.

Section 88. The Common Council is hereby authorized and empowered to consolidate into one fund, to be known as the Harbor Repair Fund, all the balances in the Treasury of said city, heretofore or hereafter received therein, from local assessments, made by order of the Common Council of said city, prior to the first day of January, 1854, and the amount of said balance, after paying all outstanding orders against said funds, respectively, that were drawn against the same, prior to 1854, shall be appropriated towards the repairs and maintenance of repairs upon the harbor, provided the Common Council, after reserving sufficient funds for the payment of the local fund orders mentioned, shall first reimburse from said fund the General Fund of 1853, of said city, all payments that may have been made from said General Fund since the first day of January, 1854, on account of local works ordered prior to said first day of January, 1854.

Adopted.

Ald. Savage called up the petition of sundry persons, asking the Legislature to repeal the act organizing the Superior Court of Buffalo, presented to the Council this day, and laid on the table.

Ald. Howard moved that said petition be laid upon the table for one week, to be taken up under the order of "Motions, Resolutions and Notices," and that the same be printed with the Council proceedings in the city paper. Carried.

The following is the petition:

To the Honorable the Legislature, of the State of New York.

The Undersigned, residents and tax payers of the city of Buffalo, respectfully petition your Honorable body to repeal chapter ninety-six of the laws of the State of New York, passed March 28, 1851.

Your petitioners ask the repeal of this law, creating the Superior Court of Buffalo, because they believe the Court as at present constituted, to be an expensive and unnecessary luxury, which the city cannot afford during the present hard times.

Adopted.

Ald. Jones moved that this Council do now adjourn. Carried.

The Common Council then adjourned to meet next Monday afternoon, Feb. 11th, 1861, at 2 o'clock.

O. F. PRESBREY, City Clerk.

MINUTES No. 6.

CORPORATION PROCEEDINGS.

IN COMMON COUNCIL,
BUFFALO, Monday, Feb. 11, 1861,
At 2½ o'clock P. M.

Present—Asaph S. Bemis, Esq., President of the Council, and Ald. Allen, Beckwith, Bemis, Brush, Crowder, Dorr, Felton, Goemmel, Grass, Hannoveran, Howard, Mills, Almer, Pratt, Russell, Rutter, Savage, Scheu, Schwartz, Storck, Wheeler and Yaw.

Absent—Ald Adams, Howell, Jones, and Walsh.

The minutes of the last meeting were approved.

OFFICERS OF THE CORPORATION.

FROM THE CITY ATTORNEY.

I hereby report that the action of John W. Clark against the City of Buffalo, was tried on the 4th inst., in the Superior Court, and decided in favor of the City.

The amount claimed by the plaintiff, including interest, was nearly \$10,000.

I also report that my disbursements in said suit amounted to \$39 62, for witness and clerk's fees, exclusive of Sheriff's fees, which are \$2 69 more.

GEORGE WADSWORTH, City Attorney.

Filed and subject matter referred to Committee on Finance.

FURTHER FROM THE CITY ATTORNEY.

I hereby report that on the 6th inst., Richard Hornbuckle recovered a judgment against the City, before C. T. Shattuck, Esq., for \$16 50 damages and \$1 94 costs.

This action was brought to recover for work done at a well on the corner of William and Monroe streets, which is not a public but a private well; the work was ordered by the Council Sept. 5th, 1859. No assessment could be made to pay for the work, but the claim is a valid one against the City. I therefore recommend that an order for \$18 44 be drawn in my favor on the General Fund City Attorney and Legal Expense Department, with which to pay said judgment.

GEORGE WADSWORTH, City Attorney.

Filed, and order directed to be drawn

FURTHER FROM THE CITY ATTORNEY.

I hereby report that I have examined the claims of Morris Helmes, John Carr, Peter Vogle, and Henry V. Soule, for services since August 27, 1860, and find that Morris Helmes was appointed captain of police and the others of said claimants policemen, on the 19th of August, 1857, and that they all took the oath of office on that day or within three days thereafter, and entered upon the duties of their offices, and have been paid in full for their services to Aug. 27, 1860. I also find that they were again appointed

to said offices on the 1st day of January, 1858. The term of office prescribed by the Charter for captains of police and policemen, is three years. I suppose that these claims are based upon the supposition that the terms of office of the claimants commenced to run January 4, 1858, and would not expire until January 4, 1861.

I am of the opinion that their terms of office commenced in August, 1857, and that the appointment in January, 1858, was void, that their terms of office expired in August, 1860, and that the City is not liable to pay the amounts claimed by them.

GEORGE WADSWORTH,

City Attorney.

Filed and subject matter referred to Committee on Police.

FROM THE CITY SURVEYOR.

In compliance with your order of December 31st, 1860, I have made a careful survey of the channel of Scajaquada Creek, as it existed prior to the construction of the Erie Canal, also, of the land overflowed by backwater from Black Rock Harbor, between the Cemetery Road and the dam where it connects with the State Ditch. I have also added on a map of the State Ditch and Cornelius Creek down to Niagara River. The amount of land overflowed in the valley of Scajaquada Creek, between the points above named, by the breakwater, is 75 acres, on which it will average at least one foot in depth. The State Ditch was constructed for the purpose of abating this nuisance, but is almost worthless from the fact that it never has been cut down to the proper grade, and is always obstructed by the earth sliding in from the high slopes on each side of the channel. At a distance of forty-five hundred feet from the river the surface of the water in Cornelius Creek is only eight inches higher than at the river; and by continuing the same grade up the State Ditch to Scajaquada Creek, the height of the water just above the dam now built across said Creek can be reduced at least three feet, which will be amply sufficient to drain all the lands now overflowed. In my opinion the only practicable way of securing this desirable result is by the construction of a stone culvert through the whole length of the high ground, of the size and form shown by the annexed plan.

The proposed culvert will be 2,200 feet in length, and owing to the nature of the ground through which it passes, it will be necessary to construct a timber foundation for its whole length.

The total expense of the improvement according to the plan I have recommended, including cleaning out the

channel of Cornelius Creek, down to the New York Central Railroad culvert, will be \$27,269 80, as shown by the following estimate in detail, which is but a small sum when compared with the beneficial sanitary results secured to so large a portion of our city by the abatement of a great nuisance.

PETER EMSLIE, City Surveyor

Whereupon Ald. Howard offered the following:

Resolved, That the communication from the City Surveyor be received and the same be approved by this Council, and that the City Clerk or Mayor forward the same to Hon. S. A. R. Watson, Member of Assembly from the first district of this county, and that he with the other member of the Assembly from this city and the Senator from this District be requested to use their endeavors to secure the necessary legislation to abate the nuisance referred to in said report, in accordance with the plan and recommendation of the City Surveyor, and that the Mayor, if in his judgment it shall be necessary, employ some person to look after the interest of the city in regard to the matter referred to. Adopted.

The City Treasurer reported, in compliance with a resolution adopted at the last meeting of the Council calling upon him for such report, that he had received from Absalom Bull and James Haggert the sum of \$75, on account of their Ferry license.

Referred to Committee on Wharves, Harbors and Ferries.

The following communication from the City Attorney was presented :

I hereby report that I have examined an abstract of the proceedings of your honorable body in regard to assessment rolls Nos. 2296, 2297, 2298, and 2337 to 2363, both inclusive, and am of opinion that said proceedings have been regular and in accordance with the provisions of the Charter, except as to rolls Nos. 2357 and 2347.

No. 2357 is "for repairing the sidewalk on the southerly side of Mackinaw street." On the 14th of August, 1860, you ordered said sidewalk constructed. On the 17th December, 1860, you ordered the assessment for repairing. I think the order for the assessment should follow the language of the order for the work, and therefore recommend that you rescind the order for an assessment for repairing, and order an assessment for construction.

Roll 2347 is the lamp district extension roll. The objection to this roll is, that on the 29th day of October, 1860, you ordered the Lamp District extended on both sides of

Vermont street, and on both sides of Ninth street, from Niagara street to Connecticut street. On the 31st of December, 1860, you ordered the assessment in question, which is on the north-east side of Ninth street only. The order for the assessment does not conform to the order for the work.

GEORGE WADSWORTH,
City Attorney.

Received and placed on file.

Whereupon Ald. Howard moved that assessment roll No. 2357 be annulled, and that the subject matter thereof be referred to the Committee on Side and Cross Walks.—Carried.

Ald. Howard moved that the consideration of assessment roll No. 2352 be postponed for one week. Carried.

Ald. Howard moved that the balance of the rolls reported by the Clerk in the foregoing communication be confirmed. Carried.

A. A. Eustaphie and others had filed an application for the correction of the same, viz. :—

GENTLEMEN: By your kindness and liberality I was permitted to attend the National Sanitary Convention, at Boston, in June last. I have just received a copy of the proceedings of said Convention, and take pleasure in presenting the same to your Honorable Body, and would call your particular attention to the articles on civic cleanliness and Registration of Births and Marriages, and Deaths.

Respectfully Yours,

Communication filed, and copy proceedings of Sanitary Convention accepted and ordered filed in City Clerk's office.

Also, the following:

To the Honorable the Common Council of the City of Buffalo:

I noticed in the Council proceedings, as published, of January 20th, a communication from the Comptroller, in which the following statement is made:

Justice Gardner has paid into the Treasury \$1,224, leaving him still indebted \$488 25.

I claim that the city is indebted to me, over and above all claims and set-offs, in the sum of \$147, as a reasonable compensation for services rendered the city.

I am anxious to have this matter settled, and for that purpose respectfully request that the City Attorney, if the matter cannot be otherwise adjusted, be directed to commence a suit against me in the Superior Court of the City of Buffalo, in which action I will join issue immediately, and desire the same to be tried at the next term of the Superior Court.

All of which is most respectfully submitted.

CHARLES GARDNER,

Late Watch House Justice.

Howard moved that said communication be filed, and that the City Clerk be directed to request Mr. Gardner to pay into the city Treasury all moneys collected by him as Watch House Justice; and that if he has any claim against the city for extra service, to present such claim to the Common Council for consideration. Gentlemen—The roll for the supply of water in the Parish tract having been confined, I recommend that orders be drawn in my favor for the payment of bonds as named in my communication of the 17th December, 1860, found at page 490, of your proceedings.

ALONZO TANNER, Comptroller.

Filed and orders directed to be drawn.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN:—In compliance with a resolution, adopted by your Hon. Body on the 21st ult., in relation to the fund for opening Delavan Avenue, I respectfully report that the—

Amount of outstanding orders is	\$425 00
Amount of awards for which orders are not drawn is	498 76
Entitled to interest from March 8, 1859	\$923 76

Balance in City Treasury

\$1,123 18
Orders for the payment of awards were directed to be drawn Sept. 13, 1858. Hon. J. G. Masten took his orders March 8, 1860, being two orders of \$125 06 and \$200 respectively, and applied same in payment of his tax on lots 125 and 126 on north side of Bouck Avenue, and lot 137 on south side of Clinton Avenue. Amount paid \$337 32. Judge Masten paid his tax and interest at 7 per cent. same as he received on his orders and the amount of interest remitted was on lots 125 and 126 \$36 14, and on lot 137 \$22 61. I deemed this a just and fair mode of arranging the matter, as the city had acquired no rights to the lands taken, not having tendered the amount of the awards within the time prescribed by the Charter.

ALONZO TANNER, Comptroller.

—Filed and subject matter referred to Committee on Finance.

FROM THE STREET COMMISSIONER.

GENTLEMEN:—The late storm has caused much damage to the highways in various portions of the city, and among the many injuries to the streets, the undersigned calls your attention to the following:

The bridge across Smith street, near the junction of the Abbott Road, was carried away, and that point is impassible.

The bridge across a ravine about 400 feet easterly from Dole street, was removed from its foundation and is impassible.

The culvert across Elk street, near the New York and Erie Railroad, is much damaged, and is dangerous.

The sidewalk on the easterly side of Jefferson street, between North Division and Eagle streets, is in a very bad condition, and a portion of it dangerous.

The plank walk on the southerly side of Elk street, between the New York and Erie Railroad, and a point 40 feet westerly therefrom is carried away, rendering the walk dangerous.

The plank in the Abbott Road have been carried from the road, and are scattered, and the road-way was obstructed with ice.

The road leading from the Aurora Plank Road To'll Bridge over Buffalo Creek to Martin's Corner's, was entirely obstructed with ice, and I caused the roadway to be cleared at a small expense, so as to render it passible, and also caused the bridge over the ravine, 400 feet easterly of Dole street to be replaced, so that travel should not be obstructed, and I have caused the plank from the Abbott Road, belonging to the city, to be collected into piles that they may not be lost.

William street, near the water course, between the New York Central Railroad and the Williamsville road, has been washed away so as to form a deep ditch across the street, rendering it almost impassible, and I recommend that a wood culvert be constructed at that point, of sufficient capacity to pass the water—the expense will probably be about \$10.

The foregoing requires immediate attention, and the undersigned respectfully recommends that some action be taken, forthwith, in order to prevent accident and save the public from great inconvenience.

L. J. WATERS, Street Commissioner.

Ald. Howard moved that said communication be filed, and subject matter referred to committee on New Territory, and that the Street Commissioner be authorized to cause a wood culvert to be constructed across William

street, near the water course between the New York Central Railroad and the Williamsville road, at an expense not to exceed \$10. Carried.

FROM THE SUPERINTENDENT OF SCHOOLS.

Herewith I communicate to the Council my Annual Report of the condition and finances of the schools for the year 1861.

It shows that the whole number taught in the public or district schools during the year, was 12,572; of this number, 1,257 were admitted to the schools for the first time. The average number in daily attendance has been 6,470, an increase on previous years. The average number of teachers employed has been one hundred and eighty-eight. The total payments on salary account to these teachers were \$65,264 59. The average cost of instruction, per scholar registered, has been \$5 67 per annum.

A Special Report embodies a statement of the affairs of the Central School in detail.

The entire payments on Local and General Fund Account for Schools during the year 1860, foot up only \$81,573 72. In 1858 the expenditures for the same purposes were \$125,873 78; showing a decrease in cost of maintaining the schools of \$46,300 06. I take this occasion to suggest to the Council that the lowest limit of economy has been reached, and that a more liberal expenditure would be wiser.

SANFORD B. HUNT,
Superintendent of Schools.

Filed, and subject matter referred to Committee on Schools.

The City Clerk reported that the following named persons, appointed by the Common Council December 31, 1860, as Commissioners of Deeds of the City of Buffalo, have not, up to this time, signified their acceptance of such appointment, and filed the proper oath in the City Clerks office:—

Christopher Schultz, David N. Marvin, Henry F. Allen, George Mulderidge, Edward H. Myers, Louis Kuempel, Louis Gombel, Harmon H. Griffin, Edward Faehs, John W. A. Meyer. Filed an office declared vacant.

FROM THE FIRE COMMISSIONERS.

The undersigned, Commissioners of the Buffalo Fire Department, respectfully call your attention to the provisions of the "Act for the better regulation of the firemen of the city of Buffalo," (Chap. 137, laws of 1857,) which provide for the appointment of Fire Commissioners, to be nominated by the foremen of the several fire companies, and elected by the Common Council. That act provides that "The said Commissioners shall be nominated on the first Tuesday of March, at such place and hour as the Common Council shall designate."

The Commissioner first appointed under this act, April 27th, 1857, drew lots, as required by the act, for their respective terms of office, on the 30th day of April, 1857, as follows:

Samuel South, for one year; Jarvis Davis, for two years; Oliver G. Steele, for three years; Francis H. Root, for four years; George Jones, for the full term of five years.

As no subsequent appointment has taken place, the Board has so far continued unchanged by any action of the Common Council.

It will be seen that the term of office of the three Commissioners first named has already expired; that of the

fourth will expire in April next, and the resignation of Mr. Jones is herewith submitted, to take effect as soon as his successor shall be appointed.

The undersigned therefore request that you will take the necessary action to provide for filling the vacancies and relieving them from the further discharge of the duties imposed upon them.

That these duties have not been without a considerable expenditure of time and labor on their part, will be manifest from the fact that of 1457 firemen who have been enrolled by and received badges from the Board, each one was separately examined under oath as to his qualifications, his case separately passed upon by the Board, and each one was required to subscribe an obligation to perform active duty as a fireman, and to promote subordination in the Department. In addition to this, about \$94 resignations, dismissals and expulsions by the several companies, have been acted on by the Board.

This is besides the hearing of formal complaints against companies and individual firemen, and the trial of contested cases, often occupying much time and involving the taking of a large amount of testimony.

We are, however, happy to be able to say that these last mentioned demands upon our time, have gradually diminished in frequency, and have now almost entirely ceased. Justice to the department requires us to add that hardly a complaint for the misconduct of any member of the department has been brought before us during the past year. This is especially creditable to the department, when it is remembered that by the introduction of steam fire engines, a new element has been added to the service, which might very naturally give rise to jealousy on the part of some of the old companies. But with a spirit which does great credit to their character as men and as firemen, the old force has continued faithfully in the discharge of its duty, without insubordination, and with remarkable efficiency.

The undersigned respectfully recommend that in any further steps which may be taken by the Common Council in substituting steam for manual labor in the department, due provision should be made for enabling the members of the present volunteer force to serve out the remainder of their time, and thus acquire the privileges and exemptions provided by law.

Dated, Buffalo, February 11th, 1861.

GEO. JONES,
SAMUEL SMITH,
F. H. ROOT,

COMMUNICATIONS FROM THE MAYOR.

Gentlemen—I return without my approval the resolution passed by your body on the 11th day of February, directing an order to be drawn in favor of the City Attorney for eighteen dollars forty-four cents to pay judgment against the city in favor of R. Hornbuckle on "City Attorney's Fund of 1860."

The objection to this resolution is that the cause of action did not occur, neither was the judgment obtained during the year 1860, consequently there is no authority for drawing an order upon that fund.

F. A. ALBERGER, Mayor.

Referred to Committee on Finance.

FURTHER FROM THE MAYOR.

GENTLEMEN:—I return without my approval the resolution passed by you on the 4th day of February, 1861, directing an order to be drawn on the City Hall and Porter's Fund of 1860, for Four Dollars Seventy-five cents in favor of Harry Hersee.

The objection to this resolution is, that there is no money in the fund with which to pay such order.

F. A. ALBERGER, Mayor.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

GENTLEMEN: In compliance with a resolution adopted at your last meeting, of which the following is a copy; viz: "That the Comptroller be, and he is hereby directed to report to this Council at its next meeting, whether since the first day of January, 1860, any certificates of tax sales belonging to the city have been sold or assigned by him to any person or persons, and delivered by him or any person in employ in his office, before the money due thereon has been paid into the City Treasury; and if so, to whom sold and what is the amount, and when sold, and also, that he report to this Council whether any person in his office is or has been allowed to

deliver tax certificates sold to third persons until the receipt of the Treasurer for the payment of all the money due thereon into the City Treasury, has been filed in his, the Comptroller's, office." I respectfully report that I have not assigned and delivered any certificates of tax sales, or tax scrip to any party or parties since January 1st, 1860, before payment therefor has been made into the City Treasury. I stated to the clerks in this office, on assuming its duties, that no scrip would be assigned to them, nor has there been any scrip assigned to any clerk or employee in this office since January 1st, 1860, nor have I been applied to, to make such assignments. The instructions of the undersigned were that no scrip should be delivered until payment should be made to the City Treasury for the same, and these instructions have been well understood by the Deputy and clerks in this office. I am not aware of any malpractice or malfeasance on the part of any one connected with this office, except by Michael Danner, Jr. It is well known that Mr. Danner left this office without notice, and absented himself from the city on the 11th ultimo, and I believe it is not known by his family where he may be found. Acting from the knowledge obtained from certain parties that money had been paid him the day before he left, for scrip, I have caused a thorough examination of the tax sale book and cash book to be made, and from such examination it has been ascertained that Mr. Danner has taken scrip, and same as assigned to various parties on the tax sale book, to the amount of.....\$1,775 42
And of missing scrip there is..... 1,258 88

Total.....\$3,060 80

As a part of Danner's duties he was copying, or rather making out scrip from the sale book, and had not completed the work when he absented himself as stated above. It is possible that he may not have made out or disposed of the scrip covered by the last item, but I fear that he has. The scrip has been taken by the said Danner from this office without authority, after the same had been assigned to parties named and bills made out and awaiting payment into the treasury, and delivered by him to the parties. At least such seems to have been the case in every instance now known. No one can regret this dereliction on the part of Mr. Danner more than the undersigned, and I feel that with gentlemen conversant with the mode of doing business in this Department, I will not be censured for reposing the confidence I did in his integrity and honesty, when it is remembered that up to the time of his leaving not even a suspicion had been breathed against him by any of our citizens knowing and

doing business with him while he was Clerk in the Receiver's office, in the Water Works Company, or while he has been in this office, which, I believe, is about three years. Parties paying him for scrip have been grossly negligent, for it is reasonable to suppose that every business man must know that all funds going to the city must be paid by the party owing into the City Treasury, and the Treasurer's receipt, or a duplicate thereof, must be furnished by the party to this office. This is the mode pointed out by the published ordinances of the city, and if parties interested had have complied with directions so plain, the wrong now complained of could not have been perpetrated. As the subject matter of this communication will likely be referred to the Finance Committee, as it should be, I forbear, at present, from writing more.

FURTHER FROM THE COMPTROLLER.

Gentlemen—In my estimate submitted to you on the 28th ult., I omitted to estimate for the filling of the Pest House lot. I would ask the privilege of adding to the Board of Health Department \$426 03 for this improvement.

The Treasurer thinks that the estimate for interest on deposits ought not to be estimated above \$5,000. The amount of interest received during the fiscal year closing Dec. 31, 1860, was \$6,185. Lest the resources for 1861 should be over estimated, I recommend that the estimate for interest be \$5,000, and the unexpended balances of 1860 be estimated at \$7,000. Making these deductions will leave the estimated resources at \$24,750. Of principal to be paid on funded debt, the \$11,000 principal for bonds issued Oct. 29, 1852, may be stricken out, as parties are ready to take the bonds and hold them on receiving the interest as same becomes due. Leaving out this sum, it will be necessary to add \$770 to the item \$385, making total amount of interest to be raised, less amount provided for, \$38,777 95.

ALONZO TANNER, Comptroller.

Filed, and subject matter referred to the Committee of the Whole.

FROM THE CITY ATTORNEY.

I hereby report that the judgment of the Justice Court in favor of A. Augustus Paul against the city of Buffalo, has been affirmed by the County Court. This action was brought to recover for services rendered in the office of the Receiver of Taxes. I recommend that an appeal be taken from said judgment.

I also report that suits were commenced against the city on the 21st inst., by Morris Helmes, Henry V. Soule, Patrick Byrnan and Valentine Vogle, to recover for alleged services as Policemen from August 19, 1854, to January 4, 1857; payment of these claims was recently refused by your honorable body, under my advice. I recommend that the said actions be defended.

GEORGE WADSWORTH, City Attorney.

Filed, and Attorney directed to appeal suit of A. Paul and to defend other suits named.

FROM THE SUPERINTENDENT OF SCHOOLS.

Gentlemen—In my annual report, communicated to you at your last meeting, I mentioned, briefly, the condition of Public School No. 15. I desire to call attention to it in detail.

The school building, on Oak street above Goodell, though not centrally located, is not at such a distance from any part of the district as to involve hardship. The lot is spacious, and the building itself in fair repair and substantial. It was erected, however, for only two departments, and the growing population of the district requiring a third, some years since a cottage was rented by this department, of P. A. Falcom, at an annual rent of \$20, for the purpose of a Primary Department. This cottage was built for a residence, and is cut up into four small rooms, the largest not more than 12 by 15 in size. In these four low, badly ventilated and over-heated rooms, 164 children of tender age have been in daily attendance during 1860, being more than 40 to each room on the daily average. There are no desks and no room for any, the children being seated on rough benches. The teachers in charge, who have been faithful in proportion to the difficulty of their position, are the only redeeming features of the Department, which, without exaggeration, would be indicted as a nuisance, were its condition known to the proper authorities.

I have hoped that the district would take some action. A year since, nearly, a petition was presented to the Common Council asking for relief, but as it was opposed by another having on it more names, no action was taken. Some differences exist in the district as to location; some urging a location more central, and others being in favor of making an addition to the main building on Oak street. Still another class are opposed to any school at all, and it is they who furnish the remonstrances.

For the sake of securing action of some kind, I recommend that the Superintendent of Schools be authorized to procure plans and estimates for building a Primary Department on the present school lot, in connection with the other departments, and also, estimates as to the probable cost of building a school for these departments in some other location.

SANFORD B. HUNT.

Superintendent of Schools.

Filed, and subject matter referred to Committee on Schools.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

In anticipation of the time for preparing the annual estimate for 1861, I hereby recommend that the following rates be established as the salaries to be paid teachers in the public schools, from May 1st, 1861, to May 1st, 1862:

Principals of graded schools.....	\$900
“ “ departments.....	350
“ “ schools of one department.....	350
“ “ Nos. 9 and 33.....	600
“ “ “ 27 and 28.....	450
Assistants in departments.....	275
Principal of Central School.....	1125
Assistant Principal of Central School.....	930
Assistants in “ “.....	375

These were the salaries in force during the first term of 1860. They were reduced on the 1st of May to \$800 for principals of graded schools, \$325 for principals of departments and of schools of one department, \$225 for assistants, \$1000 for the principal of the Central School, \$800 for his male assistant, and \$350 for assistants in the Central School.

The increase in salaries I propose, if adopted by the Common Council, will occasion an increase in the cost of maintaining the School Department, over the amount estimated by the Comptroller, for the year 1861, of \$1,150 81.

I do not propose, in this connection, to enter into argument, but it is my duty as the guardian of the interests of the schools, to state what I know to be the fact,—that the welfare and efficiency of the schools, as well as what may fairly be considered justice to the teachers, demand this moderate increase in the salaries. During two years the expenditures of the Department have been unsparsingly cut down, until for the year 1860 they were \$46,300 06 less than in 1858. The change has been too rapid and revolutionary, and I have anything but a feeling of pride in calling attention to what is called the remarkable economy of my administration. I cannot expect, if the present system be continued, that I shall be able to transmit the schools to my successor in office in as good condition as I found them.

SANFORD B. HUNT, Supt. of Schools.

Laid on the table for the present.

FROM THE CITY SURVEYOR.

In compliance with your resolution of February 18th, 1861, I submit herewith a plan and cross sections of Liberty street, showing its present condition; also, that part of the street which has been washed away. The portion of the street left is only about 15 feet wide, the remaining 25 feet, which makes up the proper width of the street (40 feet) being embraced by the slope of the Clark and Skinner Canal bank, and extending into the water about 8 feet, as shown by the annexed plan.

Very Respectfully,

PETER ENSLIE,

City Surveyor.

Laid on the table to be taken up under order of reports from the Committee on Streets.

FROM THE FIRE MARSHAL.

Gentlemen,—I beg leave to report to your honorable body the condition of the two Hook & Ladder trucks and apparatus. The trucks are nearly worn out—require repairs every time they go out—and, in my opinion, cannot be relied upon for any length of time.

There is a very short supply of ladders, many of them much worn and unsafe. There are not good reliable ladders enough on the two trucks for one efficient company.

D. KISSOCK, Fire Marshal.

Referred to Committee on Fire.

FURTHER FROM THE FIRE MARSHAL.

The following communication was received:

Gentlemen—On behalf of the working men and operatives of the city of Buffalo, irrespective of trades, professions or political parties, the subscriber would most respectfully request your honorable body, as the representatives of the working classes, they being the majority of the electors and taxpayers of this city, that you will, as a body corporate, sign the annexed petition of working men to the Senate and House of Representatives of the State of New York in Legislature convened, as they feel assured that the passage of an act to prevent the payment of wages in orders would prove beneficial not only to the working classes, but to each and all of our citizens.

All of which is respectfully submitted by the subscriber in waiting with said petition for the action of your honorable body.

Yours, Respectfully,

WM. F. BEAMAN.

Ald. Palmer moved to refer same to the Committee on Sanitary Measures.

COMMUNICATIONS FROM THE MAYOR.

GENTLEMEN:—I have been served with a summons to appear and answer to a complaint in a certain action in the Superior Court of the City of Buffalo, wherein Franklin Sidway is plaintiff and the City of Buffalo is defendant.

Respectfully,

F. A. ALBERGER, Mayor.

Filed and City Attorney directed to defend it, if in his opinion, it is advisable.

FURTHER FROM THE MAYOR.

GENTLEMEN: I deem it my duty to call your attention to the alarming increase of fires since the 1st January, 1861. There can be but little doubt that the increase is attributable to the work of incendiaries, and in my opinion some course of a tion should be taken by your honorable body, by which the perpetrators may be detected.

I would therefore recommend your honorable body, to rescind the action taken by you, offering a reward for the detection of the party or parties who set on fire the store of Messrs. James Adams & Co., and offer a general reward for any person or persons who may be detected in committing the crime of incendiarism, for the year 1861.

I would also recommend that a reward be offered for the detection of any person or persons, who have, or shall be guilty of cutting or damaging the hose or other property belonging to the Fire Department of the City of Buffalo, during the year 1861.

Respectfully,

F. A. ALBERGER, Mayor.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

GENTLEMEN:—On the 15th instant there will be due six months' interest on \$31,000 6 per cent bonds issued Dec.

31, 1858, for Central School property, and payable at this office, and it is recommended that an order for \$936 be drawn in my favor, payable out of the General Fund for 1860 estimate, for interest on the funded debt with which to pay such interest.

ALONZO TANNER, Comptroller.

Filed and order directed to be drawn.

FROM THE CITY ATTORNEY.

I hereby report that I have examined the claim of Mr. James O'Brien against the city for rent of premises on Carroll street. The lease expired on the 1st of May, 1860, previous to which time, as I am informed, the Fire Marshall had caused all the property belonging to the city to be removed from the main or ground floor of the building, and notice to be given to Mr. O'Brien that the city had vacated the property; Mr. O'Brien states that no such notice was given to him.

It appears, however, that during the life of said lease, the Superintendent of Schools had caused some school house furniture, which had been removed from one of the school houses, to be stored in the loft of said building and that that property was not removed on the 1st of May, but that it, or a portion thereof, still remains in the loft. I am also informed that during the last year, certain portions of said school house property have been removed from said building, and a part of the property so removed was returned to the same place.

Upon this state of facts Mr. O'Brien claims that the city has continued in the use and occupation of his building, and is liable to pay the rent reserved by the lease since the 1st of May, 1860.

I am informed, however, that the main portion of the building has been used by other parties, for other purposes, with the knowledge of Mr. O'Brien, since the city property was removed therefrom.

A lessee who holds over and continues in the use and occupation of the leased premises after the expiration of his term, is liable to pay what such use and occupation is reasonably worth, which is not necessarily the amount specified in the lease, but may be more or less, as shall be determined by proof.

The only question in this case is a question of fact, and not of law, viz: Did the city hold over after the expiration of its lease? And in determining that question, proof of the actions and intent of the parties is admissible. If the city did hold over, it must pay a reasonable rent; if it did not, it is not liable to pay any sum whatever. I cannot undertake to predict what the verdict of

a jury would be in this case. Your honorable body can decide the question upon the facts stated, as well, or better than I can do.

I also report that I have examined the claim made against the city by Charles Gardner, for services as Watch House Justice, and find that Mr. Gardner received, in fines, \$1,750 25, and from the City Treasurer \$225, making \$1,975 25, in all: that he has paid \$1,217 to the Treasurer: that he has charged the city \$5 25 discount on uncurrent money, and \$11 for counterfeit and broken bank bills, taken from prisoners for fines; that he has charged, the City \$750 for attendance at Police Stations Nos. 1 and 3, during the year 1860, being \$1 per day for each station and \$115 for 50 days service in 1860, at Station Houses Nos. 2 and 1, and \$14 for 7 days services in 1861, at Station Houses Nos. 1 and 3, making in all, of moneys charged and paid to the city, \$2,125 25. Mr. Gardner was appointed Watch House Justice January 24, 1860. His salary was fixed by the Common Council, on that day, at \$300 per year. He claims that he is not bound to accept said sum of \$300 in full for his services, for the reason that the same is not a reasonable compensation, and that the sums charged by him to the city are no more than such reasonable compensation. He also claims that he could not refuse to perform the duties of the office, on the ground of the inadequacy of the compensation, because the same are a part of his duties as a Justice of the Peace, and that a neglect or refusal on his part would subject him to an indictment for nonfeasance in office.

It is well known that a former Justice of the Peace was indicted, tried and convicted for refusing to perform the duties of Watch House Justice at the salary fixed by the Council. The Charter of 1853 provided that the Common Council should "from time to time designate one or more of the Justices of the Peace of the city to attend the public station houses, and shall pay them a reasonable compensation for their services." It was under this law that the difficulty arose between the city and the various Justices of the Peace in 1855, and I presume that the present action of Mr. Gardner is based upon the supposition that the law above referred to is still in force. If that were so, the question would be one of fact only, as to what is a reasonable compensation, which question a jury alone could determine; but in 1856 the Charter was amended, and instead of requiring the payment of a reasonable compensation, it now provides that the Watch House Justices shall be paid "for their services such compensation as the Common Council shall determine."

I am of the opinion that the amendment of 1856 confers upon the Common Council absolute power to fix the salaries of the Watch House Justices, and that Justices of the Peace who do duty at the Station Houses cannot legally claim any more than the amount fixed by the Council, and therefore that Mr. Gardner is not entitled to the sum claimed by him, nor to any compensation for services as Watch House Justice, except at the rate of \$300 per year.

GEORGE WADSWORTH, City Attorney.

Filed, and subject matter of that portion relating to claim of Jas. O'Brien referred to the Committee on Finance together with the City Attorney, and subject matter of the balance of said communication referred to Committee on Police, together with the City Attorney.

FURTHER FROM THE CITY ATTORNEY.

In compliance with the directions of your honorable body, I hereby report that I have examined "as to the right or power of the Council to lease the land on the north side of Scott street, commencing 127 feet east of Michigan street, being 150 feet front on Scott street, by 150 feet in depth to the Main and Hamburg street Canal," and find that said land was taken by the City in the year 1852, by the regular legal proceedings under the Charter, for a "public ground," and was paid for by local assessment upon the property benefited thereby.

I am of opinion that you possess no power to lease, or make any disposition of said property, which shall divert it from the use for which it was taken, or destroy its character as a "public ground."

Respectfully submitted,

GEORGE WADSWORTH,
City Attorney.

Filed, and subject matter referred to the Committee on Markets.

FROM THE FIRE MARSHAL.

GENTLEMEN: On the 17th of February a fire occurred in the building known as Townsend Hall, corner Main and Swan streets, owned by G. R. Wilson, Esq., and the estate of Geo. Townsend, deceased, and occupied by A. I. Mathews, druggist, Moores & White, shoe dealers, Slight & Burne, keepers of billiard saloon, and Eli Cook, attorney at law.

OFFICERS OF THE CORPORATION.

FROM THE CITY ATTORNEY.

The action of Franklin Sidaway, against the City of Buffalo, which was referred to me by your Honorable Body at your last meeting, is brought to procure the cancellation and discharge of a certain tax scrip on a lot on the northeasterly corner of Niagara and Hudson streets, being 92½ feet on Niagara street by 264 feet on Hudson street, which scrip arose from the sale of said premises for non-payment of the assessment for grading and paving said Hudson street, from Niagara to Twelfth street. The said assessment was declared void in an action which was brought by Herman Bruen to foreclose a mortgage which he held on said premises, and your Honorable Body refunded to Mr. Bruen the money which he had paid for said scrip, on the recommendation of your Committee on Finance and the then City Attorney to whom the whole matter was referred, and who reported thereon on the 19th of September, 1859, which report is found in the printed minutes of the proceedings of the Common Council for the year 1859, at page 80S.

That the assessment was an illegal one I have no doubt, and therefore the City cannot collect the money therefor, nor make title to the land under the sale, and although I think there is a technical defence to the present action, yet if the City should succeed in this action, it would not make the assessment a valid lien upon the land, or confer any power upon City to collect it. I therefore recommend that said assessment be cancelled and discharged of record, and that the Comptroller be directed to cancel and discharge the same upon the discontinuance of said action without costs to the City.

GEORGE WADSWOR, H. City Attorney.

Filed and recommendation adopted.

To the Hon. the Common Council of the City of Buffalo:—

The Committee on Fire and the Commissioners of the Buffalo Fire Department, to whom was referred the sub-

ject of the better organization of the Fire Department, jointly report:

That they have had the subject under consideration, and have endeavored to give it that attention which its importance demands.

They believe that the time has arrived when the services of a paid Fire Department are demanded by the wants of the city and the wishes of a majority of its citizens. The experiment in other cities has so far been highly satisfactory, and there is no apparent reason why it should not prove equally so in ours. Even if it were attended with greater expense than the volunteer system, there are many reasons which should induce the citizens to submit cheerfully to the necessary additional expenditure. Our city is now so large, and fires so frequent, that the duties of volunteer firemen impose an onerous tax upon the time and energies and health of a class of our citizens, least able to bear the burden, and for which it must be admitted they are but poorly rewarded. The health of hundreds of young men has been impaired and their lives shortened by the exposures and violent exertions required in the discharge of their arduous duties as firemen. Any system which would render this sacrifice of time and health and life no longer necessary, would, in a philanthropic view, be of more public benefit than the founding of a hospital. Besides, it has often occurred in other cities, and (although our department has been as free from this objection as any other in the country) it may have occurred in this, that the excitements and temptations to which volunteer firemen are sometimes exposed, has sometimes led young men into habits of dissipation which have been to the lasting detriment of themselves and their friends.

Again, the experiment of the past year with two steam fire engines in this city, has shown that the two systems cannot work successfully together. The firemen have acquiesced, with a highly commendable spirit, in the introduction of the new element of steam power into the department; yet it cannot be expected that that wholesome spirit of rivalry, which lies at the foundation of the volunteer system, can be maintained in such an unequal contest. Men cannot run with horses, nor can human muscles successfully compete with steam; and the fireman sees his best efforts outdone, and the honors of the victory over the devouring element awarded to the "steamer," even when he has sustained to the best of his ability, the burden and heat of the strife.

In an economical point of view, it is believed that the expense of the department will not be greatly if at all increased by the change.

But while in favor of making this change at the earliest practicable period, it should be borne in mind that there are many volunteer firemen who have entered the service with the expectation of receiving at the end of the term prescribed by law, the immunities and exemptions which the Legislature have granted in such cases; and a portion of the volunteer companies should be retained for a time, to give such persons an opportunity to complete their terms of service, and obtain their certificates as exempt firemen.

The present force of the Fire Department is as follows:

Eight Engine Companies, viz:

Engine Co. No. 2, on Elk street, 2d class.

" " " 3, on Genesee street, 1st "

" " " 6, on Niagara street, 2d "

Engine Co.	No. 7, on Pine street,	2d class.
"	" " 9, at Hydraulics,	2d "
"	" " 10, on Terrace,	2d "
"	" " 11, on Pearl street,	1st "
"	" " 12, on Batavia street,	1st "

Two Hook and Ladder Companies, viz:

Hook and Ladder Co.	No. 1, on South Division street.
"	" " 2, on Huron street.

Five Hose Companies, viz:

Hose Co.	No. 1, on Pearl street.
"	" 2, near Court House.
"	" 3, on Chicago street.
"	" 4, on South Division street.
"	" 5, on Perry street.

Two steam fire engines, viz;

The Chandler J. Wells and the City of Buffalo.

In addition to these, the Council have already provided for the purchase of two additional steam fire engines, which will be ready for use in a few weeks.

We respectfully recommend that a hose reel, capable of carrying one thousand feet of hose and a supply of fuel for the engine, and to be drawn by one horse, be procured and located with each of the steam fire engines; that four men be employed for each of said hose carriages, as hose and pipe men, and one driver, making, in all, five men for each of said hose carriages, whose duty it shall be to attend all fires, see that the hose are laid, and manage the pipe, and render such further service as shall be required of them in extinguishing the fire.

We further recommend that Hose Company No. 3 be forthwith disbanded, and the members be allowed to join other companies, as the hose is needed for one of the new steam fire engines.

That the four remaining volunteer hose companies be retained in the service.

That the two volunteer hook and ladder companies be retained in the service.

That when the two new steam fire engines, now in process of construction, are completed and brought into use, as many of the present volunteer engine companies as can be conveniently dispensed with, be disbanded, and the members be allowed to join other companies; and that those volunteer engine companies retained in the service be located, at far as practicable, in the outer portions of the city, as an additional protection to property in those sections.

That in all future admissions of firemen to the volunteer Companies, those who have served a portion of their time have the preference over new applicants; and that as fast as the firemen shall have served their full time, they be furnished with certificates of discharge, that their places may be filled by others whose terms of service shall not have expired.

And we further recommend that all appointments to the paid Department shall continue during good behavior, and that they be made as far as possible from the present volunteer members.

Dated March 29th, 1861.

MINUTES No. 11.

CORPORATION PROCEEDINGS.

IN COMMON COUNCIL,
Buffalo, Monday, March 18, 1861, }
at 2 o'clock, P. M.

Present.—Asaph S. Bemis Esq., President of the Council and Aldermen Adams, Allen, Beckwith, Brush, Crowder, Dorr, Felton, Goebel, Grass, Ilanovan, Howard, Howell, Jones, Mills, Palmer, Rutter, Savage, Scheu, Schwartz, Storck, Wheeler and Yaw.

Absent—Aldermen Pratt, Russell, and Walsh.

The question being on the approval of the minutes of the last meeting—

Ald. Felton moved that the Clerk be directed to correct said minutes by striking out the name of "Donald McDonald" contained in the report of the Committee on Schools, appointing sundry persons as Commissioners of Deeds, and insert in place thereof the name of "Allan McDonald." Carried.

The said minutes, as corrected, were then approved.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

Gentlemen—On the 1st proximo the leases held by the city from Messrs. Barnes, Cook & Lytle and Case, for rooms occupied by the Chief of Police, will expire. These rooms were rented for three years from the 1st day of April, 1858, at the annual rent of \$275, and it will be proper that some action should be had either in renewing these leases or securing other apartments at once.

The lease from Frederick Kull for Police Station No. 4, expires May 1, 1861. The present rent paid for this station is \$100 per annum.

The lease from E. C. Dibble for Police Station No. 2, will also expire on said first day of May. The rent now paid for this station is \$150 per year. It is quite probable that something may be saved in rent by taking timely action.

I would also call your attention to the subject of designating the deposit banks for the city. The present contracts with the four banks now receiving the funds of the city on deposit, &c., were made in April last, and run one year only. Perhaps it may be best to divide the funds in the City Treasury among four banks, the same as was done last year; and to this end invite proposals, but I certainly would not increase the number. I am inclined to think that if the deposits were to be divided between two banks, the city would receive bids to pay higher rate of interest than will be offered if the number be increased above two. But this is a matter for your Honorable Body in

the first instance to determine. I would recommend, however, that you determine the number of banks to receive such funds, and that I be directed to advertise for proposals in manner and form as may be thought advisable by you.

ALONZO TANNER, Comptroller.

Filed, and so much thereof as relates to office for Chief of Police and Police Stations, referred to Committee on Police and Comptroller, with power, and balance referred to Committee on Finance.

FROM THE CITY ATTORNEY.

I hereby report that the judgement recovered against the city by George Williams, has been reversed by the County Court.

I also report that there are four causes in which the city is a party, on the calendar for the next term of the Court of Appeals, which opens in the city of New York on the 26th inst. It will be necessary for me to go to New York to attend said Court, and I respectfully ask that an order for \$50 be drawn in my favor on the General Fund, to pay the expense of such attendance.

GEORGE WADSWORTH,
City Attorney.

Filed, and order directed to be drawn, and Attorney directed to report bill of expenses.

FROM THE STREET COMMISSIONER.

GENTLEMEN: My attention has been called to Niagara street, at the southerly end of the bridge across Scajaquada Creek. The street has settled and the paving stone and platforms have been washed from their places on the easterly side of Niagara street, from the bridge to a point about 40 feet southerly therefrom; and on examination I find that, in order to make a permanent repair, it will be necessary to excavate the dirt down to the hard earth, or foundation, and fill the same with stone chips and concrete sufficiently to secure the stone and paving. And I also recommend that receivers be constructed at Bird and Fo rest avenues, on the easterly side of Niagara street, to pass off a portion of the water accumulating on Niagara street and prevent accidents hereafter, as the accumulation of water is greater than can pass in the present receivers, thus flooding the entire street.

The expense of the repair above named will probably be between \$50 and \$100. The water now passes under the wall and crib-work at the bridge, and if the repair is not immediately made, the expense will probably be greatly increased.

L. J. WATERS, Street Commissioner.

Referred to Committee on New Territory, with power.

FROM THE CITY SURVEYOR.

In compliance with your order of March 11th, 1861, I submit herewith a plan and estimate for constructing stone abutments for the bridge across Cazenovia Creek, on the Cazenovia road, between the Aurora Plank Road and the Abbott road, in accordance with a specification on file in my office:

COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, March 23, 1861. }

To the Hon. Common Council:

GENTLEMEN.—I have convened you together this day for the purpose of reconsidering your action in establishing the "estimates" of expenditures for the present year.

The estimates must be published six days before confirmation, which is to be done by the first of April, and requires my approval, which I have as yet withheld, and therefore have been obliged to call this special meeting, as but little time remains for action.

In the proceedings of your honorable body of the 18th inst. you have made no provision for the payment of bonds to the amount of \$15,000, which were issued June 1, 1852, and become due in the city of New York June 1, 1862, and the further amount of \$11,000, issued June 1, 1854, and due in this city June 1, 1862.

Title 5, sec. 6 of the Charter reads as follows, (referring to the estimates:) "In such amount shall be included the sums required for the support of the free schools of the city for twelve months, and to pay such principal and interest of such portion of the funded debt of the city as shall be due or fall due within eighteen months after the said first day of April, and is not otherwise provided for; the amount determined upon shall be raised as a gross tax on one assessment."

This portion of the Charter is intended to provide means for the payment of the funded debt of the city beyond any contingency, and requires the money to be raised in the year prior to the debt becoming due.

I learn that an indefinite agreement has been made by the Comptroller with some of the Savings Banks in this city to pay, or advance the money to pay, the bonds before mentioned, and hold them until such time of pay-

ment as may be agreed upon by the parties. If such an agreement should be entered into, it would be merely a mode of borrowing money not sanctioned or warranted by the Charter.

I doubt the propriety of postponing the payment of the funded debt, believing that it is policy for the taxpayers to submit to the payment of a portion of that debt annually, than to raise yearly a large sum of money to pay interest which now amounts to nearly one-sixth of the entire tax. The amount of interest to be provided for this year amounts to \$39,561 86. It is not, however, upon a question of expediency that I have called this meeting, but because I am well satisfied that you have not obeyed the demands of the Charter.

Very respectfully,
F. A. ALBERGER, Mayor.

Laid on the table.

FURTHER FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, March 25th, 1861. }

To the Hon. Common Council:

GENTLEMEN:—On the 19th inst., I caused notices to be served on the members of your Hon. Body in the city calling a special meeting on the 20th inst. The object of the call is stated in a communication bearing date the 20th inst. I very much regret that not a sufficient number to form a quorum of your Hon. Body, saw fit to obey the summons, and as I had therefore exhausted all the means in my power to have you reconsider the "estimates" prior to their publication—which I deemed eminently proper—I afterwards signed the proceedings and authorised their publication.

Since the message of the 20th inst., I have carefully reviewed this subject and cannot refrain in this communication from again recommending that your Hon. Body make provision for the funded debt, as contemplated by the charter. If a contrary course is pursued, your Hon. Body will, in my opinion, establish a precedent that will look to creditors, who hold large amounts of city bonds, as a species of repudiation, which may materially affect the credit of the city, and which must seem to our citizens as a neglect of duty. So long as we have a charter let us abide by it and adhere strictly to its provisions, as experience teaches the danger and folly of being governed by the immediate circumstances that may surround the legislator, rather than by the careful, well-digested and conservative action of the framers of the charter, whose wisdom in this instance has not been questioned.

I have not offered the rewards for the detection and conviction of incendiaries, &c., as contemplated by your resolutions of the 11th inst., as on examination of the minutes furnished by the Clerk, I find they were not adopted by a two-third vote, as directed by the charter.

Very respectfully,

F. A. ALBERGER, Mayor.

Laid upon the table.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

COMPTROLLER'S OFFICE,
Buffalo, March 20, 1861.

To the Hon. the Common Council:

GENTLEMEN—In a statement from the assurances I have received from the Receiver of the Reciprocity Bank, that that the city will receive during the present year much the largest part of the indebtedness due from that institution on account of deposits made by the late Receiver. The amount of such indebtedness at this date, including interest, is \$26,000 84. The said Receiver assures me that at least three-fourths of this amount will be paid during the year. I think it will be safe to estimate as a resource from this debt \$15,000, and \$1,198 07 on account of other security in the nature of a well secured note due June 1, 1861. I would therefore recommend you to increase the estimate already submitted in round numbers \$16,000.

By adding \$770, one year's interest, to the \$11,000 bonds issued Oct. 23, 1852, and striking out \$783 91 added by you at your last meeting, will make \$55,290 52, less \$16,512 57 already provided, the amount for interest on the funded debt, making in fact the gross amount \$38,777 95 to be raised by tax. This is on the supposition that you provide for the payment of the funded debt as at first submitted by me deducting the said Ship Canal bonds.

Respectfully,

ALONZO TANNER, Comptroller.

Laid upon the table.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

GENTLEMEN,—On Local Roll 2267, is a tax against the
City of Buffalo, in amount \$25 73, being on 177½ feet
front on southeast side of Virginia street, north corner of
Edward street, for repairing the sidewalk on the easterly
side of Virginia street, between the angle in Virginia street
near Mariner street. I would recommend that an order
be drawn in my favor for \$25 73, on the Local Funds
School District No. 14, with which to pay said tax.

Respectfully submitted,

ALONZO TANNER, Comptroller.

Filed and order directed to be drawn.

FROM THE STREET COMMISSIONER.

GENTLEMEN—On the 16th of last April the Council or-
dered the public well in the westerly side of Kane street,
between Sycamore and Genesee streets, repaired, at an
expense not exceeding \$20. The work has not been done,
for the reason of the expense (estimated at the price
named by the lowest bidder) exceeding the limit of the or-
der. I have examined the well and find that the water
is rendered impure, by the surface water entering the
well through a seam or crevice in the rock, and the ex-
pense of making the repairs required will be about \$50.
The inhabitants in the vicinity of the well are anxious
that such action be taken that the well may be immedi-
ately repaired, without regard to the extra expense.
Therefore, I respectfully recommend that the limit in the
order be increased to \$50.

L. J. WATERS, Street Commissioner.

Whereupon Ald. Swartz offered the following:

Resolved, That the public well located on the westerly
side of Kane street, between Sycamore and Genesee
streets, be repaired at an expense not exceeding \$50,
and that the Street Commissioner is hereby authorized
and directed to cause the same to be done and
report, and that the resolution passed April 16th, 1860,
ordering said well repaired, be rescinded.

Communication and resolution laid on the table.

FURTHER FROM THE STREET COMMISSIONER.

Gentlemen—In accordance with provisions in Sec-
tion 21, of Title 2, of the City Charter, I nominate
Gilbert Hyatt as first, and Henry Waters as second Clerk
to the Street Commissioner, and respectfully ask their ap-
pointment by your Honorable Body.

L. J. WATERS, Street Commissioner.

Carried.

Ald. Howell called up the following communication
from the Comptroller, presented to the Council on the
25th ult., and laid upon the table.

COMPTROLLER'S OFFICE, }
Buffalo, March 20th, 1861. }

To the Hon. the Common Council:

GENTLEMEN—I am satisfied from the assurance I have received from the Receiver of the Reciprocity Bank, that the city will receive during the present year much the largest part of the indebtedness due from that institution on account of deposits made by the late Receiver. The amount of such indebtedness at this date, including interest, is \$26,600 84. The said Receiver assures me that at least three-fourths of this amount will be paid during the year. I think it will be safe to estimate as a resource from this debt \$15,000, and \$1,198 07 on account of other security in the nature of a well secured note due June 1, 1861. I would therefore recommend you to increase the estimate already submitted in round numbers \$16,000.

By adding \$770, one year's interest, to the \$11,000 bonds issued Oct. 20, 1852, and striking out \$789 91 added by you at your last meeting, will make \$55,290 52, less \$16,212 57 already provided, the amount for interest on the funded debt, making in fact the gross amount \$38,777 95 to be raised by tax. This is on the supposition that you provide for the payment of the funded debt as at first submitted by me deducting the said Ship Canal bonds.

Respectfully,

ALONZO TANNER, Comptroller.

Whereupon, Ald. Howard offered the following:

Resolved, That the statement of the Comptroller heretofore presented to this Council, for his estimate of the proper and necessary expenses for the various departments of the city government for the year 1861, as amended by this Council, and published by order of the Council, be and it is same hereby fixed and finally determined to be, the sum of \$263,151 98, in the aggregate.

Ald. Adams was called to the chair.

The President subsequently resumed the chair.

Ald. Beckwith offered the following as an amendment to the resolution offered by Ald. Howard:

Resolved, That the report be amended by inserting the estimates of the Comptroller under the head of "Principal to be paid on funded debt for eighteen months, from April 1st, 1861."

Pending the discussion on the amendment offered by Ald. Beckwith, Ald. Adams moved that when this Council adjourns it adjourn to meet at one minute past 7 o'clock, this evening. Carried.

Ald. Adams then offered the following as a substitute for the resolution offered by Ald. Howard, and the amendment thereto, offered by Ald. Beckwith:

Resolved, That the statement of the City Comptroller, made pursuant to Section 5, of Title 5, of the Revised City Charter, and presented to the Common Council January 25th, 1861, as amended by the Common Council, March 18th, 1861, and as since published six days in the city official paper, and in another daily paper pursuant to the city charter, be now finally confirmed, and that the amount which will be required to meet the expenses of the year 1861, for all proper city purposes, and for the support of the free schools, and to pay principal and interest on the funded debt, be fixed at \$263,151 98, and that of such amount the sum of \$224,901 98 be and the same is hereby fixed and determined to be the sum to be raised by a levy of a tax on all of the taxable property of the city, in the manner provided by the Charter.

Ald. Howard called for a division of the question on the substitute offered by Ald. Adams.

The question was then taken on so much of the said substitute as proposes to fix the amount that will be required to meet the expenses of the year 1861, for all proper city purposes, and for the support of the free schools and to pay principal and interest on funded debt, at the sum of \$263,151 98, and the same was lost for want of a two thirds vote. Ayes, 13; Noes, 5.

The hour of 7 o'clock P. M. having arrived, the President declared the Common Council adjourned until one minute past 7 o'clock this evening.

O. F. PRESBRY, City Clerk.

Ald. Adams offered the following:

Resolved, That the Statement of the City Comptroller, made pursuant to Section 5, Title 5, of the Revised City Charter, and presented to the Common Council January 25th, 1861, as amended by the Common Council March 18th, 1861, and as since published, six days, in the city official paper, and in another daily paper, pursuant to the City Charter, be now finally confirmed, and that the amount which will be required to meet the expenses of the year 1861, for all proper City purposes, and for the support of the free Schools, and to pay principal and interest on the funded debt, be fixed at \$263,151 98, and that of such amount the sum of \$224,901 98 be and the same is hereby fixed and determined to be the sum to be raised by a levy of a tax on all of the taxable property of the City in the manner provided by the Charter.

Ald. Howard called for a division of the question on the resolution offered by Ald. Adams.

The question was then taken on so much of the resolution of Ald. Adams as proposes to fix the amount which will be required to meet the expenses of the year 1861 for all proper City purposes, and for the support of the Free Schools, and to pay principal and interest on the Funded Debt, at the sum of \$263,151 98, and the same was adopted. Ayes 19; Noes 0.

The question being on the adoption of the balance of the resolution offered by Ald. Adams,

Ald. Bemis offered the following as an amendment thereto:—

Resolved, That in pursuance of the communication from the Comptroller, of March 20th, 1861, reporting to the Council an additional item of resources, of \$16,000 as reliable; that the said sum of \$16,000 be, and the same is hereby added to previous estimates from the

Comptroller, and that the aggregate amount of revenue and resources for the year 1861, be, and the same is hereby declared to be \$54,250.

The question was taken on the above amendment, and resulted as follows: Ayes, 10; Noes, 9.

The Chair decided that the said amendment was adopted.

Ald. Adams appealed from the decision of the Chair.

The decision of the Chair was sustained. Ayes, 15; Noes, 4.

Ald. Howard moved to further amend the unadopted portion of the resolution offered by Ald. Adams, by fixing the amount to be raised by tax at the sum of \$208,901 98, instead of \$224,901 98. Carried. Ayes, 18; Noes, 1.

The question was then taken on the adoption of the said portion of the resolution of Ald. Adams, as amended by the resolution of Ald. Bemis, fixing the aggregate of the revenues and resources at \$54,250, and the motion of Ald. Howard, fixing the amount to be raised by tax at \$208,901 98, and the same was adopted by the following vote: Ayes, 19; Noes, 0.

FURTHER FROM THE MAYOR.

GENTLEMEN: I herewith nominate to your Honorable Body George Drullard to be Chief of Police in place of Robert H. Best, whose term of office has expired.

I also nominate Jacob Bloom to be Police Constable in place of David Cooper, resigned, and Samuel Caldwell, David Cooper, and Stephen Huber to be Policemen in place of James Cadden, Peter Britz, and Jacob Bloom, resigned.

Very respectfully,

F. A. ALBERGER, Mayor.

Ald. Howard moved that the communication from the Mayor be received and placed on file, and that the consent of the Common Council be and is hereby given to the appointment by His Honor the Mayor, of the persons named in said communication, to the offices to which the said persons are respectively nominated.

Ald. Felton offered the following as a substitute for the motion of Ald. Howard:

Whereas, A large and very respectable portion of our citizens, tax payers, have petitioned His Honor the Mayor that he retain the services of the present efficient Chief of Police, Mr. Robert H. Best; and as the appointment of a person to said office who has never been identified with the Police Department of the city would be at best a dangerous experiment, especially while the principal force is composed of men of but little experience in their business; therefore,

Resolved, That the communication of His Honor the Mayor be received and placed on file, and that this Council do hereby refuse to confirm the appointment recommended in said communication for Chief of Police, and that the balance be referred to the Police Committee. Lost. Ayes, 8; Noes 13.

Ald. Felton then moved that the said communication be referred to the Committee on Police. Lost.

Ald. Yaw moved as an amendment to the motion of Ald. Howard, that the consent of the Common Council be given to the appointment of the Police Constable and Policemen nominated in said communication, and that the balance of said communication be referred to the Committee on Claims.

The Chair decided that so much of the motion of Ald. Yaw as proposes to refer a portion of the said communication was not in order.

Ald. Felton moved that the whole matter be laid upon the table for one week, to be taken up under the order of reports from the Committee on Police. Lost.

The question was then taken on so much of the amendment moved by Ald. Yaw as proposes to give the consent of the Council to the appointment of the Police Constable and Policemen, and the same was carried. Ayes, 17; Noes, 6.

The question then recurred on the motion of Ald. Howard, "That the communication from the Mayor be received and filed, and that the consent of the Common Council be given to the appointment of the persons named therein," as amended by the motion of Ald. Yaw.

Ald. Adams moved the previous question, which was ordered.

The question was then taken on the said motion of Ald. Howard, as amended, and upon the calling of the ayes and noes thereon, Ald. Beckwith rose to explain his vote.

The Chair decided that the previous question having been ordered, Ald. Beckwith had not the right to explain his vote.

Ald. Beckwith appealed from the decision of the Chair. The decision of the Chair was sustained. Ayes, 11; Noes, 11.

The motion of Ald. Howard as amended, was then declared to be carried by the following vote: Ayes, 13; Noes, 9.

By Ald. Mills—

The Committee on Wharves, Harbors and Ferries, to whom was referred the subject of a Ferry across Niagara River at Black Rock, opposite Fort Erie, Canada side, on sundry petitions, remonstrances, &c., would beg to report as follows:

That in our opinion, the increased business wants of the people on both sides of the River require much better facilities for crossing at the point above named, than has heretofore existed. The lease of the present incumbent expires May 1st, next. We would recommend that the Ferry be leased to some party or parties from that time, for a term of years as this Council may determine, who will put on and maintain a new, good and substantial modern built Ferry Boat, of good speed, capable of crossing the river at all times, and suitable to the wants of business, to be run to meet the accommodation and wishes of the people on both sides of the river, of not less than one hundred feet in length, (100) and [35] thirty-five feet wide over guards and all, and eight (8) feet hold, with wide gangways and roomy decks, to allow loads of hay or any other material to drive on with ease, and to provide good and safe gang-planks, with side protections to them to allow passengers, teams or stock to go on and off the boat with ease and safety; the boat to be a side wheel one and to be propelled with a powerful, good engine and boilers, and the boat to be furnished with suitable small boats to be hoisted on cranes or davits, so they can be lowered easily and readily in case of need, and to be furnished with means to extinguish fires, with life preservers, and all modern contrivances to preserve life and to avoid accidents; the space between decks to be of good height to allow ordinary loaded teams to drive under cover, and that the boat be partially decked over for that purpose, and that a suitable, good cabin be provided for the accommodation of passengers. And further, that we recommend that the boat be run from the foot of Albany, Ferry or Breckenridge streets, as this Council may deem best; that the party or parties to whom the grant is made be compelled to build a swing bridge across the Black Rock Harbor at the point where the Ferry is to land, to be designated by this Council, and to grade the street designated by this Council at the foot of which this Ferry is to be located, at a grade not to exceed seven feet to the undred, and to plank, pave or macadamise the same; the boat equipment, the landing, the approaches to the Ferry, the bridges, and everything connected with it, to be constructed and kept in perfect repair during the term of the lease, by the party or parties holding the same solely; the boat to be run from sunrise in the morning from the first day of April to the first day of December, to eight o'clock in the evening, every thirty minutes, and from the 1st day of December to the 1st day of April, from sunrise till seven o'clock in the evening, every 30 minutes; and to run after the hours above named the year round as this or a subsequent Council may determine necessary to meet the real wants and accommodations of the business. The lease to be granted to them by this Council contingent upon the faithful performance and fulfillment of all its provisions, and liable to be revoked by this Council on the wilful and persistent violation of it. We would recommend that a lease be made for a term of years as this Council may determine, to responsible parties, who are willing to take the same, and give such security as this Council may deem necessary; but it is the opinion of this Committee that the investment of the party or parties accepting the lease would have to make by the conditions of the lease, and its stringent provisions, would be ample security for its faithful performance, without any additional security. We would recommend the following

tariff of prices to be attached to the lease as one of its conditions:—

For each adult foot passenger crossing said river, 5 cents.]

Childron, each, 3 cents.

Horse and rider, 10 cents.

Vehicle and driver, drawn by one horse, 15 cents.

Vehicle and driver, drawn by two horses, 25 cents.

Vehicle and driver, drawn by four horses, 35 cents.

Passengers in any vehicle, each, 5 cents.

For each barrel bulk, 5 cents.

Grain in bags, except when loaded on a wagon or other vehicle, $\frac{1}{2}$ c $\frac{1}{2}$ bushel.

All articles not enumerated, $\frac{1}{2}$ barrel, bulk, 5 cents.

Cattle, horses or mules, each, 5 cents.

Hogs and sheep on foot, each, 2 cents.

We would recommend that the City Clerk advertize in the City papers five days for sealed proposals from parties wishing to get this lease to equip and operate the Ferry, on the terms as above proposed, or as this Council may amend this report, the proposals to be handed in to the Committee on Wharves, Harbors and Ferries, to be opened by them and reported to this Council.

Ald. Howard moved that said report be laid upon the table until the next meeting of the Council, to be taken up under the order of Reports from Committee on Wharves, Harbors and Ferries, and that same be printed. Carried.

about 400 feet easterly from Dale street, amounting to \$20 61, and of drawing an order for same. Adopted.

That the City Surveyor is hereby directed to cause the lines of Vermont street to be run from Fourth street to Rogers street, and make a map or plan showing all obstructions being or standing in said Vermont street, and what such obstructions are, and how much any building or fence encroaches upon said street; and that he report the same to this Council at its next regular meeting. Adopted.

That Niagara street be repaired, from the bridge across Scenajunda Creek to a point about forty feet southerly therefrom, at an expense not exceeding \$100. And that the Street Commissioner is hereby directed to cause the same to be done under the advice and direction of the City Surveyor, and report the expense to this Council. Adopted.

COMMUNICATIONS FROM HIS HONOR THE MAYOR.

GENTLEMEN—A summons has been served on me to appear before Charles Gardner, Esq., on the 12th inst., to answer to the complaint of Francis G. Pattison. Also, a summons to appear before Charles Gardner, Esq. on the 11th inst., to answer to the complaint of George Hinson.

I return without approval a resolution adopted by your honorable body on the 18th ult., directing an order to be drawn in favor of the City Attorney, to pay expenses to Albany, &c., on the fund for 1860.

The objection to the resolution is that the expense for which the order was drawn was not created in 1860—the order should be drawn on the fund of 1861.

I also return without approval the resolution adopted March 23d, directing an order to be drawn in favor of John Butler, policeman. The objection to the resolution is, that he is not entitled to pay, and that in my opinion the Common Council have no authority to make donations of any kind. Mr. Butler was suspended by me during the time he asks for pay.

Very respectfully,
F. A. ALBERGER, Mayor.

Ald. Howard moved that said communication be received and placed on file, and that the City Attorney be directed to defend the suits commenced, and the subject matter of so much of said communication as relates to order for City Attorney, be referred to the Committee on Finance, and so much thereof as relates to order for John Butler, be referred to Committee on Police. I also report that the policies of insurance in the Buffalo Mutual Insurance Company upon the school property of District No. 24, and the Central School will expire on the 11th inst. The expense of renewal of said policies will be \$56 25. It is recommended that orders be drawn in favor of A. A. FROM THE SUPERINTENDENT OF SCHOOLS.

An error occurred in the order drawn on the School Fund, dated April 1, 1861, in favor of Delia Randolph, assistant teacher in public school No. 9. The order was drawn for \$25 88, instead of \$32 14, as it should have been.

I recommend that an order be drawn in my favor for \$5 26, to adjust the above claim.

The Fire Marshal reported proposals received for furnishing leather hose for the Fire Department.

§ 6. He shall certify no bill or claim for repairs of any nature whatsoever, nor for materials furnished or services rendered any department of the city government, unless such repairs, materials or services shall have been first ordered by the Common Council, or are authorized by ordinance.

§ 7. Nothing in the last three sections contained shall authorize the auditor to certify the allowance of any bill or claim not incurred under due authority of law, for work or services which shall not have been rendered, or for materials or supplies which shall not have been furnished, or to certify the allowance of any charges which shall not be just and reasonable, or according to contract; but he shall reject all such bills, claims, or charges, any resolution or ordinance of the Common Council or certificates to the contrary notwithstanding.

Ald. Bemis offered the following as a substitute for the foregoing resolution reported by Ald. Palmer:

Whereas, In pursuance of the provisions of an act of the Legislature of the State of New York, passed April 7th, 1848, in relation to the Buffalo and Hamburg Turnpike Company's bridge over Big Buffalo Creek, in words following, to wit:

CHAPTER 198.

§ 1. "The Common Council of the City of Buffalo are hereby authorized, on giving fifteen months notice to the Buffalo and Hamburg Turnpike Company, to order the construction of a draw in their toll bridge over Big Buffalo Creek, or of a toll bridge in place thereof; and the said Common Council are hereby authorized to assess the expense thereof upon the real property deemed benefited thereby, or to levy a general tax upon the city of Buffalo for the same, or to require the said Company to pay such expense, and to distribute the expense of the same in such portions and on such interests as they shall deem equitable. Said draw to be of such width and capacity, and under such regulations as the said Common Council shall direct. And in case the said Common Council shall order the construction of said draw, or in place thereof a toll bridge, wholly at the expense of the Company, in place of the present toll bridge, then and in that case, if the said Company shall refuse or neglect to construct the same, the said Common Council shall have power to remove the present bridge, and the said Company shall be liable to replace the same."

The Common Council of the City of Buffalo, on the 21th day of April, 1852, by resolution, caused notice to be given to said Company to construct a draw in their said toll bridge, within fifteen months from the time of said notice, and thereafter, to wit, on the 24 day of January, 1854, passed the following report from the Committee on Wharves and Public Grounds:

"Ald. Pierce presented the following report from the Committee on Wharves and Public Grounds:

The Committee on Wharves and Public Grounds, to whom was referred the resolution of Ald. Pierce, in relation

to the subject of a draw in the Buffalo and Hamburg Turnpike Company's Toll Bridge, respectfully report:

"That in their opinion public necessity demands that a draw should be immediately constructed in said bridge. They would therefore present the following resolutions, and recommend their adoption:

"Whereas, The notice required by the first section of chapter 198, of the laws of this State, of the year 1848, was duly given to the Buffalo and Hamburg Turnpike Company, on the 21th day of April, 1852, and more than fifteen months having elapsed since the giving of said notice, therefore,

Resolved, That in pursuance of said section and chapter and the notice aforesaid, this Council do hereby order and determine that the Buffalo and Hamburg Turnpike Company shall construct a draw in their toll bridge over Big Buffalo Creek, at the cost and expense of said Turnpike Company. Which draw shall be seventy feet in width [in order that a steamboat measuring sixty-eight feet over guards, may freely pass through the same] said draw shall be constructed as aforesaid within ninety days after this date, and in case said company shall neglect to comply with this resolution, then the Street Commissioner is hereby directed to cause said bridge to be removed, and at the point occupied by it, to remove all obstructions to the free navigation of said Big Buffalo Creek.

Resolved, That if said Buffalo and Hamburg Turnpike Company shall acquire title to the land necessary to construct a draw of the width above named on the northerly side of the northerly abutment of their present toll bridge, and shall, within ninety days after this date, excavate, construct and complete said draw, with the necessary abutments, and suitable depth of water to admit the passage of vessels, and steamboats of the size above named, to the satisfaction of the Street Commissioner, and Committee on Wharves and Public Grounds, then, it is hereby ordered and determined that said draw shall be accepted, instead of the draw above ordered, and that two thirds of the expense of the excavation and construction of said draw shall be borne by the city.

The ayes and noes were called upon the above report and resolutions, and the same were adopted by the following vote:

"Ayes—Ald. Baker, Bemis, Chamberlain, Devenog, Evans, McKay, Pierce, Walsh—8.

"Noes—Ald. Wells—1.

"Approved January 23, 1854.

"ELI COOK, Mayor."

And whereas, on the 30th of October, 1854, the Common Council declared its intention to widen, straighten and enlarge Buffalo Creek as follows:

"That the Common Council of the city of Buffalo intend to take and appropriate the property necessary to widen and straighten the Buffalo Creek at its intersection with Ohio street, bounded and described as follows: commencing at a point in the easterly line of Ohio street seventy-eight feet northerly from the inner face of the northerly abutment of the Buffalo and Hamburg Turnpike Company's toll bridge; thence running easterly at right angles with Ohio street to the waters of the Buffalo Creek; thence westerly along the shore of said creek to the said easterly line of Ohio street; thence northerly to the place of beginning; and thence running

westerly at right angles with said Ohio street to the said waters of the Buffalo Creek; thence easterly along the shore of said creek and the abutment of said bridge to the said easterly line of Ohio street; thence northerly to the place of beginning: And the City Clerk is hereby directed to give notice of such intention by publishing the same in the city paper in twenty successive numbers. Adopted.

"Ald. Pierce then presented an agreement, under seal, signed by H. W. Rogers, Geo. W. Tift, and others, owners of stock of the Buffalo and Hamburg Turnpike Co., agreeing to pay into the city treasury, to be expended towards defraying the expense of constructing a slip and draw at the point mentioned in the foregoing resolution, the sum of \$3,000; such payment to be made during the first 30 days that the assessment for said work shall be in the hands of the Receiver of Taxes.

"The same was read and referred to the Committee on Wharves and Harbors."

And thereafter, to wit, on the 18th day of August, 1856, the report of Commissioner in the matter of said improvement was presented to the Council in words following, to wit:

"The report of the Commissioners appointed by the Superior Court of Buffalo to ascertain and report the just compensation to be paid to the person or persons owning or having an interest in the property deemed necessary to widen, and straighten and enlarge Buffalo Creek, as follows:

"All the land bounded north by a line drawn at right angles with and across Ohio street through Louisiana street to Buffalo Creek, below the toll bridge of the Buffalo and Hamburg Turnpike Company, and extended eastward to said creek above said bridge, and which line shall be distant in the centre of Ohio street north *eighty-three feet from the inner or south face of the north abutment wall of said bridge*; and westerly, southwesterly, southerly, southeasterly and easterly by the waters of said creek, the time for the consideration of which, and of the objections thereto, had been postponed until to-day, was taken up and opportunity given to parties interested to be heard.

"H. W. Rogers and A. L. Baker, Esquires, addressed the Council in favor of the confirmation of said report.

"A. S. Bemis, Esquire, addressed the Council in opposition to the confirmation of the said report.

"The question being on the confirmation of the said report.

"Ald. Wells moved the previous question. Carried.

"And the said report was confirmed. Ayes, 13; Noes, 9."

And whereas, said improvement has been delayed until the present year, and the said toll bridge still remains a permanent obstruction to the navigation of Buffalo Creek above said bridge, and parties owning rights on said creek are desiring of this Council immediate action in the matter.

And whereas, the Council has heretofore caused the following notice to be published in the official paper for ten days, to wit:

"Buffalo Creek widened, straightened and enlarged by excavating so as to create a depth of twelve feet of water within the following described bounds, and protecting the same on the northerly side thereof with crib work:

"Commencing at a point in a line drawn at right angles to Ohio street, through a point 53 feet north of the south face of the present north abutment of the bridge across said creek at Ohio street, and distant on said line 321 feet from the centre of Ohio street as paved; thence west on said line 588 feet; thence south at right angles with last course 77 feet; thence east at right angles with last course 558 feet; thence north at right angles with last course 77 feet to the place of beginning.

Dated Buffalo, March 26th, 1861.

O. F. PRESBREY, City Clerk."

Now therefore, be it resolved that the Common Council of the city of Buffalo have determined and do hereby determine to cause the following improvement to be made in said city, to wit:

Buffalo Creek widened, straightened and enlarged by excavating so as to create a depth of twelve feet of water within the following described bounds, and protecting the same on the northerly side thereof with crib work:— Commencing at a point in a line drawn at right angles to Ohio street, through a point 53 feet north of the south face of the present north abutment of the bridge across said creek at Ohio street, and distant on said line 321 feet from the centre of Ohio street as paved; thence west on said line 588 feet; thence south at right angles with last course 77 feet; thence east at right angles with last course 558 feet; thence north at right angles with last course 77 feet to the place of beginning.

Ald. Howell moved the previous question, which was ordered.

The question was taken on the adoption of the substitute offered by Ald. Bemis, and the same was lost. Ayes 4; Noes 20.

The said resolution reported by Ald. Palmer was then adopted. Ayes 22; Noes 2.

Ald. Palmer, from the said Committee on Streets, also reported in favor of the adoption of the following resolutions:—

That when an assessment shall be confirmed to defray the expenses, the City Surveyor be, and he is hereby authorized and directed to contract with Strong & Richardson, they being the lowest bidders therefor, for widening, enlarging and straightening Buffalo Creek at the Toll-bridge on Ohio street, by excavating a channel 50 feet wide and 12 feet deep, and building crib-work in accordance with the plan and specifications for doing the same, at a sum not exceeding \$5,930. Adopted.

That the City Assessors be directed to assess \$5,930, for widening, straightening and enlarging Buffalo Creek at the Toll Bridge on Ohio street by excavating a channel on the northerly side of said Creek.

Whereas, The President of the United States, in view of the alarming aspect of public affairs, has deemed it his duty to call upon the several States for a force of militia to aid him in maintaining the integrity of the Union;

Resolved, That this Common Council, while regretting that an appeal to arms to sustain our beloved country and its cherished institutions has become necessary, fully approve of the course of the President, and will sustain him in all lawful measures to enforce the laws and maintain the Union.

Resolved, That we recommend all good citizens to come forward in this time of our Country's need and prove their patriotism by renewing the pledge made by their fathers of their lives and fortunes to aid in preserving the liberties of our country.

§ Ald. Beckwith offered the following as a substitute for the resolution offered by Ald. Adams:

Whereas, the Government of the United States has its true foundation in the popular will, and can be maintained in its original spirit and design only by securing the voluntary attachment of the American people, and

Whereas, large portions of the people of our common country, in the name of their local sovereignties, have refused longer adherence to the general government, and declare their intention to effect a permanent separation from the country, and

Whereas, the President of the United States has issued a call for volunteers for the purpose of aiding the Administration in enforcing the laws, and

Whereas, in the opinion of this Council there is danger of the country being plunged into the horrors of civil war under the pretext of enforcing the laws, therefore,

Resolved, That in the opinion of this Council the Government cannot be upheld by bayonets, and that we are opposed to the inauguration in this country of the doctrine of the right of the government to perpetuate itself, and that the call upon the militia of the various States is dangerous to the future peace of the country, and inexpedient. Buffalo, Monday, April 22d, 1861, }
at 2 o'clock, P. M.

Present—Asaph S. Bemis, Esq., President of the Council; and Ald. Adams, Allen, Beckwith, Brush, Crowder, Dorr, Felton Goembel, Grass, Hanovan, Howard, Howell, Mills, Pratt, Russell, Rutter, Savage, Scheu, Schwartz, Storck, Wheeler, and Yaw.

Absent—Ald. Jones, Palmer, and Walsh.

The minutes of the meetings held April 15th, 1861, at 2 and 7 o'clock P. M. were approved.

Ald. Adams moved that the regular order of business be suspended. Carried. Ayes, 19; Noes, 0.

Ald. Dorr presented the following communication:

Whereas, a crisis in our public affairs has arisen when it becomes imperative that private and public liberality should alike become active; and,

Whereas, the citizens of Buffalo having already subscribed some \$15,000 for the purpose of relieving the immediate necessities of persons entering the service of Government in this crisis, and for providing for their families during their absence, and the citizens having appointed a committee of three, consisting of Jason Sexton, Henry W. Rogers and Samuel F. Pratt, who shall have charge of and disburse this fund as it is needed; therefore,

Resolved, That the Common Council be requested to appropriate a sum of money for this purpose to the amount of \$50,000 or more, and that the funds be consolidated and be known as a fund for the defence of the federal Union, and that the Council be requested further to appoint three members of its own body to act in concert with the above named citizens' committee, said joint committee to be designated and known as the committee having charge of the fund raised for the defence of the federal Union by the citizens and corporation of the city of Buffalo, the said committee to be accountable to the Common Council of said city for the proper exercise of the powers and duties so conferred upon them.

Resolved, That the Chairman of this Committee be directed to notify the Common Council of the action of this Committee on this subject.

E. S. PROSSER, Ch'n.

S. K. WORTHINGTON, Sec'y.

Received and placed on file.

Whereupon, Ald. Bemis offered the following:

Whereas, The proclamations of the President of the United States, and the Governors of New York and other

States, calling upon men and means with which to suppress rebellion, and maintain the Union, the Constitution and the enforcement of the laws, demand a prompt and efficient response; and

Whereas, In pursuance of the proclamation and call of the Governor of the State of New York, for the immediate mustering of the quota of forces from New York, to answer the demand made by the President of the United States for the purposes aforesaid, many loyal and patriotic men of this city are desirous of answering their country's call in the hour of its peril, and of taking up arms as soldiers and volunteers in its defence, but who are deterred from so doing by their obligations to provide for the necessities of others dependent upon them for support; and

Whereas, In view of the circumstances and necessities of the case as proclaimed by the Chief Magistrate of this nation, and in order that the city of Buffalo shall be neither last nor least in contributing, as far and as promptly as possible, the desired aid, in men for active service, and enable those of organized military companies, or volunteers from our city, to go at once, who cannot do so unless provision is made for the sustenance of those dependent upon them, during their absence in the service of their country; and

Whereas, This Council deeming it meet and proper that reasonable provision should be made for all such as aforesaid, at the public expense, and relying upon the generosity and patriotism of the citizens of Buffalo to approve of the acts of this Council, in incurring an extraordinary liability as hereinafter contemplated, for the purposes aforesaid, and for the better protection of the city; and

Whereas, A great public calamity exists, in view of which extraordinary expenditures are, or may become necessary, and no adequate contingent fund exists from which to defray such extraordinary expenses,—therefore, for the purposes of a necessary contingent fund to meet the exigencies above referred to, and provide for the safety of the city,

Resolved, That it is hereby ordered and determined by the Common Council of the city of Buffalo, that the City Comptroller and Mayor be, and they are hereby authorized and directed to issue the bonds of said city, under the corporate seal thereof, in such sums, not exceeding in the aggregate \$50,000, and at such times as may be expedient. Such bonds so to be issued to bear interest from the date thereof, at the rate of seven per cent per annum, payable at the office of the City Comptroller. The

principal upon said bonds so to be issued, shall be payable at the City Comptroller's office in manner following, to wit:

- \$10,000 two years from date of bond.
- \$10,000 three years from date of bond.
- \$10,000 four years from date of bond.
- \$10,000 five years from date of bond.
- \$10,000 six years from the date of bond.

\$50,000.

And the City Comptroller is hereby further authorized and directed to negotiate said bonds, or so much of the amount thereof, from time to time, as may be expedient, at the best rate possible for the interests of the city, and pay the proceeds thereof into the city treasury, to the credit of a fund to be designated as "The Contingent Fund."

The contingent fund thus created, shall not be subject to draft by the Common Council, except for expenses and liabilities that shall have been incurred by its direction, on account of the now existing *rebellion and civil war*, and for the purpose, if expedient, of paying the principal and interest upon the bonds aforesaid.

All claims and accounts, payable out of said contingent fund as aforesaid, shall be audited and allowed in the same manner as is provided for all other accounts against the City.

The said contingent fund shall be reimbursed by repayment to it, with interest of such sum as shall have been borrowed from it for the purposes aforesaid, provision for which shall be made in the manner provided by section 7 of title 5 of the City Charter.

Ald. Hanovan offered the following as a substitute for the preamble and resolution offered by Ald. Bemis:

Whereas, Section 7 of Title 5 of the Charter of the city of Buffalo provides that in case of some great public calamity, the Common Council may borrow a sum from the contingent fund, equal to the emergency, for a term not exceeding eighteen months, and shall provide for the repayment thereof, with interest, in and by the next general tax; and,

Whereas, War, one of the greatest public calamities, has fallen upon us; and,

Whereas, It is eminently proper and highly necessary that provision should be made for the support of the families of those brave and patriotic men who volunteer to fight the battles of their country, during the time they may be absent from home; therefore,

Resolved, That the Common Council of the city of Buffalo do hereby borrow from the contingent fund of said city for the year 1861, the sum of fifty thousand dollars, for the purpose of creating a fund to be called the "Volunteer Relief Fund," out of which to furnish such support as may be necessary to the families of those residing in the city of Buffalo at the time of volunteering, as may volunteer to fight the battles of their country during the existing war, during the time such volunteers may be absent from home.

Resolved, That the Comptroller of the city of Buffalo, be and he is hereby authorized and directed to open an account on the books of his office to be called the "Volunteer Relief Fund," and credit thereto the sum of fifty thousand dollars borrowed from the contingent fund.

The following was then offered as a substitute for the preamble and resolutions offered by Ald. Bemis, and the substitute therefor offered by Ald. Hanovan.

Whereas, Civil war has broken out in our country, and traitors are seeking, by armed rebellion, to overthrow the Constitution of the Government of the land, and destroy the liberties of the people; and

Whereas, The President of our country has called upon the several loyal State Governments for men to put down rebellion, and the Governor of our State having promptly, and to its credit favorably responded to that call; and

Whereas, The Governors of several of the States have notified the President of their refusal to furnish men for that purpose,—requiring additional exertions from all loyal States; and

Whereas, Many of our citizens have enrolled themselves for the defense of that Constitution which secures Liberty to all men, to be constrained only by reasonable laws, made by the people themselves; and as there are many more who are anxious to volunteer, but are prevented by the necessitous circumstances which their families might be placed in; and

Whereas, It becomes the duty of our city government, and of each and every member of the same, by his oath, to support the Constitution of the United States; and as this Council can do so in no more efficient manner than by urging all its citizens to take up arms in defense of that Constitution, and as our city charter confers on us power, in cases of "great public calamity," to borrow money for defraying the necessary expenses thereof; therefore,

Resolved, That this great public calamity, in the judgment of this Council, fully warrants an extraordinary expenditure (under section 7 of title 5 of the charter,) of money, equal to the present emergency, not contemplated as among the ordinary contingent expenditures of the city government.

Resolved, That this Common Council hereby determines to borrow from the contingent fund of the city the sum of \$50,000, for the term of eighteen months, to be used in aiding to furnish board, clothing and other necessary supplies to all who shall volunteer to enter the military service of the country, and who shall be quartered in the city until ordered to actual service by the State, and in aiding and assisting the families of such as shall need our material aid during their absence in the service of their country.

Resolved, That a committee of six Aldermen, with the Mayor as Chairman of the same, shall be appointed to act in carrying out the objects aforesaid, with power to determine who shall receive aid from the city, and all orders shall be drawn in favor of such persons as shall need assistance; or, in extraordinary cases, in favor of the Chairman of such Committee, upon a majority vote of such Committee reporting in favor of the same, and that such Committee, with the City Clerk, be authorized to employ a clerk for such time as they shall deem it necessary, at a salary not exceeding \$500 per year, or after that rate, whose duty it shall be to keep an enrolled list of all such persons as shall be entitled to assistance, under the act on]of the Committee, the time when admitted to such roll, and when discharged therefrom, the amount and nature of aid to be rendered, and time when

given, and that such record and books shall be kept as a record in the City Clerk's office.

Resolved, That the Treasurer and Comptroller of the city of Buffalo be, and they are hereby directed to open an account upon the books in their respective offices, to be called "Fund for the Defence of the Federal Union," and that all orders hereafter drawn on the city Treasury, for the purposes contemplated by these resolutions, shall be drawn and paid by the city Treasurer, and charged to said fund.

Resolved, That any officer or employee of the city government who has or may hereafter enlist in the service of his country under the call aforesaid, their respective offices or places shall not for such cause be deemed vacant; and their respective salaries shall, while such officers or employees are in the employ of the Government be paid them, or to their authorized agents, the same as if they were in the actual service of the city, and until their respective terms of office shall, as now fixed, expire, unless the necessity for their continuing in the army shall sooner cease.

Resolved, That we earnestly invite all able-bodied and patriotic citizens of our city and the surrounding country to come forward and enroll themselves under the banner of our common country, in the present emergency, hereby fully assuring all such as may volunteer that the city of Buffalo will stand by them, and that it will, through its government, fully and liberally carry out, to the letter and spirit, the foregoing preamble and resolutions, and it will do more, if necessary, and all that may be hereafter required, in furthering the objects named.

A. A. HOWARD,

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

GENTLEMEN,—On the 1st proximo there will be due Frederick Kull, guardian, \$25, rent for Police Station No. 4, and to Edgar C. Dibble, \$37 50, rent for Police Station No. 2; and I would recommend that orders be drawn in their favor respectively for the amounts named on the General Fund, Police Department, estimated for 1861, in full payment of such rent.

I also report that the rooms occupied by the Chief of Police have been re-rented for the term of three years from April 1, 1861, at the aggregate yearly rent of \$215 in quarterly payments. For Police Station No. 2, a brick building and lot on south side of Seneca street, second door east of Louisiana street, has been rented for the term of three years of Jas. G. Turner, at the yearly rent of \$125 per annum. This change was deemed advisable by the Committee on Police and the undersigned, as the location and building is preferable to the one now rented of E. C. Dibble.

Respectfully,

ALONZO TANNER, Comptroller.

Filed and orders directed to be drawn.

FROM THE CITY ATTORNEY.

In compliance with your direction, I hereby report that my expenses while attending the Court of Appeals in behalf of the city amounted to \$71 87. I was necessarily absent three weeks, and during that time I disposed of three cases in said Court, to each of which cases the city was a party.

Respectfully submitted,

GEORGE WADSWORTH,

City Attorney.

Ald. Howard moved that said communication be received and filed, and the subject matter thereof be referred to Committee on Finance. Carried.

FURTHER FROM THE CITY ATTORNEY.

I hereby report that I have examined as to the right of Edward Bennett to hold the office of Policeman and Constable at the same time, and am of the opinion that he cannot legally hold both of said offices. He has a right to elect which he will take, and his election to take one of said offices will vacate the other.

Respectfully submitted,

GEORGE WADSWORTH,

City Attorney.

Filed, and subject matter referred to Committee on Police.

FURTHER FROM THE CITY ATTORNEY.

I hereby report that the judgment recovered by Richard Hornbuckle against the City for \$18 44, remains unpaid. I reported to your Honorable Body concerning this judgment on the 11th of February last, and you directed an order to be drawn in my favor on the General Fund of 1860, with which to pay the said judgment. This action was vetoed by his Honor the Mayor, on the ground that the judgment was not obtained in 1860. I now recommend that an order be drawn in my favor on

the General Fund of 1861, City Attorney and Legal expense Department, for \$18 44, with which to satisfy said judgment.

I also report that \$10 is due Messrs. Greene and Stevens, for costs in the suit of Elizabeth Read against the City, which suit was brought to recover the amount due on certain local orders. On the 4th day of March last, your Honorable Body provided for the payment of said orders, but made no provision for the payment of the costs of the suit. I therefore recommend that an order for \$10 be drawn in my favor on the General Fund of 1861, City Attorney and Legal Expense Department, with which to pay said costs.

GEORGE WADSWORTH, City Attorney.

Filed and orders directed to be drawn.

Ald. Howard, by unanimous consent offered the following resolution:

Resolved, That the committee appointed under the resolution of this Council for disbursing the moneys appropriated by the Council for the defence of the Federal Union, be and they are hereby directed to act in concert with the committee of citizens, this day appointed for disbursing the moneys raised by private subscription for the same purpose, and that the citizens' committee be requested to co-operate with the committee of this Council.—Adopted.

Ald. Jones asked consent to have his name recorded as voting in favor of the adoption of the preamble and resolutions signed by Ald. Howard and Felton, in relation to raising a fund for the defence of the Federal Union, which preamble and resolutions were presented to and adopted by the Council this day, he being unavoidably absent at the time of the adoption of the said preamble and resolutions.

Ald. Adams moved that the request of Ald. Jones be granted, and that the Clerk be directed to record his name as so requested. Carried.

GENTLEMEN,—An order has been received by the 74th.

Regiment, New York State Militia, to report at Elmira on the 1st May next, and it is understood that this Regiment must be uniformed or they will not be received.

The Joint Committee of your honorable body and of citizens appointed to superintend the disbursements of the money raised for the defence of the "Federal Union," have come to the conclusion that the resolutions adopted by your honorable body and the terms under which subscriptions were made by citizens, do not authorize or warrant them to make the expenditure necessary to clothe this Regiment, or the 65th if ordered on duty, and they have requested me, as Chairman of the Committee, to call your immediate attention thereto.

The necessities of our Government demand that every exertion should be made to get men into the field at once, and as this regiment is composed of our young and active citizens who have been reared among us, it is incumbent upon us, as patriotic citizens, to equip them in a suitable and proper manner—worthy of the cause in which they are engaged and creditable to our city. I transmit, herewith, a copy of the resolution adopted (unanimously) by the Joint Committee, and respectfully recommend immediate action.

Respectfully submitted,

F. A. ALBERGER, Mayor.

Resolved, As the sense of this joint committee, that they have not the power to disburse any portion of the fund committed to their charge, for the purpose of equipping the 74th or 65th regiments, or any military force raised for the defence of the Federal Union, and they recommend further action in reference to the question of equipment to be taken by the Common Council." From the north line of Hamilton street, to the centre of Bird street, 1,746 feet, at fifty cents per foot—\$873.

From the centre of Bird street to Cornelius Creek, 1,661 feet, at fifty cents per foot—\$832.

—Referred to Committee on New Territory.

2396.			
For repairing the plank sidewalk on the easterly side of Michigan street, between Sycamore and Genesee street....			
	49 67	1 33	51 00

The following communication from the City Attorney was received:

I hereby report that I have examined an abstract of the proceedings of your honorable body, in regard to Assessment Rolls Nos. 2395, 2396, and 2397, and am of opinion that said proceedings have been regular, and in accordance with the provisions of the Charter, so far as Nos. 2395 and 2396 are concerned. I am of opinion that your proceedings as to Roll No. 2397, have been irregular for the following reasons: Section 25, of Title 8, confers upon your honorable body power to construct, repair, and maintain public pumps and wells, but Section 33 of the same Title provides that "no work exceeding the amount of \$200, shall be contracted for under this Title, until the assessment therefor shall have been confirmed by the Common Council." This assessment has not yet been confirmed, but your honorable body ordered the work Dec. 3, 1860, and I am informed that work to the amount of \$247, has been already contracted for, and actually performed upon said well, in violation of the provisions of said Section 33, of Title 8.

Respectfully submitted,

GEORGE WADSWORTH,

City Attorney.

Ald. Allen moved that the report from the Committee on Wharves, Harbors, and Ferries, in relation to Ferry across Niagara River, presented to the Council at its meeting held April 3rd, 1861, and at that time laid upon the table, be now taken from the table. Carried.

The following is the said report:

The Committee on Wharves, Harbors and Ferries, to whom was referred the subject of a Ferry across Niagara River at Black Rock, opposite Fort Erie, Canada side, on sundry petitions, remonstrances, &c., would beg to report as follows:

That in our opinion, the increased business wants of the people on both sides of the River require much better facilities for crossing at the point above named, than have heretofore existed. The lease of the present incumbent expires May 1st, next. We would recommend that the Ferry be leased to some party or parties from that time, for a term of years as this Council may determine, who

will put on and maintain a new, good and substantial modern built Ferry Boat, of good speed, capable of crossing the river at all times, and suitable to the wants of business, to be run to meet the accommodation and wishes of the people on both sides of the river, of not less than one hundred feet in length, (100) and (35) thirty-five feet wide over gunwals and all, and eight (8) feet hold, with wide gangways and rooey decks, to allow loads of hay or any other material to drive on with ease, and to provide good and safe gang-planks, with slide protections to them to allow passengers, teams or stock to go on and off the boat with ease and safety; the boat to be a side wheel one and to be propelled with a powerful, good engine and boilers, and the boat to be furnished with suitable small boats to be hoisted on cranes or davits, so they can be

lowered easily and readily in case of need, and to be furnished with means to extinguish fires, with life preservers, and all modern contrivances to preserve life and to avoid accidents; the space between decks to be of good height to allow ordinary loaded teams to drive under cover, and that the boat be partially decked over for that purpose, and that a suitable, good cabin be provided for the accommodation of passengers. And further, that we recommend that the boat be run from the foot of Albany, Ferry or Breckenridge streets, as this Council may deem best; that the party or parties to whom the grant is made be compelled to build a swing bridge across the Black Rock Harbor at the point where the Ferry is to land, to be designated by this Council, and to grade the street designated by this Council at the foot of which this Ferry is to be located, at a grade not to exceed seven feet to the hundred, and to plank, pave or macadamise the same; the boat equipment, the landing, the approaches to the Ferry, the bridges, and everything connected with it, to be constructed and kept in perfect repair during the term of the lease, by the party or parties holding the same solely; the boat to be run from sunrise in the morning from the first day of April to the first day of December, to eight o'clock in the evening, every thirty minutes, and from the 1st day of December to the 1st day of April, from sunrise till seven o'clock in the evening, every thirty minutes; and to run after the hours above named the year round, as this or a subsequent Council may determine necessary to meet the real wants and accommodations of the business. The lease to be granted to them by this Council contingent upon the faithful performance and fulfillment of all its provisions, and liable to be revoked by this Council on the wilful and persistent violation of it. We would recommend that a lease be made for a term of years as this Council may determine, to responsible parties, who are willing to take the same, and give such security as this Council may deem necessary; but it is the opinion of this Committee that the investment of the party or parties accepting the lease would have to make by the conditions of the lease, and its stringent provisions, would be ample security for its faithful performance, without any additional security. We would recommend the following tariff of prices to be attached to the lease as one of its conditions:—

For each adult foot passenger crossing said river, 5 cents.

Children, each, 3 cents.

Horse and rider, 10 cents.

Vehicle and driver, drawn by one horse, 15 cents.

Vehicle and driver, drawn by two horses, 25 cents.

Vehicle and driver, drawn by four horses, 35 cents.

Passengers in any vehicle, each, 5 cents.

For each barrel bulk, 5 cents.

Grain in bags, except when loaded on a wagon or other vehicle, 1/2 bushel.

All articles not enumerated, 1/2 barrel, bulk, 5 cents.

Cattle, horses or mules, each, 5 cents.

Hogs and sheep on foot, each, 2 cents.

We would recommend that the City Clerk advertise in the City papers five days for sealed proposals from parties wishing to get this lease to equip and operate the Ferry, on the terms as above proposed, or as this Council may amend this report, the proposals to be handed in to the Committee on Wharves, Harbors and Ferries, to be opened by them and reported to this Council.

Ald. Felton moved that said report be adopted.

Ald. Allen moved to amend said report by striking out from the last paragraph thereof the words, "we would recommend" and inserting the word "Resolved" in place thereof. Carried.

Ald. Felton moved to further amend said report by striking out the words "from the first day of April to the first day of December," as contained in the 49th and 50th lines of said report, and inserting the said words so stricken out, immediately after the word "run" in the said 49th line of said report. Carried.

Ald. Mills moved as a further amendment to insert the words "for the term of fifteen years" after the word "Ferry" in the fourth line of the last paragraph of said report. Carried.

Ald. Palmer moved as a further amendment—that the Clerk advertise for two weeks for proposals, instead of five days, as named in said report. Carried.

And the said Report as amended was then adopted.

Ald. Yaw, from the Committee on Public Lamps, reported in favor of the adoption of the following resolutions.

That the Common Council of the city of Buffalo intend to extend the Lamp District on both sides of Rock street, from Genesee to Hospital street, and the City Clerk is hereby directed to cause the necessary notice of such intention to be duly published. Adopted.

That the Common Council of the City of Buffalo intend to extend the Lamp District on both sides of Bryant street, from Main street to Linwood avenue, and on both sides of Linwood avenue, from Bryant street to a point 275 feet northerly therefrom, and the City Clerk is hereby directed to cause the necessary notice of such intention to be duly published. Adopted.

That this Council agree to pay to the Buffalo Gas Light Company the sum of Two Hundred Dollars (\$200), towards defraying the expense of gas consumed for the year 1861, in the State Arsenal on Batavia street, providing the amount of gas actually consumed equals or exceeds that amount, said sums to be paid in quarterly payments, as follows:

\$50 per quarter, providing the gas actually consumed equals or exceeds that amount.

The whole amount of the claim of the Gas Company for the current quarter, providing such amount be less than \$50.

The last quarterly payment for the year, to make the aggregate amount paid by the city \$200, providing the quantity of gas consumed equals or exceeds that amount; if not, then the amount paid by the city to be equal to the actual cost of the gas consumed for the year. Adopted.

Also in favor of allowing the following account, and of drawing an order for the same:

Buffalo Gas Light Company, for gas for public buildings, for quarter ending March 31, 1861 \$517 00. Adopted.

SPECIAL COMMITTEES.

Ald. Felton from the Special Committee on revising the City ordinances, reported the following:

COMMUNICATIONS FROM HIS HONOR THE MAYOR.

GENTLEMEN.—Summons has been served upon me to appear before C. T. Shattuck, Esq., on the 9th inst., to answer to the demand of Michael Clor.

Respectfully,

F. A. ALBERGER, Mayor.

Referred to the City Attorney.

FROM THE COMPTROLLER.

GENTLEMEN.—On the 1st instant there will become due Edwin Thomas, per The Bank of Attica, Assignee, \$62 50, for six months' rent for premises occupied by Hose Co. No. 4, and it is recommended that an order be drawn in favor of said party for \$62 50, on the general fund 1861 Fire Department, in full payment of such rent.

I also report that the following named sums will be required to pay principal and interest on City Bonds falling due respectively on the days below named, viz:

On \$2,660, 7 per cent bonds, issued May 9, 1857,	
for School lot in District No. 33, payable at this office on the 9th inst., interest.....	\$ 93 10
On \$3,900, 7 per cent bonds, issued May 19, 1856,	
for School lot in District No. 32, payable at this office on the 19th inst., Principal.....	3,900 00

On \$1,500, 7 per cent bonds, issued May 19,	
1856, for School lot in District No. 19, payable at this office on the 19th inst., Principal.....	1,500 00
Interest.....	52 50
Total.....	\$5,632 10

It is recommended that orders be drawn in my favor on appropriate funds.

I also report that I did, on the 30th ultimo, tender to Hon. Orlando Allen, \$110 17, in gold and silver coin of the United States, being the principal and interest due him as per award of the Commissioners appointed by the Superior Court of Buffalo, to award compensation for land taken, to extend Perry street from its present termination to Dole street. This tender and payment was refused by Mr. Allen, and I did on the 1st inst., pay the same into the County Clerk's office, to said County Clerk, accompanied with a statement as required by the charter, and took his receipt therefor. This has been done in accordance with a resolution adopted by you on the 5th ult., and found at page 151 of your proceedings. I recommend that an order, drawn July 2, 1860, in favor of said Allen, for \$94, and interest from November 16, 1858, on Local fund for compensation &c, be cancelled; and that an order for \$110 17 be drawn in my favor on Local fund for compensation for land taken to extend Perry street

from present termination to Dole street, in full payment of such award.

Respectfully,

ALONZO TANNER, Comptroller.

Ald Swartz moved that said communication be received and placed on file, and that an order be drawn to pay rent of lot occupied by Hose Co. No. 4, and an order to pay interest on bonds for School lot in District No. 33; and that the subject matter of the balance of the said communication be referred to the Committee on Finance. Carried.

FURTHER FROM THE COMPTROLLER.

Gentlemen,—In accordance with the report of the Committee on Finance, adopted on the 22nd ult., by you, wherein the City Attorney and Comptroller are directed to make the necessary papers, and have the same executed by the several Banks therein named, as the deposit Banks of the city for three years from the 1st inst., the City Attorney drew a proper contract and bond, and after considerable delay, seven Banks named have executed the contract, while the Clinton Bank refuses to execute. I would therefore recommend that the contract be closed with the seven Banks that have executed the contract, and that the funds of the city be divided as near as may be equally with said seven Banks, or such of them as shall fully complete, and carry out said contract, in accordance with the terms of the report above referred to. I would also recommend that you adopt the 4th subdivision of the first resolution contained in said report which was stricken from said report. The reason for this recommendation, is simply that the Banks think that the rates of exchange should be fixed definitely at $\frac{1}{2}$ per cent as this is the current rate; and I can see no reasonable objection to fixing this at that rate, instead of leaving it an open question, to buy your drafts at the market rate. In conclusion I would say, that in view of the action taken by the council, making the justly liberal appropriation "for the defence of the Federal Union," the Mayor, myself and others connected with the city government, were in hopes that the Banks would be willing to obligate themselves to advance so much as might from time to time be needed to keep the orders on the General Fund at par value not exceeding \$130,000. While some of the Banks were willing to make this arrangement, the majority were opposed to going beyond 50,000, as fixed by report, and the contract accordingly is for the last named amount.

Respectfully,

ALONZO TANNER, Comptroller.

Ald Howard offered the following—

Resolved, That the communication of the Comptroller be received and placed on file, and that he be directed to close the contract therein mentioned with such of the Banks named in the report of the Finance Committee adopted on the 22d ult., by this Council, as shall fully comply with the terms and conditions named in said report, and that the bond to be given for such deposits be \$200,000, each Bank executing to furnish security pro rata for such amount, and for which they shall be severally, (and not jointly one Bank for another) liable—and that the contract and bond so made, or to be made, be, and the same is hereby adopted—and that the Comptroller report his action in the premises to this Council.

Resolved, That the said Banks shall sell or furnish exchange on the city of New York, so much as the city of

Buffalo shall need to pay the principal and interest of its funded debt, at the rate of one-half of one per cent., anything to the contrary mentioned in said contract notwithstanding, and that the city will purchase said exchange of said Banks at that rate, it being understood that said Banks are all to assent to this change, to have the same binding upon them or upon the city. Adopted. Ayes, 15; Nays, 0.

FROM THE CITY ATTORNEY.

I hereby report that the suit of the city of Buffalo against Henry B. Burt, which was commenced in April, 1855, has been tried and decided against the city, the reason for the decision is that the City did not demand payment of the moneys from Mr. Burt, before the action was brought. Respectfully submitted,

GEORGE WADSWORTH,
City Attorney.

Referred to the Committee on Finance together with the City Attorney.

FROM THE STREET COMMISSIONER.

Gentlemen,—The bridge across the Ravine on Elk street, about 400 feet easterly from Dole street, is nearly impassible, and the superstructure is so decayed that it cannot be repaired without making a new bridge. The undersigned would recommend that the necessary action be had to reconstruct the same.

L. J. WATERS, Street Commissioner.

Referred to the Committee on Streets.

FURTHER FROM THE STREET COMMISSIONER.

Gentlemen,—On the 31 ultimo you ordered Niagara street repaired from the southerly end of the bridge across Scajawala Creek to a point about 40 feet southerly therefrom, at an expense not exceeding \$100, the nature of the damage was such that it was impossible to estimate the exact expense at the time the order was made, and the work could not be delayed until the necessary preliminary proceeding could be had, as the street was in a dangerous condition, and after the work was commenced it could not be suspended, the breach in the street was much larger and more difficult to repair than was anticipated at the time of the undersigned's report on the 15th of March. The repair has been completed in accordance with your direction, with the exception of an increase in the expense of \$96 66-100, making the aggregate expense \$196 66-100, which increase was made by the advice of the Committee on New Territory, and for the reason the work could not be left in an unfinished condition, without subjecting the city to still greater damage, therefore the undersigned recommends that the necessary action be taken to perfect the order by giving the ten days notice of intention to order the work, and that an assessment be made to defray the expense, if it shall be deemed improper to pay the expense from the surplus in the fund created to grade and pave Niagara street.

L. J. WATERS, Street Commissioner.

Referred to the Committee on New Territory.

FROM THE CITY SURVEYOR AND CHAIRMAN OF THE COMMITTEE ON WHARVES, HARBORS AND FERRIES.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

I have previously reported to you the condition of Public School Houses Nos. 5, 10 and 7. I again call the attention of the Council to the necessity of their repair.

In No. 7 the seats are the oldest in use in the city, and narrow and inconvenient. The roof leaks badly and requires new shingles.

In No. 5, the water from the roof is weakening the walls and considerable repairs are needed otherwise.

In No. 10, the fence on the North side of the lot should be rebuilt, and inside blinds substituted for the outside blinds now in use.

I recommend that you instruct the School Committee, and Superintendent, to ascertain the probable expense of these repairs, and to contract, subject to the order of the Council for the necessary work.

Respectfully,

SANFORD B. HUNT.

Superintendent of Schools.

—Filed and subject matter referred to the Committee on Schools.

COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE, }
BUFFALO, May 15, 1861. }

To the Hon. Common Council:

GENTLEMEN: Some time since, His Excellency, the Governor of this State, ordered the 74th Regiment, New York State Militia, to repair to Elmira, there to enter into military service.

For the purpose of uniforming and clothing this regiment, your Honorable Body appropriated seventeen thousand, five hundred dollars, and authorized the Committee having in charge the fund raised for the defence of the Federal Union, to procure and furnish material accordingly.

Acting under this authority, the Committee contracted with parties in New York and here, for the clothing. After entering into contracts and incurring liabilities to a large amount, the order given to the 74th Regiment was countermanded.

The Committee entertaining strong convictions that the 74th Regiment would not be ordered into service, and impressed with the importance and urgent necessity of getting men into the field, as speedily as possible, deemed it eminently their duty to encourage the belief that the first regiment leaving our city should receive the uniforms purchased by the Committee.

The Committee therefore made exertions to dispose of the uniforms to the State, and I am pleased to be able to inform your honorable body that they succeeded in their efforts, having made an arrangement by which the State is to receive the articles purchased, at cost, and with the condition that they shall be transferred to the Buffalo Regiment.

The action of the Committee in this matter has been unanimous, and I am requested by them to ask authori-

ty from you to make the proposed transfer on the conditions above recited.

I beg leave to advise your honorable body to authorize the Committee to make the transfer, of which I heartily approve.

The uniforms have just been finished and part of them are at Elmira, and it is important for the comfort and health of our noble volunteers that action should be taken immediately. I have for this purpose and for the transaction of such other business as you may deem proper, called a special meeting of your honorable body.

Very Respectfully,

F. A. ALBERGER, Mayor.

Ald. Howard offered the following:

Resolved, That the communication of the Mayor be received and filed, and the Joint Committee of the Common Council and of the citizens, to whom the purchase of the uniforms referred to, in said communication, was heretofore referred, be and they are hereby authorized to sell the said uniforms to the State, when received under the contract, or such portions of them as the State shall be willing to receive on such terms as the said Committee shall deem best for the interests of the city. Adopted.

FURTHER FROM THE MAYOR.

MAYOR'S OFFICE, }

To the Hon. Common Council:

I am requested by the Committee having in charge the fund for the defence of the Federal Union, to ask that orders be drawn in favor of S. F. Pratt, Esq., Treasurer of the Committee, to the amount of seven thousand dollars.

Respectfully,

F. A. ALBERGER, Mayor.

Ald. Adams moved that said communication be received and placed on file, and that the subject matter of so much thereof as relates to suit commenced by C. C. Wyckoff be referred to the City Attorney, with directions to defend if in his opinion it is advisable: and that an order for seven thousand dollars be drawn in favor of the Mayor to meet disbursements made by Special Committee on "Fund for Defence of Federal Union." Carried.

On motion of Ald. Dorr, the Common Council then adjourned to meet next Monday afternoon, May 20th, 1861, at 2 o'clock.

The sale of articles above mentioned amount to \$15,127 27, and was made in conformity with the contract entered into with the State by the Committee on the 11th inst. I recommend that you authorize some one to collect said amount, give receipt therefor and deposit proceeds in the Treasury to the credit of the Contingent Fund.

I also report that policies of insurance upon the school property in Districts Nos. 1, 13, 16, 30, and 31, expire on the 15th inst. The District funds are all good, save No. 16. It is recommended that orders be drawn in favor of A. A. Eustaphevie, Secretary, payable out of the local funds, of the respective School Districts, as follows: viz:

Respectfully submitted,

ALONZO TANNER, Comptroller.

Filed and orders directed to be drawn.

FROM THE CITY ATTORNEY.

CITY ATTORNEY'S OFFICE,
BUFFALO, May 18th, 1861.

I hereby report that an action has been commenced against the City by C. C. Wyckoff, to recover \$200 and interest from January 1, 1861, for services rendered as Physician in 1860, this claim with interest and cost amount to \$215 25.

I also report that Michael Cior, as assignee of F. Schekendantz, has recovered a judgment against the City for services at Pest House, which judgment now amount to \$30 80.

I also report that Adam Kern has commenced a suit against the City to recover \$11 for services in removing dead animals from the street in Dec. 1860, which with costs thereon now amount to \$12 12.

These accounts have all been audited and allowed by your Hon. Body at the amounts claimed, and should have been paid out of the General Fund of 1860, Board of Health Department. You directed orders to be drawn on the General Fund of 1861, Board of Health Department, to pay these claims, for the reason that there was no money left in the fund of 1860. Your action was vetoed by his Hon. the Mayor, and consequently the accounts still remain unpaid. There is no defence to the actions, and I therefore recommend that orders be drawn in my favor on the General Fund of 1861, City Attorney and Legal Expense Department, for \$215 25, \$30 80 and \$12 12, with which to pay these claims.

Respectfully submitted,

GEORGE WADSWORTH,

City Attorney.

Referred to Committee on Finance and City Attorney.

FURTHER FROM THE CITY ATTORNEY.

I hereby report that the appeal in the suit of Sally

Hodge against the City of Buffalo, was argued at the February General Term of the Supreme Court, and that the same has been decided in favor of the City. This decision establishes the validity of the assessment for grading and paving Main street, from North street to a point 165 feet north of Ferry street, and also in effect decides suits brought by Sally B. Vandeventer, Jane E. Brown, Aurelia Mann and Anna Maria Eaton, against the City for the same alleged cause of action.

I also report that the appeal in the suit of Anna J. Stow, Executrix, &c., against the City, was argued at the same term, and has been decided in favor of the City. This action was brought to set aside the proceedings for opening De Witt street, and to restrain the City from collecting the assessment made to pay the damages awarded to the persons whose lands were taken for said street.

I also report that the suit of Adam Karn against the City, has been discontinued by the default of the plaintiff. In my communication dated May 13th, I recommended that an order be drawn to pay damages and costs, but as the suit has been discontinued, the City is not now liable for costs. I therefore recommend that an order be drawn on the General Fund, 1861, City Attorney and Legal Expense Department, for \$41, in favor of Adam Karn, in full for services, as specified in my report of the 13th.

Respectfully submitted,
GEORGE WADSWORTH,
 City Attorney.

Referred to the Committee on Finance, together with the City Attorney.

MEMORANDUM.—I have paid to J. Alfred Hayward, late teacher in District No. 28, four dollars and fifty cts., due him on account of sweeping and cleaning. The amount was chargeable to the fund of 1860, and was not included in his pay roll, owing to a misconception on my part. I paid Mr. Hayward on the eve of his departure with the second detachment of volunteers, and have no voucher therefor. I recommend that an order be drawn in my favor on the School Fund of 1860, for four dollars and fifty cents.

FURNISH FROM THE SUPERINTENDENT OF SCHOOLS.

MEMORANDUM.—Mr. A. S. Raze, a teacher of vocal music, wishes to teach that art in the schools. His plan is to give one lesson of one hour, each week, in each of the graded schools of the city, receiving therefor the sum of five cents per month from each scholar who may be inclined to pay that amount. Any scholar may receive the benefit of his instructions without payment, should he or his parents be unwilling to contribute.

This scheme seems to be as unobjectionable as any that can be proposed, but it will require some action of the Council to amend or modify that ordinance which forbids the formation of subscriptions or contributions in the public schools.

FROM THE RECEIVER OF TAXES.

In the Common Council proceedings of 1856, minutes No. 5, page 30, is a resolution offered by Ald. Lockwood, requiring the Receiver of Taxes, whenever a tax roll has been confirmed and placed in his hands, to notify the parties indebted for such tax through the Post-office, stating the amount of each, and when the same is due and payable.

The Post-master has recently given notice that no drop letters will be received and delivered unless they are prepaid. This rule will subject the Receiver of taxes to a heavy tax. I therefore request your Hon. Body to rescind the above quoted resolution, or authorize me to advance the postage, by providing for the payment of the same.

Buffalo, May 20, 1861.

M. WEIDRICH,

Receiver of Taxes.

Referred to Committee on Finance.

The City Clerk reported that the time for the consideration of the assessment roll hereinafter described and for the hearing of parties interested therein, had been fixed for Monday, May 13th, 1861, but as the Council failed to hold a meeting on that day it would be necessary to take some further action in relation thereto, viz:

Assessment Roll No. 2307. For repairing and maintaining the public well and pump at the corner of Sycamore and Pratt streets, amount \$262.

Time for consideration—one week from to-day.

In pursuance of the instructions of your Honorable Body, at a former meeting, I sent a notice to each of the ice dealers in the city, that sealed proposals would be received in this office, to furnish ice for each of the city offices, and the Council Chamber, during the present season. I have received the following proposals:

Wm. I. Williams proposes to furnish ice during the year 1861—\$16 00.

Clark and Waterman proposes to furnish ice from the 15th day of May, to the 15th of October, 1861—\$11 75.

Respectfully yours,

COMMUNICATIONS FROM THE MAYOR.

GENTLEMEN: in accordance with a request made by your honorable body at your last session, I went to Albany and received from the State Fifteen thousand one hundred and twenty-seven dollars and 75 cents, in full for the uniforms and blankets purchased for the 74th Regiment, and sold to the State of New York by the "Joint Committee." The money has been paid into the treasury of the city and placed to the credit of the contingent fund. By the next session of the Council the Committee will be prepared to state the amount of the loss the city will have incurred by reason of the purchase of uniforms, &c.

I return without approval a resolution adopted on the 20th instant, directing an order to be drawn on the "Erroneous Tax Fund" for \$20 69, in favor of A. C. Moore; also, a resolution adopted at the same session directing an order to be drawn on "Tax Loan Fund" for \$12 38, in favor of E. D. Efner.

I learn that both of the persons named in the above resolutions have paid taxes on lands which they were not owners of, and now seek to be reimbursed by the city for the amount paid by them through mistake. Your honorable body also directed the Comptroller to charge back again upon the property the tax thus paid, to take security from Messrs. Efner and Moore to protect the city from eventual loss.

The objections to the course above proposed is, that no action that your honorable body can now take can restore vitality to the tax and create a lien upon the real estate, and there is consequently no remedy by which the city can recover. If the persons whose tax has been paid do not see fit to discharge the moral obligations they are under, the city could not compel them, as the city has by the receipt of the amount of the tax, discharged and surrendered all its claims upon the property. It is eminently just and proper that the parties should look to the owners of the property for the recovery of their money in-

stead of the city, as it has been by no action of the city that they are thus subjected to loss. There are other important objections existing against this procedure, which it is not material to recount at the present time.

At the last session of the Council I presented the names of several persons to be policeman, and among which is the name of Thos. Withers. I intended to have nominated William Withers, and do not know of any person named Thos. Withers.

That the error may be properly corrected, I herewith nominate to your Hon. Body, William Withers, to be policeman, in place of Charles P. Clapp, resigned.

Respectfully,

F. A. ALBERGER, Mayor.

Ald. Howard moved that said communication be received and placed on file, and that the subject matter of so much thereof as relates to uniforms, and to orders directed to be drawn in favor of A. C. Moore, and E. D. Efner, be referred to the Committee on Finance. Carried.

In the execution of your order of May 29th, requiring an estimate for grading and paving Franklin street, 35 feet wide, from the northeast line of Niagara street to the southerly curb line of Chippewa street, I find that the grade of Franklin street, between those points, as established May 24, 1833, is as follows:

Beginning at Chippewa street, one foot below present surface, from thence to Huron street, three feet above surface, from thence to Court street surface, and thence to Niagara street surface.

As there is nothing definite in the above grade, I have made an accurate survey of that portion of the street and submit herewith the following grade which will conform very nearly with the location of the permanent sidewalks as laid, and would respectfully recommend that it be adopted as the grade of Franklin street, between the points above named, commencing at the intersection of the north-easterly line of Niagara street, with the centre line of Franklin street, at an elevation of 29 10-100 feet above the base line of levels. Thence northerly along said center line of Franklin street, rising 0.33 feet per 100 feet to the southerly curb line of Court street. Thence level to the northerly curb line of Court street. Thence rising 0.22 per 100 feet to the southerly curb line of Genesee street, thence rising 0.25 feet per 100 feet to the northerly curb line of Genesee street. Thence rising 0.21 feet per 100 feet to the southerly curb line of Mohawk street. Thence level to the northerly curb line of Mohawk street. GENTLEMEN,—I return, without my approval, a resolution adopted on the 20th inst., directing an order to be drawn in favor of John W. Stewart for \$21, to pay "for Sunday service in giving certificates of death."

The objection to the resolution is based upon the following clause of the Charter, Section 8 of Title 3. "The Common Council shall pay, by way of salary or otherwise, the several persons appointed by it, or elected by virtue of this act, to any office or place, a reasonable compensation for their respective services. Such compensation shall be fixed before the election or appointment of any officer, and shall not be changed during his term." Now any additional sum paid to a city officer, no matter for what purpose, is a change in his salary, and consequently a violation of the Charter. The services performed by Mr. Stewart are necessary and must be done, but it is not a new duty or one created after the appointment of the City Clerk, his deputies and clerks, and it is a duty devolving upon the City Clerk to see performed, and it may well be said that he is paid in part for this particular duty in the payment he receives as Clerk to the Board of Health. The resolution provides for an addition to salary, and I believe is in contravention of the Charter.

Your Honorable Body on the 20th inst., adopted a resolution directing the side walk to be repaired "on southerly side of Clinton street, at the south east corner of Clinton and Emslie street." The objection to the resolution is that it does not describe definitely the points between which the improvement is to be made, leaving it in the discretion of the Street Commissioner to determine the extent of the improvement to be made. I return the resolution without approval that it may be properly amended.

I also return without approval a resolution adopted on the 20th inst., directing the Assessors to assess \$31, for "repairing Perry street, from Hamburg street to a point three hundred feet easterly therefrom." The objection to the order is that it exceeds the account audited

by the Committee, and is for a greater amount than ordered by your Hon. Body.

On the 12th of March, 1860, the Committee Council declared the office of Constable for the Ninth Ward vacant, and on the same day appointed Henry McLane to fill the vacancy. At the last election Mr. Chester Marvell was elected and afterwards resigned before qualifying. Mr. McLane has continued since last year doing business as Constable and claims it as his right until his successor shall be qualified and enter upon his duties. Mr. McLane has given no bail as is customary, nor is any officer authorized to receive bail from him. To afford the usual protection to the public and prevent any difficulties to questions that might arise from this case I advise that your Hon. Body declare the office vacant, permit it to remain so, or elect some proper person to fill said vacancy.

Respectfully,

F. A. ALBERGER, Mayor.

Filed and subject matter referred to the appropriate Committees.

FURTHER FROM THE MAYOR.

GENTLEMEN: The flag owned by the City, and used on the Liberty Pole, has become so much worn as to be useless. I have ascertained that a flag, equal in size to the present one, can be obtained for fifty-seven dollars. I would recommend that you authorize some one to purchase a flag as soon as possible.

I beg to call the attention of your honorable body to the near approach of the 4th of July, and to advise that you initiate movements to celebrate the day, in a manner worthy of the events which occurred on that day, in the year 1776, and which has made its anniversary memorable throughout the world. At no time in the history of our nationality has the importance of a proper remembrance and celebration of the 4th of July, been as manifest as at this time, when "our lives, our fortunes, and our sacred honor," are again pledged to sustain the principles then enunciated. Let us, who remain at home, while our bretheren are in arms, exhibit at least our devotion to the principles they are so nobly struggling to maintain.

Very Respectfully,

F. A. ALBERGER, Mayor.

Laid on the table temporarily.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

GENTLEMEN: On the 6th ultimo you directed two orders to be drawn in my favor, one for \$10 91 on the Ge-

neral Fund 1853 to be deposited to the credit of the fund for sewer and receiver at the northeast corner of Pearl street and the Terrace, and one for \$16 05, same, to be deposited to the credit of fund for grading Fifth street, between Pennsylvania and York streets. This should not be, for the reason that these local funds were created under the new charter, the roll for the first named work having been confirmed January 3, 1855, as will be seen by referring to page 7 of Council proceedings of that year, and the roll for last named work was confirmed September 4, 1851, as seen at page 175 of proceedings of that year. I recommend that deficiency assessments be ordered in these cases, and on the confirmation of the same, the orders mentioned be annulled and new orders be drawn respectively for the above amounts on said local funds.

ALONZO TANNER, Comptroller.

Referred to Committee on Finance.

FROM THE STREET COMMISSIONER.

On the 22nd day of April last the undersigned reported to your honorable body that the bridge across the Ravine on Clinton street, between Bond street and the New York Central Railroad, had fallen down, which obstructed the travel at that point, and in pursuance of what I deemed to be my duty I had taken measures to have it repaired, the bridge has been completed at an expense of \$49 77, and the undersigned further report that at the time the bridge was destroyed the water washed a considerable portion of the pavement and street away at both ends of the bridge, and it was necessary to have the street repaired without delay, therefore he caused the repair to be made at an expense of \$25 15, and the undersigned respectfully ask to have orders passed, authorizing the several works and means provided for paying the expenses.

L. J. WATERS, Street Commissioner.

Referred to Committee on New Territory.

FROM THE CITY SURVEYOR.

In my estimate for grading and paving Franklin street, from the northerly side of Niagara street to the southerly curb line of Chippewa street, at your last meeting I estimated the depth of sand 15 inches, but on examining the petition I find that it asks for only a depth of 12 inches, consequently the excavation amounts to 5 325 1/2 cubic yards, in place of 6 121 cubic yards as reported.

PETER EMSLIE, City Surveyor.

Referred to Committee on Streets.

FURTHER FROM THE CITY SURVEYOR.

In compliance with your order of May 20th, I submit herewith a plan, and the following estimate of the quantities for the construction of a culvert across Clinton St., between Bond street and the New York Central Railroad:

In compliance with your order of May 20th, I submit herewith a plan, and the following estimate of the quantities for the construction of a wooden bridge across a ravine on Elk street, at a point 286 feet east of Dole street:

PETER EMSLIE, City Surveyor.

Referred to Committee on New Territory.

FURTHER FROM THE CITY SURVEYOR.

I have examined Delaware Place, with reference to abating the nuisance of standing water in the cellars of the houses, on the northerly side of the street, and find the only feasible plan for accomplishing it, will be to construct a brick sewer, 2 feet in diameter, in the clear, from the present sewer in Virginia street through Delaware Place, to a point 100 feet west of Delaware street.

I have also carefully examined the nuisance in Wilkeson Slip, caused by its filling up with the filth from the sewer in Jackson street, and in order to abate the same, would recommend that the slip be excavated to the same depth as the Erie Canal for its full width, from the Erie Canal to the west side of Jackson street, and that the slides and end of the slip be secured by a suitable docking.

The slip might otherwise be filled up to a proper level, and the sewer extended to a point 50 feet east of Fourth street, provided the owners would consent thereto.

PETER EMSLIE, City Surveyor.

Referred to Committee on Sanitary Measures.

FURTHER FROM THE CITY SURVEYOR.

In compliance with your order of May 20th, the City Surveyor and the Chairman of the Committee on Wharves, Harbors and Ferries advertised in the city paper for proposals for dredging Buffalo Creek outside the North Pier. Propositions, accompanied by suitable guarantees, were received as follows:

William R Strong, 12 cents per yard.

Thomas Dunbar, 23 cents per yard.

PETER EMSLIE, City Surveyor.

FROM THE SUPERINTENDENT OF SCHOOLS.

In the pay-roll of the last term of the Public Schools, owing to an error in the report of the Principal, Miss Ellen Marla Wirt received one week's pay less than she was entitled to. An order is due her for four dollars and forty four cents (\$4 44), being one week's salary at \$200 per annum. I recommend that an order be drawn, in my favor, for that amount.

SANFORD B. HUNT,

Superintendent of Schools.

Filed and order directed to be drawn.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

I have complied with your order to provide plans for a Primary School building in District No. 15, but the estimates are not yet completed. I suggest that the subject be referred to the School Committee, to report, and I will be prepared to lay all the details before them at their next meeting.

SANFORD B. HUNT.

Superintendent of Schools.

FROM THE CITY ASSESSORS.

The Undersigned, the Board of Assessor's, respectfully represent that they have purchased 1,000 postage stamps for which they paid the sum of ten dollars, that they will require for the month of June about (300) three hundred stamps.

They therefore respectfully ask your honorable body to direct an order to be drawn in favor of the Assessor's for thirteen dollars.

The Board of Assessors would also represent that a sum *not less* than two hundred dollars, will be required for paying extra clerk hire for the month of June, such extra services being necessary to copy the general tax Assessment rolls, for 1861, and ask your honorable body to make an appropriation for that amount and for that purpose.

LORENZ GILLIG,
JOB GORTON,
FAYETTE RUMSEY, } Assessors.

Ald. Howard moved that said communication be received and placed on file, and that an order be drawn as recommended therein, and that the City Assessors be authorized to employ extra help in their office for the purpose of copying the General City Tax Rolls, at an expense not to exceed in the aggregate the sum of \$200. Carried.

FROM THE RECEIVER OF TAXES.

Agreeable to a resolution of your honorable body adopted May 27, 1861. Respectfully,

M. WIEDRICH, Receiver of Taxes.

§ 2. It shall be the duty of every person who shall keep fresh meat for sale, to keep the place at which the same shall be exposed for sale, in a clean and orderly condition; and to keep the street adjacent to such place clean and free from all obstructions; and every person offending against the provisions of this section shall forfeit the sum of ten dollars for each and every offence.

§ 3. No licensed butcher or person shall, directly or indirectly, purchase or cause to be purchased, from any person, any fresh meats, except pork in the hog, offered for sale, within the bounds of the city, before nine o'clock in the forenoon, and re sell the same meats, or any part thereof, at wholesale or retail, except such purchases shall be made between the first of May and the first of November, under the penalty of ten dollars for every offence.

§ 4. No fresh meat, except feet, ears, snouts, spare ribs of hogs, (sold by persons being packers,) and except fish, venison and wild game, and pork in the hog, shall be sold or offered for sale, at any place in said

city, except at the market houses, and at such stalls or stands as are or may hereafter be licensed; and beef shall not be cut at the slaughter house of any butcher, in pieces less than quarters; and all other carcasses shall remain whole, after the same shall be dressed, until delivered at the stall or stand of the butcher or other person selling or offering to sell the same. Any person violating either of the provisions in this section contained, shall, for each offence, forfeit the penalty of twenty-five dollars.

§ 5. The clerk of the market shall provide, at the expense of the city, as often as the same may be required, suitable locks and fastenings, for the public markets and have charge of the keys thereof. He shall cause the market to be opened and closed at such hours as the mayor shall from time to time direct, and meats exposed, or intended to be exposed for sale at the stalls, shall be for that purpose delivered, and exhibited therein, as soon as the market is opened, on each day, or within one hour thereafter; but the clerk may, on the application of any butcher or other person, permit meat to be delivered at any other time of the day.

§ 6. Every person who shall sell, or expose for sale, in this city, any unwholesome, stale, emaciated, blown, stuffed, tainted, bruised, putrid or messy meat, poultry or provisions, shall forfeit the penalty of twenty-five dollars for each and every offence; and the meat, poultry or other provision so exposed, shall without delay, upon the view of the clerk of the market, be by him seized and destroyed.

§ 7. No mutton or lamb shall be sold in the said city until that part of the leg directly below the joint of the knee, be taken therefrom; and no butcher, or other person, shall between the first day of May and the first day of November, bring to any public market or place designated for the sale of meat, any untried fat, commonly called gut fat; nor at any time nor season, the head of any sheep or lamb, unless the same be skinned and properly cleaned; nor any sheep or lamb, in carcass or otherwise, with a trotter or foot thereon; nor any hides or skins, under a penalty of ten dollars for each and every offence.

§ 10. The several clerks of the markets shall receive in lieu of all fees, such compensation as the Common Council shall designate.

by Eagle street to the State Reservation line; thence southeasterly by said Reservation line to Lake Erie; nor shall any person kill or slaughter any beeves, calves, sheep, or other animals within the city, outside the above described limits, unless the house, yard, pen or place, where such killing shall take place, be provided with a tight plank floor, or be paved with brick or stone; if paved with brick or stone, the same shall be laid in water lime cement; said floor to be made sufficiently tight to prevent the earth becoming the receptacle of filth and offensive matter; the floor in every such case shall be made with a descent towards a gutter which shall pass through the same, and leading to a tub or reservoir, which shall be placed to receive the blood and effluvia passing therein, which shall be emptied at the end of each day when killing has been done on the premises, at such place, so that no offensive effluvia shall arise therefrom; whoever shall violate any of the provisions of this section shall forfeit the penalty of twenty-five dollars.

§ 12. Every slaughter-house shall be whitewashed inside at least once in each month between the first day of April and the first day of November; whoever shall violate the provision of this ordinance shall forfeit the penalty of ten dollars.

§ 14. No fresh meats shall be exposed for sale, except in such places as shall be designated by the common council, under the penalty of fifty dollars for each and every offence.

§ 15. The stand or place at which the person obtaining a license is to offer meat for sale, shall be specified in the license, and it shall not be lawful for him or his servants to sell or offer meat for sale at any other place under the penalty of fifty dollars for each and every offence.

§ 16. No fresh meat shall be sold or exposed for sale outside of the public markets and within the market districts, as hereinafter described, under the penalty of one hundred dollars for each offence.

§ 17. It shall be the duty of the clerk of the markets from time to time to visit and examine the several places and premises at which fresh meat is authorized to be sold, and to see that all the ordinances relating to the sale of meat are strictly enforced. It shall be the duty of the clerk of the markets to deposit weekly with the City Treasurer any and all moneys collected or received by him for the markets, or for other purposes; and it shall also be the duty of said clerk to report monthly to this Council a statement in detail, showing the amounts received and from whom, and for rents of stalls, and the amount due and owing for stalls in and outside of the market buildings, and from whom; such report to be made out on the first Monday of each month, and the said clerk shall for the purpose of carrying out this ordinance provide a suitable book or journal at the expense of the city, if he has not already one, in which he shall keep a correct account, showing all the debit and credit balances of all persons holding stalls in the public markets and of all persons from whom collections have been made outside the markets and otherwise.

§ 18. The Common Council hereby fix and prescribe the following districts about the several Public Markets

of the city, to be called the Market districts, said districts to be named after each of the Public Markets, and to be bounded and described about each of the said markets by the circumference of a circle, each circle having for its centre, the centre of each of said markets, and each circle having a diameter of 6,000 feet.

No license shall be granted to sell fresh meats in stands, stalls or stores, located in either of the market districts, other than in the public markets. For each license outside of such market districts, and within the old city limits, Fifteen Dollars. For each license within the new city territory, the sum of Nine Dollars.

IN COMMON COUNCIL,
Buffalo, Monday, June 3d, 1861, }

Absent—Aids. Dorr, Howell, Mills, Pratt, Savage, Scheu, and Walsh.

Ald. Felton rose and addressed the Council as follows:

MR. PRESIDENT:—It becomes a duty to announce to this Council the death of one of the greatest of American statesmen.

A telegram, received this morning, has already announced to the people of this country the death of the Honorable Stephen A. Douglas, a Senator of the United States from the State of Illinois.

Born in the year 1813—shortly after the burning of Washington by the British—of revolutionary ancestry; educated solely through the energy of his own hand; migrating to the then distant West; he was placed in the position of States-Attorney of Illinois at the age of 22 years, and continued to hold offices of trust from the government or the people up to the day of his death; most of the time in the Congress or Senate Chamber of the United States.

Lately, an unsuccessful candidate for the Presidency of the country, he proved the first to offer his hand to his successful competitor, and uttered the first note of warning against the action of traitors.

After extending and upholding the olive branch of peace "until there was no peace," he said "I deprecate war; but, if it must come, I am with my country, and for my country, under all circumstances, and in every contingency;" and from that moment the government has had no firmer supporter, among political friends or foes; and it has looked forward to his help with greater anxiety than to the help of any other statesman.

The loss is not to the government only; it extends to the people; and to-day the whole Union-loving people of the whole country are mourning that loss. While vacating, forever, by the hand of God the Senate Chamber of the nation, his memory and his good deeds will live ever in the history of the patriots of the present epoch of our country.

Ald. Felton then offered the following—

WHEREAS, it has pleased Almighty God to take from this nation, in this, its greatest hour of peril, a Statesman whose name and public services have been watched as a beacon-light of hope, by all faithful pilots of this free and once happy and united people; therefore

Resolved, That this Council has learned with the deepest sensibility and most sincere regret, of the death of the Hon. STEPHEN A. DOUGLAS, a Senator of the United States from the State of Illinois.

Resolved, That, as a mark of respect for the memory of the deceased, this Council hereby direct that this chamber be properly clothed with the usual emblem of mourning for thirty days; and that the flags on each of the public buildings be lowered at half-mast.

Resolved, As a further mark of respect, this Council do now adjourn.

Resolved, That the Mayor of the city be directed to forward to the family of the deceased a copy of these resolutions. Adopted unanimously.

The Common Council then adjourned to meet next Monday afternoon, June 10, 1861, at 2 o'clock.

COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE, }
BUFFALO, June 12, 1861. }

GENTLEMEN,—At the request of a large number of your honorable body, I have called a special meeting, this day, for the purpose of transacting such business as may come before you.

Respectfully,

F. A. ALBERGER, Mayor.

Received and placed on file.

FURTHER FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, June 5th, 1861. }

GENTLEMEN:—On the 20th ult., your honorable body directed an order to be drawn on the School Fund of 1861, in favor of Clapp, Mathews and Waite for \$205, to pay for printing the report of the Superintendent of Schools for the year 1860. On presentation of the transcript of money orders directed to be drawn at the session

of the 20th ult., I disapproved the above order on the transcript, and herewith present my reasons for so doing.

The account presented and allowed by your honorable body bears upon it the following endorsement made by the Auditor, "This bill is correct if allowed at the contract price of 1860, but if that of 1861, is to apply the amount should be \$143 50, only." If the work done is a part of the printing of the year 1860, it should be paid for from the fund of 1860, and therefore the order in that respect would be improperly drawn, it being directed to be drawn on the fund of 1861. If the printing is to be paid for from the fund of 1861, it should be allowed in accordance with the contract price of the present year.

Much difficulty had occurred in relation to city printing, until in 1857, when the Legislature of this State prescribed the manner in which contracts for that purpose should be made, and among other rules determined that the city should invite proposals "for all printing to be done for said city for one year," "which contract shall continue in force for one year from the first of January thereafter." Now in would seem impossible at the close of the year 1859 when the contract was made for the printing of 1860, to bind the city to have done the entire printing for the year 1860, and such other printing that would be required in the year 1861, and which directly or indirectly grow out of the proceedings of the year 1860.

The school year financially commences on the first of January, and the reports of the Superintendents have embraced the operations of the schools for a year beginning on that day. It would seem improper and impossible to order the report of the year printed until the year had expired, and the report submitted to the Common Council. Such evidently is intended by the Charter which reads, "The Common Council shall annually publish a statement of the number of public schools in the said city, the number of pupils instructed therein, the year preceeding."

Now if the doctrine prevails that the contractors are entitled to all the printing that may have reference to the year they have contracted for, no matter when ordered to be done by the Council, the city would be liable to them, if it should at any time thereafter fail to give them such work it may see fit to order, and that the Council of that particular year had neglected or declined to have had done.

But would not the then contractor, who had entered into an agreement with the City, as directed by the City Charter, to do "all printing to be done for said City for

one year," have a claim thereto, and one that could not be evaded, because no liability can accrue against the City for printing, until its Council shall have ordered printing to be done.

In my opinion the contractors are entitled to all the printing the Common Council may order to be done, in the year their contract is made for, and no other.

I return, without approval, a resolution adopted on the 27th ultimo, directing the Comptroller to remit a tax levied on the south corner of Cherry street, west side of Hickory street, 100 feet by 66. This lot has been assessed six different times for sewerage, making the entire tax on the lot fronting and having 66 feet on Cherry St., \$216.36.

It seems that the assessment was larger upon this lot than others, and that the assessment differs somewhat from the usual custom of assessing corner lots, but the doctrine has been well settled, that after the proceedings have been regularly taken, as prescribed by the Charter there is no relief, no power being given to the Council to remit or refund a tax. I find that Mayor Stevens vetoed a similar resolution to the one above described, and returned the resolution to the Common Council on the 26th of April, 1856, on the ground that when the proceedings are regularly taken, and parties interested fail to appear and protect themselves at the proper time, "they are forever cut off from any relief in the premises," and such has been the decision for a number of years.

Respectfully,

F. A. ALBERGER, Mayor.

Ad. Adams moved that the said communication be received and placed on file, and that the subject matter of so much thereof as relates to order directed to be drawn, in favor of Clapp, Matthews, and Waite, be referred to the Committee on Schools, and that the subject matter of the balance of said communication be referred to the Committee on Finance. Carried.

COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, June 20, 1861. }

Of the Hon. Common Council:

GENTLEMEN,—The Charter requires that the Annual Assessment Rolls shall be presented to your Hon. Body, by the Assessors, for the purpose of equalizing the same, and that after such action they shall place them in the hands of the Comptroller on or before the 20th of June.

The Assessors were prepared to present the rolls to your Hon. Body on Monday last, but there was no session held on that day. It being important that the requirements of the Charter should be obeyed in this respect, I have called an extra session of your Hon. Body, to meet this day at 2 o'clock, to transact such business as may come before you.

I herewith enclose an invitation of the German Young Men's Association to your Hon. Body.

Respectfully,

F. A. ALBERGER, Mayor.

The following is the invitation referred to.

BUFFALO, June 15, 1861.

His Honor Mayor Alberger—

DEAR SIR: I am authorized by the German Young Men's Association of this city, to extend to yourself, and the members of the Common Council, a cordial invitation to the "Johannisfest," to take place at Moffatt's Grove, on Monday the 24th inst., under the auspices of the Association.

Very respectfully,

CHARLES TRIESCHMANN,
President.

Ald. Howard moved that the communication from the Mayor be received and placed on file, and that the said invitation be accepted. Carried.

FURTHER FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, June 20, 1861. }

To the Hon. the Common Council:

GENTLEMEN: I return, without approval, the resolutions below mentioned, and which were adopted at the last session of your honorable body.

1st. A resolution directing an order to be drawn on the fund of School District No. 20, to pay insurance on school house of said district.

2d. A resolution directing orders to be drawn in favor of W. Emmons, on the funds of school districts Nos. 6, 8, 10, 14, and 33, to pay for repairs on school houses and appurtenances in the respective districts.

3d. The resolution determining "that the easterly side of Niagara street be repaired, from the southerly end of the bridge across Soajunquada creek, to a point 100 feet southerly therefrom."

4th. A resolution ordering an assessment to pay for the repair last mentioned.

5th. A resolution ordering an assessment to pay for "reconstructing a stone culvert across Steele street, on the easterly side of Main street."

The objection to the first resolution is that there is no money in the fund drawn upon to pay the order. To the second resolution, that the accounts for which the orders were directed to be drawn are not of sufficient magnitude to warrant or authorize the orders to be drawn upon local funds. The question as to the right of the Council to levy assessment for repairs on school-houses has often been discussed by your honorable body, and all the decision that has been made upon the subject was that there was no power to make such assessments, no matter how large the repair may have been, but that such expenditure must be paid from the general school fund.

Among the amendments of the City Charter, made by the Legislature last April, was one which relates to this subject, and reads as follows:

"No expenditures for repairs less than twenty-five dollars shall be a charge upon the district, but the Common Council shall assess the cost of any expenditures larger than twenty-five dollars, upon the taxable property of the district."

In my opinion the intention of this section is to authorize the Council to assess repairs costing twenty-five dollars and upwards, upon the district in which such repairs may be made, but not unless each distinct repair shall involve an expenditure of at least twenty-five dollars, and not as is proposed by the resolutions returned, to pay

from district funds the expense of numerous small repairs which amount to twenty-five dollars or more in the aggregate.

The objection to the third resolution is that the work involves the expenditure of more than fifty dollars, and therefore must be ordered by a two-third vote of your honorable body, which was not done.

To the 4th resolution which orders the assessment to be made to pay for the work ordered in the previous resolution, the objection is that it is questionable whether the proceeding would be correct and regular if the assessment should be ordered before the work itself is determined upon.

To the 5th resolution, that your honorable body adopted two resolutions on the same subject, one of which I have approved on the minutes and have rejected the other.

Very Respectfully,

F. A. ALBERGER, Mayor.

ALL. Howard moved that said communication be received and placed on file, and that the subject matter of so much thereof as relates to schools be referred to the Committee on Schools, and the subject matter of the balance thereof be referred to the Committee on New Territory. Carried.

By unanimous consent the following communication from the Board of Assessors was presented:

BUFFALO, June 20, 1861.

GENTLEMEN,—Herewith the undersigned the Board of Assessors, submit the Assessment Rolls for the General City Tax for 1861, for your approval and for equalization.

Respectfully yours,

LORENZ GILLIG, } Assessors.
JOB GORTON, }
FAYETTE RUMSEY, }

Received and placed on file

Whereupon, ALL. Adams offered the following:

Resolved, That the Assessment Rolls presented to the Council this day by the Assessors for equalization be and the same are hereby declared to be the equalized assessment rolls upon which to levy the General City Tax for the year one thousand eight hundred and sixty-one.—Adopted.

ALL. Beckwith moved that the Council do now adjourn. Carried.

The Common Council then adjourned to meet next Monday afternoon, June 21, 1861, at 2 o'clock.

O. F. PRESBRY, City Clerk.

IN COMMON COUNCIL,

Buffalo, Monday, June 20th, 1861,

At 2 o'clock P. M.

Present—Asaph S. Bonds, Esq., President of the Council, and Aldermen Adams, Allen, Brush, Crowder, Dayton, Felton, Glass, Hanavan, Howard, Jones, Mills, Palmer, Savage, S. Ben, Schwartz, Storek, Wheeler and Yaw.

Absent—Aldermen Beckwith, Dorr, Goebel, Pratt, Russell, Rutter, and Walsh.

The minutes of the last meeting were approved.

COMMUNICATIONS FROM THE MAYOR.

GENTLEMEN—I return without approval two resolutions adopted on the 12th instant, rescinding resolutions passed April 15th, 1861, ordering sidewalk on both sides of Carrol street, between Michigan and Chicago streets.

The objection I have to the repealing of the above named resolutions, is that the work ordered is nearly

complete, and I am informed by the Street Commissioner that such was the case when your honorable body directed the repeal. The expense of the work would become a general fund charge if proceedings should now be rescinded.

Summons was served upon me to appear before Chas. Gardner, Esq., Justice of the Peace, on the 2d inst., to answer to the demand of Adam Kern.

Respectfully, F. A. ALBERGER, Mayor.

File 1, and subject matter so much as relates to sidewalk, referred to the Committee on Side and Cross Walks, and subject matter so much as relates to suit commenced by Adam Kern, referred to the City Attorney, with directions to defend if by him deemed advisable.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER AND CHIEF OF POLICE.

GENTLEMEN,—By the terms of the lease from Hon. E. C. Dibble to the city, of the brick building recently used as Police Station No. 2, situate on Carroll street, the city was bound on surrendering possession of said premises, to surrender the same "in as good condition as when first leased by said city." The city ceased to occupy said premises on the first day of May last, and the necessary notice of surrender was given Judge Dibble, and he refused to accept the same and release the city, unless the terms of the lease should be complied with. In fitting up the new station the gas pipes and fixtures were removed, and used, on the supposition that they belonged to the city. It is now ascertained that they belonged to Mr. Dibble, and the building is really in a very bad condition, it having been occupied for a station since 1854. Mr. Dibble has manifested a commendable spirit of fairness and accommodation, and we have assumed the responsibility of compromising and settling the matter with him, on what we believe to be favorable terms to the city. We have agreed to pay him \$65, in full payment of any and all claims that he may have had, or now has, against the city, under and by virtue of said lease and occupation, and for all damages done the premises, and also in full discharge of all claim for rent. This is certainly just, and should be paid, and we assured Mr. Dibble the order would be drawn this day. We therefore recommend that an order for \$65 be drawn, in favor of Edgar C. Dibble, on the general fund, 1861, Police Department, in full payment of all claim, as stated above.

ALONZO TANNER, Comptroller.

GEO. DRULLMARD, Chief of Police.

Referred to Committee on Police.

The Comptroller also reported the amounts due to several persons for rent of rooms occupied as an office &c., by the Chief of Police, and also the amounts due to the employees in his office for services in the month of June, and recommended that orders be drawn to pay such rent and for such services. Filed and orders directed to be drawn.

JALONZO TANNER, Comptroller.

Filed and orders directed to be drawn.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN—In view of the large amount of tax scrip still owned by the city, of sales prior to that of the first inst., I deem it my duty to call your attention to the fact, to the end that some action may be had for the better protection of the city's interest in the same. Under the resolution adopted by you on the 28th of January last, allowing parties to redeem any and all scrip and leases held by the city, on the payment of the principal and interest at seven per cent, together with the expenses actually incurred, it was hoped the bulk of such scrip would be taken up on the very liberal terms prescribed. Much relief under this resolution has been had, both by the city and the tax payers; and considering the stringency of the times, perhaps as large an amount has been paid as could reasonably have been expected. It will be recollected that at the time I came into this office, there was about \$60,000 principal scrip in the hands of parties for collection, and some of these parties had actual assignments for the same, although the city had not been paid anything on account thereof, and had little or no security for payment or for the return of the scrip.

A great deal of care and attention has been given this matter by the undersigned, in connection with the Mayor, late Auditor, and Chairman of the Finance Committee, and as a consequence, a large amount of scrip has been returned to this office; and I hope, at no distant day, we shall get the whole amount in.

Searches have been made and notices served on much of this scrip, and it seems to me that applications should be at once made to the Council for declarations in favor of the city, on the same, and other searches procured as may from time to time be necessary, and notices serve it. To do this, I think, a competent man should be employed to act under the direction of the Comptroller, to make all applications necessary to your body for declarations, and

to act generally in the premises as any careful, prudent man would were the business his own. My plan would virtually be to establish a separate bureau, connected with this office, with a competent man at its head, who should discharge all the duties that may be prescribed with the advice, and under the direction of the Comptroller. All citizens have a common interest in the prosperity of our city, and once freed from these old sales and incumbrances upon their lands we shall have good reason for supposing that that prosperity will be measurably increased, particularly when it is considered that your legislation is made with a view to keep the taxes down by ordering no local improvements, save where the same are actually necessary, and are called for by a majority of the persons interested. In conclusion, I would recommend that this communication be referred to the Chairman of the Finance Committee, His Honor the Mayor, and the undersigned, with directions to report at an early day to your honorable body a specific plan for the objects named, and that they be empowered to take such action as they may deem best in the premises.

ALONZO TANNER, Comptroller.

Filed and subject matter referred to His Honor the Mayor, the Comptroller, Auditor, and the chairman of the Committee on Finance.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN:—At the annual tax sale held on the 1st inst., and at its several adjournments there was struck off and sold to the city in accordance with and as is provided by section 16 of title 5 of the Revised City Charter, lands upon which the taxes, interests and [expenses amount in the aggregate to \$118,382 97. In this amount is included Roll 1325, for opening Sandusky street \$3,840 29, Roll 1458 for paving Court street \$3,161 14, and Roll 1455 for paving Seventh street \$2,920 27; aggregate on these rolls inclusive of interest and fees is \$9,921-70, which I propose not to include in the Tax Loan Fund. My reasons for not including this amount in the fund at this time for these sales, are that the Roll 1326 was made to pay the awards for lands taken to extend Sandusky street, and the awards are all in favor of the heirs to the Sidway Estate, on which no tender of payment has been made, and before title can be acquired to the lands so taken, payment or tender of payment will have to be made. I do not mean to say by this that the tax is invalid. I have no doubt it is a legal tax and may be enforced. The city has been enjoined from collecting the tax for paving Court and Seventh streets, pending the argument of the cases of Dolan and Lathrop against the City in the Court of Appeals, which cases are by the terms of the orders served on me on the 11th inst., to be submitted on printed arguments at the next term of the Court.

The amount then proper to be provided is \$108,461 27, and the items making this amount are:

For General City Tax, 1860.....	\$24,093 68
Lamp Tax, 1860.....	1,894 43
Water Tax, 1860.....	1,111 55
Local assessment added to general roll.....	79,433 79
Fees.....	1,927 80

Total as above.....\$108,461 27

To provide for this amount pursuant to section 30 of title 5 of the Charter, it will be necessary, in my judg-

ment, to issue bonds on the 1st proximo to the amount of \$50,000, reserving the right to issue a larger amount hereafter, if it shall be deemed necessary in the judgment of the Council. The local assessments for the paving of Niagara, Ninth and Malne streets, included in the above statement, amount to over \$56,000, which, taken from the amount of local assessments added to general city tax, would leave only about \$23,000 for all other local taxes. The Tax Loan Fund has been kept good, the books in this office showing a credit balance on the 1st instant of \$42,089 59, and this amount will be largely increased by the payments or receipts to the credit of said fund for the present month of June. By an amendment of the Charter, passed by the Legislature of 1861, the city, with other parties, will be compelled to enforce the collection of its tax scrip; or apply and take a declaration within five years from the day of sale, for all sales subsequent to the sale of 1860, and if not so collected or steps taken to collect it, it is to be the duty of the Comptroller to cancel all such sales and discharge the same. If this is to remain the law it will become important for the city to take timely action for the collection of its scrip, commencing with that of the recent sale.

In conclusion, I would recommend that a resolution be adopted by you authorizing the issue of bonds to the amount of \$50,000, to apply on payment of the purchases by the city at the late annual tax sale, leaving the remainder of such purchase not yet provided for, to be provided for by a further issue at a future day, should necessity require.

ALONZO TANNER, Comptroller.

Ald. Howard offered the following:

Resolved, That the Mayor and Comptroller be and they are hereby authorized and directed to issue the bonds of the city to the amount of \$50,000 to apply in part payment of the purchases made by the city at the tax sale held June 1st, 1861, such bonds to bear interest at the rate of 7 per cent per annum, payable semi-annually at the Comptroller's office in this city, redeemable in one, two, three, four and five years from their date, July 1st, 1861, in such portions as they may deem advisable; and the Comptroller is hereby authorized and directed to negotiate them at not less than par, the proceeds to be applied in part payment of land so purchased by said city at such tax sale, and that said Comptroller report to whom and at what rates said bonds are disposed of. Adopted.

Ald. Howard then moved that the foregoing communication from the Comptroller be received and placed on file, and that the subject matter of so much thereof as is not disposed of by the above resolution, be referred to the Committee on Finance. Carried.

The Comptroller also reported the amounts which would be due on the first proximo to the Judges of the Superior Court, and to the several city officers for salary for quarter ending June 30th, and recommended that orders be drawn for same, such orders to be delivered on or after the first proximo.

Filed and orders directed to be drawn.

FROM THE CITY ATTORNEY.

I hereby report that I have been served with complain in suit brought by John F. Stafford, by which it appears that the action is brought to recover the amount of certain orders, drawn to pay for the land taken for the con-

struction of the Erie Basin; the amount claimed is \$1,800, with interest from July 11th, 1850.

The Petition asking for the payment of these orders is now in the hands of the Finance Committee, and I understand that a proposition for the settlement of the whole matter has been made by certain parties interested. I therefore recommend that the subject matter of this suit be referred to said Committee.

I also report that the suit of Peter Cramer against the city has been tried before three referees. This suit was brought in 1858, to recover for extra work and materials in building the School House in District No. 19. The amount claimed was something over \$1,000.

After the contract was made, your Hon. Body ordered the construction of a basement under the school house, which was not included in the original plan and contract, and this basement was built by the contractors: other extra work was also done on the building. The city is undoubtedly liable to pay for the construction of the basement, but, in my opinion, is not liable to pay for any other extra work, not ordered by the Council. The Referees have made a report upon this basis, and find that the Plaintiff should recover \$555 57 for the basement, and \$10 for certain repairs done on another school house, by direction of the Superintendent of Schools. I think both of these items are properly allowed, but the Referees have allowed interest on the account from the completion of the work, making the total amount found by them in favor of the plaintiff, the sum of \$712 57, I think this is erroneous. Interest can be recovered on the amount found due only from the time of the presentation of the account, even if it can be from that time.

If no interest had been allowed upon the account, I should have recommended the payment of the amount found due, with the costs of suit, (the costs amount to \$182 69,) but under the circumstances, I deem it proper for me to refer the whole matter to the decision of your Hon. Body.

I also report that the appeal brought by the Plaintiff, in the suit of John W. Clark against the City, has been argued at the general term of the Superior Court, and decided in favor of the city.

GEORGE WADSWORTH,

City Attorney.

Ald. Howard moved that said communication be received and placed on file, and that the subject matter of so much as relates to suit of Stafford be referred to the Mayor, Comptroller, City Attorney, and Committee on Finance, with power to settle, and that the subject matter of so much of said communication as relates to suit of Peter Cramer, be referred to the Committee on Schools. Carried.

FROM THE CITY ATTORNEY AND CHAIRMAN OF THE COMMITTEE ON STREETS.

The undersigned, to whom was referred to make further investigation of the subject of opening Perry street respectfully report:

That they find that in the year 1835, proceedings were taken to take the land to continue Perry street from Michigan street, to the old city line, and that the report of the Commissioners who were appointed to assess the damages and expenses, was duly confirmed in August of that year, that afterwards an assessment was made to pay for opening and working said street, between the

points above named. We have not been able to find the report of the Commissioners, and therefore are not informed as to the exact nature of the report. We further find upon examination and enquiry that said street was actually opened and worked from Michigan street to a point east of Hamburg street, at or near the crossing of the Buffalo and State Line Railroad track, but from that point to the old city line, the street has never been opened or worked, and the parties now in possession, either by themselves, or those from whom they derive title, have been in the actual occupation and possession of the land ever since, and have probably acquired title as against the city, by adverse possession, even if the city ever acquired any interest in the property under the proceedings of 1855.

In 1857 proceedings were had to take the land and property necessary to extend Perry street from its present termination to Dole street. In these proceedings Commissioners were appointed by the Court, who made their report to the Council upon the basis that Perry street then terminated at the old city line, and we are of opinion that by those proceedings, the land and property necessary to extend Perry street from the old city line to Dole street was duly taken. We are further informed and report that those proceedings were consummated by the parties interested of the amounts of the awards in the manner required by law.

We are therefore of opinion that Perry street from Main street to the point where the same was actually opened and worked, at or near the Rail Road crossing, and also from the old city line to Dole street is a legal public highway, but that from the point near the crossing above referred to, to the old city line, it is not a public highway, and that the city has no right or power to open or work said street between these points, until it shall have taken the land and property necessary for that purpose, by due legal proceedings under the Charter.

GEORGE WADSWORTH, City Attorney.

EVERARD PALMER, Ch'n Com. on Streets.

Ald. Palmer, moved, that said communication be received and placed on file.

Ald. Hanovan, moved, as an amendment, that same be referred to the Committee on Streets together with the City Attorney. Lost.

The motion of Ald. Palmer was then carried.

FROM THE STREET COMMISSIONER.

Total amount of iron in superstructure, lbs., 1,242

SOUTH ABUTMENT.

The south abutment will have to be taken up and re-framed, and planked on the front and rear, and will require the following new materials:

Timber, ft B. M., 2,019
Spikes, lbs., 50

NORTH ABUTMENTS.

The north abutment will also have to be taken up, and re-framed and planked on the rear, and part of the face requiring:

New Timber, ft B. M., 1,455
Spikes, lbs., 40

Some protection is absolutely required for the southeast corner of the bridge for which I would recommend the building of a cribwork, 20 feet long and 10 feet high, filled with stone requiring the following quantities of new materials:

Timber, ft B. M., 5,500
Stone, cubic yards, 80

The completion of the repairs as proposed in this report, will, in my opinion, make both the abutments and superstructure perfectly secure for the next ten years.

Yours Respectfully,

PETER EMSLIE, City Surveyor.

Referred to Committee on New Territory.

FURTHER FROM THE CITY SURVEYOR.

In compliance with your order of June 12th, I submit herewith the following estimate of the quantities and cost of the work necessary to excavate Wilkeson Slip from the Erie Canal to the west line of Jackson street, and to build suitable docking on both sides and at the end, as shown by the annexed plan.

The slip is 33 feet wide and 675 feet long, and it will be necessary to excavate 10 feet on each side of it, for the purpose of giving room to secure the banks with a proper crib work.

Earth excavation, 12,913 yds at 15 cents, \$1,936 65
Crib timber, 472,368 B. M. at \$12, 5,668 42
Loose stone in cribs, 2,573 yds at 75 cents, 1,899 75
Iron rag bolts, 19,152 lbs at 7 cents, 1,240 64
Total estimate, \$10,845 70

Respectfully yours,

PETER EMSLIE, City Surveyor.

Referred to Committee on Sanitary Measures, together with the City Attorney.

FURTHER FROM THE CITY SURVEYOR.

In the execution of your order of June 12th, for an estimate of the quantities of work necessary to grade and pave Huron street, I find that the grade of Huron street was established March 20th, 1855, as follows:

Beginning at the adopted grade of Delaware street and extending westerly to Morgan street half foot below the present surface, and falling from Delaware one foot, from thence to the adopted grade of Niagara street.

As the above is very indefinite, I submit herewith the following grade for your consideration.

Beginning at the intersection of the centre line of Huron street, with the west line of Delaware street at an elevation of 31.40 feet above the base line of levels. Thence westerly along said centre line of Huron street, falling 0.67 feet per 100 feet for a distance of 360 feet to the east curb line of Morgan street. Thence level for a distance of 42 feet to the west curb line of Morgan street. Thence falling 1.27 feet per 100 feet for a distance of 197 feet to the east curb line of Ninth street. Thence level for a distance of 42 feet to the west curb line of Ninth street. Thence falling 0.55 feet per 100 feet for a distance of 441 feet to the easterly line of Niagara street at an elevation 22.75 feet above the base line of levels.

The above grade as recommended conforms with the present paving of Delaware, Morgan, Ninth and Niagara streets.

The distance from the west curb line of Morgan street to the New York State Reservation line is 345 feet. Morgan street is paved however to its west line, where it crosses Huron street, which will leave the distance to be paved 333 feet.

The following quantities of work will be required to grade and pave Huron street, 36 feet wide, according to the grade I have recommended:

Earth excavation, cubic yards, 1,404.

Paving, square feet, 12,795.

Curbing, lineal feet, 660.

Crosswalks on north side of Huron across Ninth street, 1.

COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, July 1, 1861. }

GENTLEMEN:—I respectfully beg leave to represent to your honorable body that the release of prisoners from the Penitentiary, and the remission of fines—without proper investigations, is exceedingly detrimental to the public good.

At your last session three persons were released from the Penitentiary, simply upon the presentation of a petition and without any examination as the propriety of so doing. Persons have been released by your honorable body, who are unworthy of the clemency you have shown and in some instances have been returned in less than ten days to new imprisonment, occasioning increased expense to the city, and in a great measure discouraging the efforts of those whose duty it is to arrest and prevent the increase of crime.

In no instance should the pardoning power be exercised unless it meets with the concurrence of the committing Magistrate, or of the officer procuring the conviction. On behalf of the police authorities, I respectfully ask that all petitions asking for release of imprisonment or fines, be referred to proper committees for investigation.

Respectfully,

F. A. ALBERGER, Mayor.

Filed and subject matter referred to the Committee on Police.

PROM THE CITY ATTORNEY.

I hereby report that the appeal in the suit of Edward S. Warren and others against The City of Buffalo has been decided by the Court of Appeals against the City.

This action was brought to recover the amount awarded to the plaintiffs for land taken to widen Niagara street. I have a stipulation that no execution shall be issued on the judgment before next February. No assessment has ever been confirmed to pay this award; two assessments

were made, but they were both annulled. I recommend that you immediately order an assessment for that purpose.

I also report that the appeal in the suit of The City of Buffalo against Orsamus H. Marshall, administrator, &c., of Jonathan Sidway, deceased, has been decided by the Court of Appeals in favor of the City.

I also report that the suits brought by Morris Helmes, Henry V. Soule, Valentine Vogle, and Patrick Lynn against the City have been tried and decided in favor of the City. These suits were brought to recover pay as policemen, from August 19, 1860, to January 4, 1861.

Respectfully submitted,

GEORGE WADSWORTH,
City Attorney.

GENTLEMEN:—The State of New York is now constructing a bridge across the Main and Hamburg Street Canal, on Louisiana street, and one of the abutments is to be in front of the mouth of the sewer in Louisiana street. The sewer must be extended about fifteen or twenty feet. Therefore, I recommend that an order be passed authorizing the extension of the sewer and connecting it with the abutment. The contractor for the bridge is now building the abutment, and the sewer can be extended through the same at this time with much less trouble and expense than after the bridge is completed. The expense will probably be about \$25.

L. J. WATERS, Street Commissioner.

Ald. Howard offered the following as a substitute for the report offered by Ald. Palmer, and the amendment offered by Ald. Felton :

Whereas, the present unhappy condition of our country has brought upon all its business interests and pursuits, a most unprecedented prostration and depression, to a

great extent depriving almost all classes in the entire land of their usual means and resources of living and defraying ordinarily accruing pecuniary obligations.

Whereas, also, our State Legislature having properly taken action to raise a large amount of money, imperatively demanded by the present exigencies of the country, to be raised by a direct tax upon the people, which will increase the ordinary burden of taxation, upon this and all the communities of the State. And

Whereas, also, it is expected that the Congress of the nation, soon to be convened, will, from a necessity, which the people will cheerfully respond to, take measures to raise money which will largely add to those already heavy burdens of taxation; therefore

Resolved, That at the present time it is not wise or judicious for this Council, unnecessarily to add to the burdens of taxation upon this city, already very onerous and soon to be made more so by causes beyond our control, by entering upon or undertaking local improvements not imperatively demanded by the health of the city, a proper regard for the preservation of existing works, or legitimate wants of the active business interests of our city.

Resolved, That the ordering of local improvements which contribute merely to the comfort or convenience of a few at the expense of property but illy able to bear the burdens of such improvements should not be made, and this Council hereby declare its determination to withhold the ordering of local improvements not, in their judgment, imperatively demanded, by the considerations named in the foregoing resolution, until such time as our city shall see some relief from some of the heavy taxation now imposed and to be imposed on them, by causes beyond the control of this Council.

Resolved, That the grading and paving of Franklin street, for reasons alluded to herein, should not be ordered at the present time.

Ald. Palmer moved to refer the whole subject back to the Committee on Streets.

Ald. Beckwith raised a point of order, that as the petition asking for said improvement also asks that the work be awarded to a certain party, at a stated sum, the Council had no right to act upon such petition.

The Chair decided that the point of order was not well taken.

The motion of Ald. Palmer to refer back was then lost.

Ald. Felton was called to the Chair.

Ald. Bemis moved to amend the substitute offered by Ald. Howard by adding thereto the following:—

“Nor will the Council order any improvement except on the application of a majority of the persons liable to be taxed for the improvement asked.”

Ald. Howard accepted the amendment.

The question was then taken on the adoption of the substitute offered by Ald. Howard as amended by the motion of Ald. Bemis, and the same was lost. Ayes 10; noes 12.

Ald. Howard then moved the adoption of the substitute as originally presented by him.

Ald. Bemis raised the point of order, that the substitute had already been voted upon and could not be renewed.

The Chair decided that the point of order was well taken.

Ald. Howard appealed from the decision of the Chair. The decision of the Chair was sustained. Ayes 16; noes 5.

Ald. Beckwith moved to lay the whole subject on the table. Lost. Ayes 9. Noes 13.

Ald. Bemis then moved that the whole subject be postponed until the next meeting of the Council, to be taken up under order of Reports from Committee on Streets. Carried. Ayes 12. Noes 10.

COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, July 6, 1861. }

To the Hon. Common Council:

GENTLEMEN: I herewith return, without approval, a resolution adopted on the 1st inst., directing an order to be drawn on the fund for well at the corner of Exchange and Washington streets, for \$7 77, the same to be deposited to credit of fund for sewer and receiver at northwest corner of Exchange and Washington streets.

It seems, by the report of the Finance Committee, that the order directed to be drawn is intended to repair a deficiency in the fund for sewer and receiver, occasioned by an error of the then Treasurer, who charged an order drawn on the fund for the well above noted to the fund for sewer and receiver, thus preventing the payment of an order drawn on the fund for sewer and receiver, and on which order interest has accrued by reason of the error to the amount of \$7 77, and which it is now proposed to pay from the well fund.

The Charter provides that "if on any assessment more money than is necessary for the purpose shall be raised, the excess shall be credited to the future repairs and maintenance of the improvement." The order, therefore, is illegal.

Your Honorable Body directed an order to be drawn, on the 1st inst, to pay O. J. Green, clerk, &c., for searches, on the City Attorney and Legal Expense Department. I have not approved of the same, and I recommend that an order be drawn, to pay said account, on the Tax Loan fund, as the expense of the searches will be reimbursed to said Tax Loan fund.

A resolution was adopted at your last session authorizing me to issue a "pedlar's license to sell dry goods" in the city. I cannot learn that any such licenses have ever been issued, nor licenses to peddle goods of any kind. I respectfully beg to call your attention particularly to this subject, as I am under the impression the resolution was

adopted without proper consideration. I very much doubt the propriety of making so radical a change in the manner of doing business in the city as the resolution would seem to imply that such was the intention of your honorable body. I have withheld the licenses, and await further advisement.

I enclose herewith the report of the Chief of Police for the quarter ending June 30th.

I have been served with a summons to appear before Charles Gardner, Justice of the Peace, on the 15th inst., to answer to the demand of Joseph Churchyard and Jacob Bensingler.

The Committee having in charge the fund for the defence of the Federal Union present herewith a statement of account in relation to the purchase of uniforms, &c., purchased for the Seventy-fourth Regiment, and sold to the State of New York. The total of such expenditures amount to fifteen thousand eight hundred twenty-seven 93-100 dollars (\$15,827 93). The Committee have received from the Common Council to apply on this amount as follows: Orders drawn April 29th for \$1652 75, \$48 and \$20; on the 20th of May, \$13,016 57, and \$577 50—In all \$15,315 12, leaving a balance due the Committee of \$512 81, for which they ask an order to be drawn in their favor.

The total of disbursements on this account as before stated is \$15,827 93. The amount received from the State of New York, including premium on check payable in Albany, was \$15,158, making a loss to the contingent fund of \$669 93.

While the Committee regret even this small loss, they take pleasure in being able to state to your honorable body that the 21st Regiment, which received the uniforms, was the best clothed regiment which has left Elmira.

I recommend that the request of the Committee be complied with, and that an order be drawn in their favor, as requested.

Very Respectfully,

F. A. ALBERGER, Mayor.

Filed and subject matter of so much as relates to order directed to be drawn on fund for well, corner of Exchange and Washington streets, and order directed to be drawn in favor of O. J. Green, referred to Committee on Finance; of so much as relates to license to peddle dry goods referred to the Committee on License; of so much as relates to report of Chief of Police, referred to Committee on Police; of so much as relates to suit commenced by J. Churchyard and J. Bensingler, referred to the City Attorney with power to defend,—and an order directed

to be drawn in favor of F. A. Alberger, Chairman of the Committee on defence of Federal Union, for the amount recommended:

FROM THE CITY ATTORNEY.

I hereby report that I have examined the matters referred to me in regard to Marilla street, and am of opinion that the assessment for opening said street was illegal, that the tax sales founded upon such illegal assessment are void, and confer no rights upon the owners of such scrip, and that said street is not a "legally laid out street."

The following are my reasons for such conclusions: It appears that the Commissioners of Highways of the town of Black Rock, in the year 1853, did attempt to lay out and establish said street, under the authority of the general statutes of the State, the street ran through wild lands, and the statutes at that time made no provision for compensation to the owners of such lands for the property taken to lay out the street, it has since been decided that the statute was unconstitutional, because it did not make such provision. No compensation was in fact made to the owners of the land taken for the street in question, and in a suit brought by such owners, or some of them, against the contractors who opened the road, for a trespass, it was decided by the Superior Court that premises in question were not a public highway. That suit was defended by the city, and I have no doubt of the correctness of the decision.

The Street not being a public highway, it follows of course, that an assessment for opening and working it as such, would be illegal, because the city has no power to make such improvements upon private property, but is limited in its action to actual highways, and if the assessment is illegal, then any sales based upon such assessment would also be illegal, for the same reasons.

The only way to make Marilla street a public highway, is to take the necessary proceedings under the Charter, to take and appropriate the property for that purpose, and pay the amount of the compensation awarded to the owners.

I do not think that any action of your honorable body can now legalize the assessment in question. The remaining question as to whether or not the city is legally liable to refund to the purchaser the amount paid by him for the tax scrip, is a much more difficult one. I have not yet been able to satisfy myself on this point; if the city is to stand upon its strict legal rights, and put out of sight all considerations of policy and effect upon the credit of its tax sales, I cannot advise you now that the city is legally bound to refund this money, nor can I say absolutely that it is not; the question is one concerning which there may be an honest difference of opinion, and I can see much difficulty in supporting either view. I have not been able to find any decision which covers the point, and in the absence of express authority I do not feel authorized to advise you that the city is liable, until the courts decide the question.

GEORGE WADSWORTH, City Attorney.

Filed and subject matter referred to Committee on Finance together with the City Attorney.

FROM THE STREET COMMISSIONER.

GENTLEMEN:—The undersigned beg leave to call your attention to the condition of Michigan street, between Dodge and North Hampton streets, the carriageway is

impassable by reason of numerous holes, so deep, as to render it dangerous for vehicles, causing serious damage to that kind of property, and in justice to those whose business makes it necessary to pass that way, some action should be taken to repair the street, forthwith, and also, that the filling may be packed before the fall rains; therefore, I recommend that an order be passed to repair the carriageway by filling the holes with gravel or bricks. An opportunity is offered for obtaining gravel that I consider more advantageous than may hereafter be offered for years, the expense will be about \$40.

L. J. WATERS, Street Commissioner.

The Chair decided the amendment offered by Ald. Howard out of order.

The motion of Ald. Howard to refer said report back to the Committee on Wharves, Harbors, and Ferries, with instructions to report rules and regulations for the government of a Ferry across Niagara river was then carried.

of the persons liable to be taxed for the improvement of grading and paving Franklin street between Niagara and Chippewa streets; and

WHEREAS, this Council declared its intention on May 20th to grade and pave said street as aforesaid, and published notice of said intention May 22d, 1861, as required by the Charter; and

WHEREAS, a necessity is represented to exist for the said improvement, therefore

Resolved, That it is hereby ordered by the Common Council of the city of Buffalo that Franklin street be graded, and a carriageway paved therein, thirty-eight (38) feet wide, and a curbing set on both sides of said carriageway, from the northeast line of Niagara street to the curb line on the southerly side of Chippewa street, and that crosswalks be constructed across said Franklin street, on both sides of all streets crossing Franklin street between the above named points.

Hanovan raised the point of order, that as the Council had at its last meeting, taken action on the subject referred to in said resolution, and refused to order said improvement, and the subject matter thereby having gone out of the Council, the same could not be again taken up, unless with the consent of two-thirds of the members of the Council.

The President decided that as a petition had been presented, and was under consideration, in relation to the subject, such subject was necessarily before the Council, and therefore the point of order raised by Ald. Hanovan was not well taken.

CHAPTER IX.

OF MARKETS AND SALE OF MEATS, ETC.

Section 1. It shall not be lawful for any person to sell, or offer or expose for sale, in the City of Buffalo, any fresh meat outside of the public markets, who shall not have obtained a license so to do, under a penalty of twenty-five dollars for each and every offence.

§ 2. It shall be the duty of every person who shall keep fresh meat for sale, to keep the place at which the same shall be exposed for sale, in a clean and orderly condition; and to keep the street adjacent to such place clean and free from all obstructions; and every person offending against the provisions of this section shall forfeit the sum of ten dollars for each and every offence.

§ 3. No fresh meat, except offals of hogs, consisting of feet, ears, snouts, spare ribs (sold by persons being packers,) and except fish, venison and wild game, and pork in the hog, shall be sold or offered for sale, at any place in said city, except at the market houses, and at such stalls or stands as are or may hereafter be licensed; and beef shall not be cut at the slaughter house of any butcher, in pieces less than quarters; and all other carcasses shall remain whole, after the same shall be dressed, until delivered at the stall or stand of the butcher or other person selling or offering to sell the same. The clerk of the market shall provide, at the expense of the city, as often as the same may be required, suitable locks and fastenings, for the public markets and have charge of the keys thereof. He shall cause the market to be opened and closed at such hours as the mayor shall from time to time direct, and meats exposed, or intended to be exposed for sale at the stalls, shall be for that purpose delivered, and exhibited therein, as soon as the market is opened, on each day, or within one hour thereafter; but the clerk may, on the application of any butcher or other person, permit meat to be delivered at any other time of the day.

§ 5. Every person who shall sell, or expose for sale, in this city, any unwholesome, stale, emaciated, blown, stuffed, tainted, bruised, putrid or measly meat, poultry or provisions, shall forfeit the penalty of twenty-five dollars for each and every offence; and the meat, poultry or other provision so exposed, shall without delay, upon the view of the clerk of the market, be by him seized and destroyed.

§ 25. COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE,
Buffalo, July 22, 1861. }

To the Hon. Common Council:

GENTLEMEN,—I have been served with summons to appear before C. A. Waldron, Esq., Justice of the Peace, on the 26th inst., to answer to the demand of Francis J. Pattison.

I enclose herewith an invitation from the "Liedertafel," to attend their festival in Moffat's Grove on Thursday next.

F. A. ALBERGER, Mayor.

Received and placed on file, and City Attorney directed to defend suit commenced by F. J. Pattison, and the invitation from the "Liedertafel" accepted.

The following is the said invitation.

To His Honor Mayor Alberger,

SIR:—I have the honor to invite you and the members of the Common Council in the name of the Liedertafel, to attend their festival in Moffat's Grove, on Thursday, July 25th. Yours most respectfully,

A. ROSE, Secretary.

Buffalo, July 20th, 1861.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER

GENTLEMEN:—In compliance with the resolution adopted by you on the 8th inst., the special loan bonds of the city have been issued to the amount of \$56,000 with 7 per cent. interest coupons attached, payable semi-annually at the office of Messrs. Duncan, Sherman & Co., in the city of New York, principal in one, two, three, four and five years, and the same after having been advertised in accordance with the directions contained in said resolution, have been taken at their par value by parties in this city as follows:

Gibson T. Williams.....	\$21,000
John M. Hutchinson.....	21,000
Buffalo Savings Banks.....	20,000
Erie County Savings Bank.....	10,000
Buffalo Trust Co.....	13,000
George R. Babcock.....	1 000

Total.....\$86,000

Which amount including the accrued interest thereon, has been realized and deposited with the City Treasurer to the credit of the tax loan fund.

The amount to be drawn upon this fund for the purpose of paying for lands struck off to the city at the recent sale is \$113,540 68, and is to be applied as follows:

To the payment of the General City Tax, 1860,	\$24,093 68
To the payment of the General Lamp Tax, 1860,	1,594 42
To the payment of the General Water Tax, 1860,	1,111 58
To the payment of the Local Assessments added to General Tax, 1860,	\$4,488 00
Fees.....	1,553 00

Total ... \$113,540 68

I recommend that an order be drawn in my favor for the above amount, \$113,540 68, payable out of the Tax Loan Fund, for the purpose of reimbursing the several funds named and included in the above statement, the amount of taxes, &c., for which such lands were sold.

I also report that the bill of Messrs. Duncan, Sherman & Co., for advertising the sale of said bonds in the *World* and *Times* three days is \$8 00, and would also recommend that an order for this amount be drawn in my favor on the tax loan fund with which to pay the same. In this connection it may be proper to say that no bids were obtained from parties outside of this city for said bonds, owing probably to the large amount of securities already in and soon to be in market, our bonds being offered only at a rate not less than par. The result, however, speaks well for the credit of the city, and is alike creditable to our savings institutions and to the sagacity and ability of capitalists, particularly Messrs. Williams and Hutchinson, who were the first to step forward and take any amount, and would have taken a much larger amount, and perhaps the whole \$56,000 at par had not other parties named manifested a desire for a part.

I would also recommend that you pass a resolution requiring all holders of orders made good by the recent sale, issuing of bonds, &c., to present them at the City

Treasury for payment, and that interest thereon will be stopped on the 1st day of August, 1861.

Respectfully submitted,

ALONZO TANNER, Comptroller.

I concur in the recommendation last above stated.

JOHN S. TROWBRIDGE, Treasurer.

Filed and orders directed to be drawn as recommended, and subject matter of the balance of said communication laid upon the table for the present.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN:—I respectfully report that the following named sums will be required to pay interest on City Bonds falling due on the first and second proximo:

On \$800, 7 per cent bonds issued October 1st, 1851, payable on the first proximo at Albany,	\$250 00.
On \$32,000, 6 per cent bonds issued August 1st, 1853, payable on the first proximo at the city of New York,	960 00
On \$62,000, 7 per cent bonds issued February 21, 1857, payable on the second proximo at New York,	2,170 00
On \$20,000, 7 per cent bonds issued August 2d, 1857, payable on the second proximo at New York,	700 00
Commission to Duncan Sherman & Co., $\frac{1}{4}$ per cent,	9 58
Premium on draft at $\frac{1}{2}$ per cent,	20 60
Total,	\$4,140 18

I recommend that orders be drawn in my favor upon the General Fund, 1861, estimates for interest on the funded debt, for the above amount for the payment of such interest.

I also report there will be due James G. Turner \$31 25, August 1st, for one quarters rent Police Station No. 2, and to Frederick Kull Guardian, on same day, \$25, rent for Police Station No. 4, and it is recommended that orders be drawn in their favor respectively, on the General Fund, 1861, Police Department in full payment thereof,

ALONZO TANNER, Comptroller.

Filed and orders directed to be drawn as recommended, the orders for rent of Police Stations not to be delivered until on or after the 1st of August.

FROM THE CITY SURVEYOR.

In compliance with your order of June 31, 1861, I have carefully examined the lands lying easterly of Delaware street and northerly of Spring street, with reference to abating the nuisance caused by surface water and the want of proper sewerage.

In my opinion the only practicable plan for accomplishing this desirable object will be the construction of a receiving sewer from Main street to Scajaquada Creek, on the following grade and dimensions, and passing through the following named streets to Scajaquada Creek:

Commencing at the intersection of the easterly line of main street, with the centre line of Best street, at an elevation of 60.00 feet above the base line of levels, thence easterly along the centre of Best street, falling 0.20 feet per 100 feet to the centre of Michigan street, a distance of 1,500 feet, thence continuing falling on the same grade northerly through Michigan street, to the centre of Ferry street, a distance of 4.151 feet, thence continuing falling on the same grade; westerly through Ferry street, to the centre of Linwood avenue, a distance of 1,210 feet, thence continuing falling on the same grade northerly through

Linwood avenue, to the centre of Bouck avenue, a distance of 1,959 feet, thence continuing falling on the same grade, westerly through Bouck avenue, to the centre of Delaware street, a distance of 630 feet, thence northerly along the centre of Delaware street, falling on the same grade for a distance of 1,490 feet to an elevation of 35.00 ft. above the base line of levels; thence continuing northerly along the centre line of Delaware street, falling 1.25 feet per 100 feet, for a distance of 2,000 feet to an elevation of 13.00 feet above the base line of levels, thence continuing northerly along the said centre line of Delaware street, falling 2.40 feet per 100 feet for a distance of 792 feet to Scajaquada Creek, at an elevation of 6 feet below the base line of levels.

I would recommend that the dimensions of the several portions of the proposed sewer be as follows:

Through Best street 3 ft., diameter in the clear.....	1.500ft.
Michigan street 3 1/2 ft., diameter in the clear.....	4.151
Ferry street 4ft., diameter in the clear.....	1.210
Linwood & Bouck streets 4 1/2 ft., diameter.....	2.649
Delaware street 5ft., diameter in the clear.....	4.252

Total length of proposed sewer.....13 792ft.

ESTIMATED COST OF SEWER.

1,500 L F. 3ft sewer, average cut \$ 20 at \$1 71..	\$ 2,565 00
4,151 " 3 1/2 " " " 7.80 at \$1 90..	7,556 99
1,210 " 4ft " " " 10.90 at \$2 30..	2,758 00
2,649 " 4 1/2 " " " 12.60 at \$2 66..	7,046 34
4,252 " 5ft " " " 10.30 at \$2 72..	11,647 04

Total estimated cost.....\$31,925 25

Total length 13,792 feet, averages per foot \$2 31 1/2 cents. I have estimated the walls of the sewer 8 inches thick, except where it turns the corners of the streets, where they will be 12 inches thick throughout the length of the curve.

The annexed map and profile show the line and grade of the sewer.

Yours Respectfully,
 PETER EMSLIE, City Surveyor.

Referred to the Committee on New Territory.

FURTHER FROM THE CITY SURVEYOR.

In compliance with your order, I submit the following grade for Delavan Avenue, from Main street to Delaware street, as follows:

Commencing at the intersection of the westerly line of Main street with the centre line of Delavan Avenue, at an elevation of 45.20 feet above the base line of levels; thence westerly along said centre line of Delavan Avenue, rising 2.40 feet per 100 feet for a distance of 2.0 feet; thence rising 0.70 feet per 100 feet for a distance of 200 feet; thence falling 0.50 feet per 100 feet for a distance of 250 feet; thence falling 2.62 feet per 100 feet for a distance of 300 feet; thence falling 0.51 feet per 100 feet for a distance of 718 feet; thence rising 2.05 feet per 100 feet for a distance of 482 feet; thence rising 0.50 feet per 100 feet for a distance of 446 1/2 feet to the east line of Delaware street, at an elevation of 53.21 feet above the base line of levels, as shown by the annexed profile.

COMMUNICATIONS FROM THE MAYOR.
MAYOR'S OFFICE, }
Buffalo, Aug. 6, 1861. }

To the Hon. Common Council:

GENTLEMEN: I return without my approval a resolution adopted on the 29th inst., directing a stone sidewalk to be constructed on the southerly side of Tracy street, at an expense not to exceed \$200.

I learn that the cost of the work will exceed one hundred dollars, and you are prohibited from doing work of that character, unless you advertise for proposals for the improvement. Such is the purport of an amendment made to the charter last winter.

I also return without approval a resolution directing a stone sidewalk to be constructed on Amherst street, in front of Market Square.

The objection above noted applies to this work, but there is a mode devised by which public grounds in the new territory can be improved, and which must in this instance be complied with, or the assessment made to pay the work would be worthless. The Charter provides that for the improvement of any public square or area in the new territory, "or otherwise improve the sidewalks about the same," by a vote of two-thirds of the members elected, and may cause one-fourth of the expense to be assessed upon the blocks adjoining such square or area," "the balance thereof to be assessed upon the lands within a district surrounding said grounds the boundaries of which shall be fixed and described by the Common Council and who shall direct the Assessors to assess the same upon the lands so bounded and described."

Respectfully,

F. A. ALBERGER, Mayor.

Filed, and subject matter of so much as relates to sidewalk on Tracy street referred to Committee on Side and Crosswalks, and subject matter of the balance of said communication laid on the table for the present.

The President of said Company was accordingly notified on the 13th ultimo, and the 20 days has expired and the bridge still remains as formerly. The right of the city to forcibly remove said bridge has long been considered a legal question, and before proceeding further in the execution of your order, the undersigned deemed it proper to take legal advice in the matter, and has good reason to believe that he may be made personally liable and subject to great damage should he remove the bridge, as it will in all probability be contested; therefore, he asks your honorable body to take such action as will protect him from loss or damage by reason of executing your or-

der in the premises, and make the city responsible for the defence in an action.

FROM THE SUPERINTENDENT OF SCHOOLS

BUFFALO, August 5th, 1861.

The following balances remain on the Treasurer's books, to the credit of the School Library Fund of the years named:

1856.....	\$73 49
1857.....	6 19
1858.....	55 12

Total.....\$185 20

The fund for 1859 is overdrawn to the amount of \$82 49.

I suggest that the Comptroller be directed to transfer from the funds of 1856, 1857 and 1858, as much as may be necessary to balance the deficit in the funds of 1859, and that the remainder, with any balance that may remain from 1860, be placed to the credit of the School Library Fund for 1861. I am not aware that there are now any outstanding claims against the Library Fund of 1860, and believe that there are none.

SANFORD B. HUNT,

Superintendent of Schools.

Referred to the Committee on Schools.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

BUFFALO, Aug. 5th, 1861.

I have to report that the wall of Public School No. 29, on the east side near the rear, has settled so much that the window frames are bent, and the windows and blinds will not open. I think it unsafe, and expect that it will fall during the winter, if not reconstructed.

The window sash of this building is nearly all of it dilapidated, the rabbits being broken away in many places,

and the putty good for nothing. These sashes are worthless, and new should be substituted.

The privileges of No. 20 are also altogether insufficient for so large a school. They should be extended so as to afford room.

I suggest that your honorable body take the proper action on these wants.

SANFORD B. HUNT,
Superintendent of Schools.

Referred to the Committee on Schools.

FROM THE CITY ASSESSORS.

FURTHER FROM THE FIRE MARSHAL.

BUFFALO, Aug. 5th, 1861.

GENTLEMEN—In reply to an advertisement for proposals to build three hose carts, I received bids from the following named persons, which with the plans, &c., are herewith submitted:—Richard Exelby, William Barker, Thomas B. French.

I would also respectfully report, that after the expiration of the time mentioned in the advertisement for re-

ceiving proposals, I received two from H. S. Chamberlain and one from Joseph Zahm, which are also herewith submitted.

D. KISSOCK, Fire Marshal.

The City Clerk reported the amount due to the porters of the city buildings for services in July.

Filed and orders directed to be drawn.

The City Clerk also reported the following accounts as having been audited by the Board of Health at its last meeting, and by them referred to the Council with a request that orders be drawn for the payment of the same:

John Elliott, for services as Health Inspector for July—\$46 50.

George J. Rhemhardt, for services as Health Inspector for July—\$46 50. Filed and orders directed to be drawn.

Also, that the following account was presented and audited by the Board:

Wm. H. Peobody, for stimulants and medicines for patients in Pest House—\$34 12.

Also, that the following nuisance was reported to the Board and by them referred to the Council:

Lot on east side of Ohio street 15x75 feet front by 75 feet deep, 117½ feet southeasterly from Mackanaw street, assessed to Hannah Casey. Nuisance consists of hog pens in a filthy condition. Board recommend the same to be abated forthwith. Referred to Committee on Sanitary Measures.

The City Clerk also reported that at a meeting of the Board of Health, held August 10th, 1861, the following accounts were presented and by them audited and referred to the Council, that provisions be made for their payment:

William Miller, for board, medicines, &c., for patients in Pest House—\$76 04.

Same, for services as keeper of Pest House, for the month of July, 1861—\$18 29. Referred to the Committee on Sanitary Measures.

The City Clerk also reported that at the same meeting of the Board of Health, the following nuisance was referred to the Common Council with a recommendation that the same be abated as hereinafter mentioned, viz:

Lot on the corner of Clinton and Raze streets, 40 94-100 feet front on Clinton street southerly side, corner of Raze street, and 13 37-100 feet rear by 90 61 100 feet in depth on Raze street, said lot supposed to belong to Mann & Lord. Nuisance consists of standing water. Recommend to abate by filling forthwith. Referred to Committee on Sanitary Measures.

FURTHER FROM THE CITY CLERK.

GENTLEMEN:—At the last meeting of your honorable body, you passed the following resolution:

Resolved, That the City Clerk cause 750 copies of the revised City Charter to be printed; also, 1000 copies of the ordinances as enacted by this Council; and that he cause 150 copies of the charter and ordinances to be bound in extra Morocco binding, 350 copies in half sheep, 250 copies of the charter bound by itself in paper, also 500 copies of the ordinance in paper, and that the same be done under the contract for doing the binding for the city; and that the said Clerk cause the index to the said charter and ordinances to be properly revised.

On examination of the Comptroller's estimates, I find no provision was made for binding the city charter.

The estimate for reprinting the city charter and ordinances is only \$360, which is scarcely enough to print the charter alone. The bid for printing, which was accepted by the city, is at the rate of \$1.50 per page. The printing of the charter alone will cost at least \$400, and the ordinance will cost not far from \$310. Several items of printing are overestimated, so that I have no doubt the Common Council Department Fund will be sufficient to pay the expense of printing both the charter and ordinances; but I have deemed it prudent to depart from the instructions of the resolution aforesaid, and print but 750 copies of the ordinances, and not have either the charter or the ordinances bound except in pamphlet form, leaving the next Council to provide the means and order the binding of the balance of the copies.

Respectfully yours,

O. F. PRESBREY, City Clerk.

Filed, and action of Clerk approved.

The City Clerk also reported that the time for the further consideration of, and the hearing of parties interested in the following described assessment rolls, viz :

No. 2376—For the purpose of paying the just compensation awarded to the person or persons owning or having an interest in the land and property taken to lay out Carlton street, from the easterly line of Main street to the northwesterly line of Genesee street, together with the costs and expenses of the ascertainment—amount, \$3,573 67 ;

No. 2397—For repairing and maintaining the public well and pump at the corner of Sycamore and Pratt streets—amount, \$262; had been postponed until Monday, August 5th, 1861, but in consequence of the failure of the Common Council to meet on that day, it would be necessary to take some further action in the matter.

Ald. Howard moved that the time for the consideration of, and hearing of parties interested in Roll No. 2376 be fixed for the first Monday of September next. Carried.

Ald. Jones moved that the time for the consideration of, and hearing of parties interested in roll No. 2397, be fixed for the first Monday of September next. Carried.

Adopted.

The City Clerk also reported that the time for the consideration of assessment roll No. 2393, for widening, straightening and enlarging Buffalo creek, at the toll bridge on Ohio street, by excavating a channel on the northerly side of said creek, amount \$5,935 00—had been postponed until Monday August 5th, 1861, but in consequence of the failure of the Common Council to meet on that day, it would be necessary to fix some future day for the consideration of the said roll.

Ald. Howard moved that the time for the consideration of said roll No. 2393 be fixed for the second Monday of September next. Carried.

REPORTS OF COMMITTEES.

The following report presented to the Council at its former meeting held this day, and laid upon the table, was taken up:

The special committee to whom was referred the subject matter of fixing the salaries to be paid to the several city officers who are to be elected at the next general election, would respectfully report:

That your committee have had the subject under consideration, and have given it much attention.

The committee have assumed as a basis governing their actions and conclusions upon this subject—that it is now, and ever has been, the open policy of the present administration of the city government, from the date of its advent into power, to use its best endeavors to reduce the high rate of taxation in our city, which prevailed for a series of years prior to the coming of the present power, and establish in lieu thereof, if possible, a standard rate, equivalent to the benefits derived, and commensurate with the ability and willingness of our citizens to pay therefor. And believing that the adherence of the Council to such policy for the past two years, has produced unmistakable results, beneficial to the interests of those of our citizens who bear the burden of expense for the support of the government. And further believing

that in view of the present national disturbances, and of the prospective increase of taxation consequent thereon, an over-liberal rate of salary in the civil service should not be allowed at this time, if, for no other reason, that it operates as an incentive to *patriotic men* desiring to serve their country in some capacity, to prefer the civil service to that of the military.

Your Committee are further of the opinion and belief that the present rate of salaries paid to the city officers, is greater than should be allowed for the services rendered therefor; and this being the proper time to make the necessary reduction, if any, and believing that a still further reduction can be made in the salaries of the several city officers to be elected at the next general election, and that capable and trustworthy persons will be found ready and willing to serve the city, at the rates hereinafter proposed. Your Committee would recommend that the rates of compensation per annum, by way of salary or otherwise, to be allowed and paid to the several city officers, to be elected at the next general election, be fixed as follows, to wit:

	Salary per annum.
Mayor.....	\$1,500
Comptroller.....	1,100
Street Commissioner.....	1,000
Superintendent of Schools.....	800
Receiver of Taxes.....	1,000
City Surveyor.....	800
City Treasurer.....	1,100
City Assessor.....	1,000
City Attorney.....	800
City Overseer of Poor.....	750

Your Committee therefore offer the following resolution, and recommend its adoption:

Resolved, That the compensation to be paid by the City of Buffalo, by way of salary or otherwise, to the several city officers above named, to be elected at the next general election, be, and the same is hereby fixed and determined by the Common Council of said city, at and after the rates per annum above set forth, for each office respectively, and in proportion thereto for the whole or a part of the official term, and any person accepting an office above specified, shall be deemed to accept the salary affixed thereto, as above specified, in full for all services rendered to the city, while in said office, and in proportion thereto for any part of the term.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

COMPTROLLER'S OFFICE,
Buffalo, Aug. 19, 1861.

To the Hon. the Common Council:

GENTLEMEN:—I herewith in compliance with the requirements of the Revised City Charter, "Section thirty-two, of Title five," and the by-laws and ordinances of said city, submit the annual statement of receipts and expenditures of the City for the year ending December 31st, 1860.

This statement is presented in schedules, marked from A to S inclusive, showing in detail the expenses of the several departments of the city government, each under its appropriate head, in which it has been my aim to embody all information necessary to understand the history of the fiscal year, the pecuniary resources and liabilities of the city and the condition of every general and all local funds from 1854 inclusive.

GENERAL FUND.

This fund created by tax levied annually upon all taxable property of the city, the income from markets, fees, interest on unpaid taxes, money on deposit, licenses, penalties, etc., is appropriated to defray the contingent expenses of the city.

Schedule A is a statement from the Treasurer's books, showing the amount received and payment made in and from that department on account of the General Fund, during the year ending December 31st, 1860, from which it will be seen that the balance in the Treasury on that day was \$25,961 99.

Schedule B is a statement of the several amounts drawn against the General Fund of 1859, during the year 1860.

Schedule C is a statement showing the appropriations for the several departments for the year 1860, and the expenditures and receipts thereof. And Schedule D is a statement of such expenditures in detail. In Schedule C credits are given as follows:

To Comptroller's Department, for office fees collected on returned taxes and assessments, and for interest on returned city taxes—\$8,777 04.

To Treasurer's Department, for interest received from Banks of deposit—\$5,570 30.

To Receiver of Taxes Department, for additions returned on General Tax 1859, and additions collected on General Tax of 1860—\$5,356 65.

To Police Department, for fines collected at Police Station houses—\$1,618 00.

To Market Department, for Market rents—\$4,291 39.

As the great burden of which our tax-paying citizens have complained is *taxation*, it may not be deemed inappropriate to give here a brief table showing the total amount of appropriations, amount raised by direct tax, and amount expended in each year since 1854, that those interested may see at a glance that the financial affairs of the city are certainly not on the retrograde, as regarding taxation and expenditures:

Year.	Amount appropriated.	Amount raised by tax	Am't of expenditures.
1854	\$322,155 00	\$322,155 00	\$279,585 68
1855	370,480 00	278,550 00	301,213 32
1856	420,413 00	310,900 00	317,475 56
1857	442,650 00	297,825 00	345,834 47
1858	437,627 25	293,717 25	364,904 48
1859	296,069 00	239,419 90	304,793 33
1860	326,151 24	255,073 60	302,443 18
1861	263,151 98	205,901 98	

The expenses of the several departments of the city government have been largely decreased since the close of the year 1858, and I am of the opinion that each department is being economically managed; and notwithstanding the liberal, just, and patriotic appropriation for the defence of the Federal Union, the expenditures for the year 1861, inclusive of what may be expended for this laudable object, will not much exceed the appropriations for this year.

Schedule E is a statement of the School Library and General Fund Treasury warrants outstanding December 31st, 1860, amounting to \$120,215 24.

Schedule F is a statement of interest paid on bonds and temporary loans during the year 1860, amounting to \$49,608 43.

Schedule G is a statement of the principal paid on bonds and temporary loans during the year 1860, amounting to \$50,872 59.

Schedule H is a statement of the liabilities and resources of the city, viz:

Liabilities.....	\$657,215 24
Resources.....	131,464 36

Amount of liabilities over resources.. \$525,750 88

It is a gratifying reflection that our city is probably as free from debt as any city of proportionate size in the Union, and yet the thought is saddened at the fact, that were it not for the wild extravagant market policy heretofore inaugurated in the purchase of lands and the building of markets thereon, coupled with the aid extended by the city to the Brantford Rail Road, the entire indebtedness of the city would not exceed one half of the above named sum. The people voted the Brantford Road \$150,000 and the city authorities only carried such expense will by issuing the bonds, but the authorities then in power should have stopped without issuing bonds to the amount of \$175,000 for markets that will not be needed by the present age.

Schedule I is a statement of the property belonging to the city with the Assessors Valuation, amounting to \$655,135 00.

Schedule J shows the amount of local assessments levied during the year 1860 and the debit or credit balance of each assessment. Total amount levied \$64,669 50.

These figures show a decided determination on the part of your Honorable Body to retrench in this class of expenditures. If it be sound doctrine that the wishes of a majority are to be granted when they ask for local improvements for which they, and those directly benefitted only are to be taxed—the question may well be asked, does not the present embarrassments of our citizens, resulting from the general prostration of business, the depreciation in the value of real estate and its unproductiveness, all combine to demand that the rule should so far be varied, that all such improvements should be ordered and made with the greatest care and scrutiny, and in cases only where the imperative necessities of the case demands the same and the wants of the people cannot be otherwise satisfied.

The amount of local assessments levied during the year 1854 was \$112,629 01; in 1855 \$150,123 44, inclusive of \$11,251 07 levied under the old charter; in 1856, \$251,912 72; 1857, \$323,028 43; 1858, \$125,500 96; 1859, \$233,815 79; and in 1860, \$64,669 50, as above stated; and it is supposed that the amount of such assessments for the year 1861 will fall far short of the last named sum; and I have no doubt that at the next annual tax sale the gross amount of taxes for which lands will be struck off to the city will be comparatively small as compared with any year since 1854, and will not probably exceed \$40,000.

Schedule K shows the state of the several local funds, on account of work ordered between January 1st, 1854, and December 1st, 1859.

Schedule L shows the condition of balance account on the Comptroller's and Treasurer's books on the 30th day of June, 1861. This account consists of all the balances of the local rolls, about 2,200 in number, assessed prior to the year 1854, consolidated by order of the Common Council, in pursuance of section 28 of an act of the Legislature, passed April 17th, 1857, amendatory of the city

charter. The credit balance on the books in this office is \$76,455 24, while on the Treasurer's books it is only \$4,682 15; and the reason for this discrepancy obviously is the large amount of uncollected taxes on said roll, and the payment of the money into the treasury, while this office has given credit on the return of the rolls. This has been a work of much magnitude, requiring great care and labor, and was ordered by the Common Council on the recommendation of the undersigned shortly after he assumed the duties of this department. It will be found not only convenient but invaluable as a record in this and the Treasurer's office.

Schedule M shows the amount of local tax certificates held by the City, the amount due from Collectors, and the Real Estate, &c., taken on account of local taxes assessed prior to January, 1854, with the Assessors' valuation.

Schedule N shows the amount of local fund treasury warrants outstanding December 31st, 1860, amounting to \$156,258 49.

Schedule O shows the amount of temporary bonds issued for local purposes, including those issued to pay the city bids at the annual tax sales.

Schedules P and Q show the condition of the tax loan and trust funds.

Schedules R and S contain the Assessors' valuation of taxable property in the several Wards of the city, and of the school property belonging to the several school districts.

Respectfully submitted,

ALONZO TANNER, Comptroller.

Ald. Howard moved that same be received and filed, and that the subject matter thereof be referred to the Committee on Finance. Carried.

BUFFALO, August 19th, 1861.

In compliance with your order of August 12th, I submit herewith a profile and grade of a sewer from the centre of Amherst street, through Tonawanda and Parish streets, to a point near the easterly curb line of Niagara street:

Commencing at the intersection of the centre line of Amherst street with the centre line of Tonawanda street, at an elevation of 10 feet above the base line of levels, thence southerly, falling 0.25 feet per 100 feet along said centre line of Tonawanda street, to the centre line of Parish street, a distance of 287 feet; thence southwesterly along the said centre line of Parish St., falling 0.25 feet per 100 feet for a distance of 513 feet; thence continuing along said centre line of Parish street, falling 0.33 feet per 100 feet, to a point 25 feet west of the easterly line of Niagara street, at an elevation of 4.66 feet above the base line of levels, and connecting with the sewer already constructed from said point to the Erie Canal.

I can find no evidence of the existence of rock within the limits of the proposed sewer.

The total length is 1,884 feet.

The average depth of excavation is 10.50 feet.

PETER EMSLIE, City Surveyor.

Referred to the Committee on New Territory.

FURTHER FROM THE CITY SURVEYOR.

BUFFALO, August 19, 1861.

In compliance with your order of the 12th inst., I have taken the soundings in Buffalo Creek as directed, and submit herewith a map showing the depth of water from the Lighthouse to South street, at the ordinary low stage thereof. In consequence of the lateness of the season, in my opinion, but little dredging will actually require to be done this fall.

To remove the bar just north of the west end of the Lighthouse Pier, so as to give 13 feet of water will require about 4,000 cubic yards of dredging, which is all that I would recommend to be done outside of the North Pier. Inside of the North Pier and on the northerly side of the creek, from the foot of Washington street to the canal slip between Hanover and Floyd streets, a distance of 1,200 feet, and from 25 to 50 feet in width, will require the removal of about 4000 cubic yards also, to give 12 feet of water, and is all I would recommend to be done inside the North Pier this season.

Much dredging has been done by private individuals and companies the present season.

The New York Central Railroad Company having removed about 6,000 yards from their water front, and probably as much more has been dredged by individuals,

For more particular information as to the condition of the whole harbor, I refer you to the accompanying map.

PETER EMSLIE, City Surveyor.

Referred to the Committee on Wharves, Harbors and Ferries.

FROM THE FIRE MARSHAL, CITY CLERK AND AUDITOR.

The undersigned having been directed by a resolution of your honorable body to advertise for sealed proposals to furnish coal for the various city offices, and the Fire Department for one year, from the 1st day of September, 1861, beg leave to report:

That, pursuant to said resolution, your committee have advertised for and received proposals from various parties, both for soft and hard coal.

Your committee find that the contract made last year to furnish a supply of coal for the various departments, does not expire until the 27th day of next September; while by the resolution of your body, we were directed to contract for a supply for one year, from the 1st of September. You committee have received two bids for soft coal—of the same price and being directed by the resolution to contract with the lowest bidder—we have thought best to refer the whole matter to the Council, and ask for further instructions.

COMMUNICATIONS FROM THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, August 26th, 1861. }

To the Hon. the Common Council:

GENTLEMEN: I return without approval six resolutions, adopted on the 12th instant, directing as many orders to be drawn in favor of the Comptroller for the purpose of purchasing or redeeming certificates of tax sales bought by Walter Carey, Esq. Four orders are directed to be drawn on the General Fund of 1860, and two upon a School District Fund.

The city holds certificates of tax sales made prior to those proposed to be purchased, and as notices to redeem has been served upon the Comptroller, the amounts must be paid or the city's interest therein lost.

I heartily approve of some action of this character being taken, but I have disapproved of the resolutions because, in my opinion, your Honorable Body proposes a misapplication of funds. The balances of 1860, supposed to remain in the treasury after discharging all contingent liabilities of the year, have been transferred to and become a part of the revenues of 1861—there is no doubt

but that the amount so appropriated is larger than the actual balance in hand, and these orders would increase the deficit. This procedure would be improper and violate much of the efforts made by your Honorable Body to establish such a financial system as dictated by the charter.

No measures should be proposed that would occasion complications or permit any fund to be unable to discharge the obligations properly chargeable upon it. It is proposed to draw two orders upon a school district fund. There is neither authority or precedent to warrant such an application of local funds, raised for an entirely different purpose.

Another important objection exists, that no system has been devised or determined upon for collecting taxes under which declarations of sales have been obtained, and the result has been that taxes have been permitted to accumulate until they nearly reach the value of the lands, and the city sustaining much loss. These tax sales date back to —, and no effort has been made to compel their payment. This statement in itself is sufficient to demonstrate the urgent necessity existing for the organization of measures to promptly collect unpaid taxes of this character.

Much embarrassment has existed the present year for want of a contingent fund to pay claims of this character and many others which have and will arise. The necessity of such a fund is greater now than at any time since 1854. Your Hon. Body having determined among other important and proper financial reforms, that each year should have its financial records and the accounts thereof be closed at the expiration of the succeeding year. Under former management large balances had remained in each year from which was paid claims that might arise. For the present emergency there can be no impropriety in borrowing from the general fund of 1863 the necessary amount, to be reimbursed to said fund when collected.

I also return, without my approval, a resolution directing the Treasurer to pay to F. G. Pattison interest on general fund order of —.

Your Hon. Body determined that the interest on general fund orders from 1854 to 1859, should cease on the 1st day of January, 1861, and directed the Treasurer to give public notice of your action. Mr. Pattison was then a city officer and should have known what the proceedings of the Common Council were, and should then have obtained payment on his order. I approved of the action of the Council in this respect, and can see no reason why it should be revoked.

Summons was served upon me to appear before Charles Gardner, Esq., Justice of the Peace, on the 26th instant, to answer to the demand of Geo. Hinson, The City Attorney in the absence of direction from your Hon. Body appeared on behalf of the city and obtained an adjournment. Respectfully,

F. A. ALBERGER, Mayor.

Received and filed, and so much thereof as relates to the suit of George Hinson, referred to the City Attorney with instructions to defend; and the balance referred to the Committee on Finance.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

GENTLEMEN: On the 15th inst., there will become due six months interest on \$31,000 6 per cent bonds issued December 31, 1853, for the purchase of the Central School property, said interest payable at this office. It is recommended that an order for \$930 be drawn on the General Fund 1861 estimate for interest on the funded debt in my favor with which to pay such interest.

There is due James F. Chard, Deputy Comptroller, \$66 66; James Inglis, book-keeper, \$58 83; William H. Slade, Louis L. Trowbridge and W. H. Brooks, each \$45, being salary for the month of August, and I recommend that orders be drawn in their favor respectively for the above amounts on the General Fund 1861 Comptroller's Department, in full payment of such salary.

I also report that I have demanded of S. Scheu Esq., late Receiver, the amount of taxes, interest and expenses on two scrips as directed by the report of the Finance Committee adopted on the 12th ultimo, and he refused to pay the same, but proposed to pay the amount he collected and interest at the rate of 7 per cent thereon.

I also report that an order for \$1 88, drawn on the 12th ult. in favor of David Walker, Jr., has been withheld by me for the reason that the same does not correctly specify the street on which the work was done. This order is directed to be drawn on the Special Local Fund for repairing crosswalk across Fourteenth street, on northwest side of Vermont street. It should be, for repairing crosswalk across Fourteenth street on northwest side of York street, and I would recommend an order to be drawn accordingly, and the report of the Committee on Side and Crosswalks adopted on said 12th day of August be amended in this respect, so that "York" be inserted in place of "Vermont."

Respectfully Submitted,

ALONZO TANNER, Comptroller.

Filed and order directed to be drawn to pay interest as recommended, and so much of such communication as relates to order drawn in favor of David Walker, Jr., laid on the table temporarily, and the subject matter of the balance referred to the Committee on Finance.

FROM THE CITY ATTORNEY.

Buffalo, Aug. 26, 1861.

I hereby report that on the 1st inst., Francis G. Pattison recovered a judgment against the City, before C. A. Waldron, Esq., for \$71 75 damages, and \$2 92 costs, for services rendered as a Commissioner of Deeds, in taking affidavits of publication and services of notices of assessments. I am of opinion that the judgment is correct

and therefore recommend that your Hon. Body provide for the payment of said judgment. It is properly chargeable upon the General Fund, Assessors Department

Respectfully submitted,
GEORGE WADSWORTH, City Attorney.

Referred to Committee on Finance.

FROM THE STREET COMMISSIONER.

GENTLEMEN—On the 6th of last May you passed a resolution directing the sidewalk on the northerly side of Fulton street, between Chicago street and Ohio Basin Slip, repaired at an expense not exceeding \$25. On examination I find the walk in a very bad condition, and the repairs cannot be made for a much less sum than \$50—and as no portion of it has been repaired under your order, and as it is necessary the walk should be repaired, I recommend that the limited expense be increased to \$75.

L. J. WATERS, Street Commissioner.

Referred to Committee on Side and Cross Walks.

The Street Commissioner also reported the amounts due the employees in his office, and to the keeper of the Court House Park, for services in the month of August, and recommended that orders be drawn for the same.

Filed, and orders directed to be drawn.

FURTHER FROM THE STREET COMMISSIONER.

On the 21st ult., the bridge across the Evans Ship Canal, on Erie street, was broken down by a drove of cattle passing over it, and on the succeeding day the undersigned caused it to be repaired and made strong, as before the accident, at an expense of \$43 34. On the next Thursday (29th) the bridge was again broken by another drove of cattle, and on the 30th he again caused the bridge to be repaired, at an additional expense of \$103 30, by request of some of the principal taxpayers on said Canal. Some iron rods were added in the last repair, increasing the expense about \$57, making the aggregate expense of both repairs \$146 64; and the undersigned asks that provisions be made for the payment of said expense, and he respectfully reports that none of the city bridges are safe in cases of large droves of cattle being hurried over in great numbers, and recommends that one or more policemen be detailed to prevent driving cattle over bridges in large bodies, and that an ordinance be passed, with sufficient penalties against more than a certain number being passed over at one time, and not allowing the cattle to be stopped while passing over.

L. J. WATERS,

Street Commissioner.

Referred to the Committee on Streets.

FURTHER FROM THE STREET COMMISSIONER.

On the 22d day of July, 1861, you passed a resolution authorizing the Street Commissioner "to extend the main receiving sewer in Louisiana street through and connect the same with the abutments for the bridge across the Main and Hamburg Street Canal, at an expense not exceeding \$50." On examination, the undersigned finds that for a distance of about 50 feet northerly from the Canal the old sewer consists of a wood box, and paying the street over such a sewer would be bad policy; and taking up the wood sewer and substituting brick would increase the expense beyond the limit of your order passed on the 22d of July, therefore the undersigned recommends that the amount limited for extending said

sewer be increased to \$100, which will be sufficient to construct a brick sewer in place of the wood and make the necessary connections with and through the abutments, and as the work cannot be finished until the sewer is extended, I recommend immediate action.

L. J. WATERS, Street Commissioner.

Referred to the Committee on Sewers.

FURTHER FROM THE STREET COMMISSIONER.

SANFORD B. HUNT.

Superintendent of Schools.

Referred to Committee on Schools.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

During the late vacation, and just previous to an absence from the city, on examining the premises of School District No. 32, I found the inside walls needing considerable repairs, and deciding that papering would be the cheapest and most permanent, I consulted the Chairman of the School Committee and received his assurance that in his opinion the Council would justify me in ordering the work. I accordingly contracted with Elder & Stearns, who have performed the work. This is the first meeting held by the Council since my return, and I respectfully request that my action in this case be approved by the Council.

By this expenditure the premises of No. 32 will be put in perfect repair, and will need but little for several years to come. I have not ascertained the exact cost, but it will be in the neighborhood of ninety dollars, chargeable to Local Fund. There is a credit balance in the Local Fund of School District No. 32 of \$5,204 21.

The chair appointed as such Committee Ald. Adams, Grass and Storck.

Ald. Howard, from the Committee on Finance, offered the following:

The Committee on Finance beg leave to report, that the time limited by a resolution passed by the Council on the 25th day of January, 1861, allowing to tax payers whose lands had been sold to the city, and where the certificates of sale were held by the city to redeem their lands by the payment of a less rate of interest than the charter allowed the city to charge, expired on the 1st day of September, 1861, and that by said resolution the Comptroller after that date was authorized to sell tax certificates to third parties at the amount thereof, and ten per cent. interest and expenses, which authority was countermanded by a resolution passed at the last meeting of this Council. The object and design of the action referred to on the part of the Council were to extend to the tax-payers of the city all the lenity and relief, consistent with a proper regard to the credit of the city, in the payment of their taxes which the pressure of the times had rendered them unable to pay, anticipating that within the time limited by said resolution, returning prosperity to the country would relieve them from the necessity of any further need of aid or relief, but subsequent events have placed our community in a worse rather than a better condition, and more in need of similar relief, if possible, than at any other time, your Committee would therefore recommend an extension of the time for making such redemptions.

That the Comptroller be directed to publish notice in the city paper and in the Buffalo Telegraph, that all tax payers whose lands have been sold to the city, where the certificates of such sales are held and owned by the city, may redeem their lands, so sold, by paying into the city treasury at any time, before the first day of January, 1862, the amount for which such lands were sold, and interest thereon, at 7 per cent., and all expenses incurred by the city in relation thereto and properly chargeable thereon; provided that any and every tax payer, desiring so to redeem his lands, shall pay all the tax rolls which the city shall hold on any such lands, and that on all such sales which shall remain unredeemed, on the 31st day of

Dec., 1861, said Comptroller be directed to add one per cent. interest in addition to said 7 per cent. for every month thereafter, until the amount of interest to be charged thereon shall reach 10 per cent.

That the Comptroller be and he is hereby authorized to sell to any person who shall be willing to take the same, and to the city reassure the amount of such sale and interest at 10 per cent., and the expense incurred by the city, all tax sales which shall remain unredeemed for one month after such rate of interest shall reach 10 per cent., provided any person desiring to make such purchase shall take all sales and declarations of sale which the city shall hold on any particular lot.

That the authority conferred upon the Comptroller to allow redemption from tax sales held by the city, shall also extend to a sale of any declaration of sale which the city may hold on any lots, but that the assignee in addition to the expenses already incurred by the city, the Comptroller be directed to charge fifty cents for the assignment and the expense of the acknowledgment thereof.

Resolved, That the Comptroller be, and he is hereby forbidden to make any sale of any certificate of tax sale now held by the city, unless the full amount thereof including the full rate of interest allowed by law, and all expenses incurred by the city shall be first paid into the City Treasury, and unless also the purchaser shall also take all such certificates and declarations of sale which the city shall have on the same lot, except in accordance with the foregoing resolutions, and as hereinafter provided, to wit: Whenever the owner of any lot of land, or other person entitled to redeem the same, shall be unable to pay to the city the amount necessary to redeem such lot from such sales, shall present a request in writing to the Comptroller, and file the same in his office asking to have such certificates assigned to some person named in such request, and shall also accompany such request with affidavit showing his interest in the premises in question, if the said Comptroller shall be satisfied therefrom that such person is entitled to redeem such lands from such sale, and that such request is made in good faith and not with intent to obtain any undue advantage over the real owner, he shall be authorized to assign such certificates, as requested, upon payment into the City Treasury by the assignee of the same, which, at the payment thereof, would be required under these resolutions, of the applicant to redeem the same lands. Adopted. Ayes, Alc, Adams, Allen, Bemis, Brush, Crowder, Dayton, Felton, Goebel, Grass, Hanovao, Howard, Mills, Palmer, Rutter, Scheu, Storck, Swartz, Wheeler, and Yaw.—19; Noes, 0.

FROM THE SUPERINTENDENT OF SCHOOLS.

SCHOOL DEPARTMENT, }
Buffalo, Sept. 16, 1861. }

To the Hon. the Common Council:

The revision of the School Ordinances and their change in some important particulars, renders it necessary that a new edition thereof should be printed. The ordinances require that each teacher should be provided with one or more copies, and the demand for them is also considerable from other sources. It has been usual to print a separate edition for these purposes, and I recommend that an edition of at least 2,000 copies should be ordered printed for the use of this Department.

Respectfully,

SANFORD B. HUNT, Sup't of Schools.

N. B. Expense \$90.00.

COMMUNICATIONS FROM HIS HONOR THE MAYOR.

MAYOR'S OFFICE, }
Buffalo, Sept. 30, 1861. }

To the Hon. the Common Council of the City of Buffalo:—

GENTLEMEN: I am requested by the Union Defence Committee to ask that an order be drawn in their favor for five thousand dollars.

I beg to recommend that their request be complied with. Respectfully,

F. A. ALBERGER, Mayor.

Ald. Howard moved that such communication be received and placed on file, and that an order be drawn in favor of His Honor the Mayor, as chairman of such committee, for the amount recommended. Carried.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

COMPTROLLER'S OFFICE, }
Buffalo, Sept. 30, 1861. }

To the Hon. Common Council:

GENTLEMEN:—On the 23d inst., you directed two orders to be drawn, one in favor of Fred. Scheifer, for \$6 08, on the Local Improvement Fund, and one for 16 30 in favor of John Wannop, on Local Fund, for well on north side of South Division street, between Spring and Jefferson streets, for repairing public well and receiver on north side of South Division street, between Spring and Jefferson streets. These orders I have withheld for the reason that the order first mentioned is improperly drawn for constructing plank crosswalk across Hickory street on northerly side of Jefferson street, when it should be for crosswalk across Hickory street on northerly side of Genessee street. You should direct a new order to be drawn and direct this one to be cancelled. The fund on which the order secondly named is drawn, is good for only \$9 69, and I would recommend that you order an assessment for this fund.

I again call your attention to the fact that some scrips should be taken to dispose of or collect the old tax scrips, held by the city, principally those scrips on lands on the south side of Buffalo Creek. The assessment ordered and confirmed March 6th, 1849, for lands taken for Ship Canal south side Buffalo Creek, amounting to \$3,684 54, and for the Ship Canal south side of the Buffalo Creek, from north line of outer lot 36 to north line of outer lot 43, confirmed May 19th, 1849, for \$64,585 50, and for the Ship Canal south side of Buffalo Creek, from outer lot 43 to outer lot 50 on south channel, confirmed March 22d, 1850, for \$76,660 50, and also for Ship Canal through outer lot 40, confirmed Dec. 21st, 1852, for \$32,170 95. The consolidated Treasurers credit, balance on the three funds, first, secondly and thirdly, above named, is only \$347 31, and on the last named fund is only \$136 82. The consolidated credit balance on said three funds appears much larger on the books in this office, balance being \$16,572 52, and on the last named fund is \$449 54. The explanation of the discrepancy is the non-payment of all the assessments. The city still owns scrip, known as Ship Canal scrip, to the amount of about \$6,000 exclusive of interest. Something may be realized to the city on this and other old scrip if same be properly attended to. I would recommend that this matter be referred to His Honor the Mayor, Comptroller, Auditor and Chairman of the Finance Committee, with power to make such disposition of said scrip as shall seem to them to be for the best interest of the city.

Respectfully submitted.

ALONZO TANNER, Comptroller

Ald. Howard moved that such communication be received and place on file, and that the subject matter of the same be referred as recommended. Carried.

FROM THE STREET COMMISSIONER.

OFFICE OF THE STREET COMMISSIONER, }

To the Hon. the Common Council:

GENTLEMEN—The undersigned have to report the destruction and damage of sundry bridges, by the sudden rise of water, by reason of the late rain storm, on the 26th and 27th instant, he has examined most of the locations, and finds as follows:

Bridge on Mineral Spring street, about 50 rods north-east from the Aurora Plank Road, has been carried a considerable distance from the road.

Bridge across Cazenovia Creek, on the road leading from the Aurora Plank Road to Martin's corners, is damaged so that it cannot be crossed, the street, at both ends of the bridge, is washed away, and should be repaired forthwith to prevent further damage.

Bridge across Cazenovia Creek on Cazenovia Road is carried away, and most of the materials lodged in a meadow, about $\frac{1}{4}$ mile below, the iron, joist and plank should be secured at once.

Bridge across Smith street, on the northerly side of the White's corners Plank Road, is also carried away.

The plank on the Abbott Road, between the New York & Erie Railroad and Elk street, is also carried away.

Bridge across the Ravine on the Williamsville Road, about 200 feet southerly from Clinton street, is removed from the roadway and cannot be crossed.

The bridge across Cazenovia Creek on Cazenovia Road has been ordered repaired, and the contract awarded to A. S. Swartz, with the condition that a portion of the old superstructure should be used in the new, and the old bridge being carried away by the freshet will probably increase the expense and may require further action by your Honorable Body, and the undersigned recommends that the City Surveyor be directed to ascertain and report what portion of the old material intended to be used in the proposed repair has been lost, so that the bridge can be replaced with as little delay as possible.

Respectfully submitted,

COMMUNICATIONS FROM HIS HONOR THE MAYOR

MAYOR'S OFFICE, }
Buffalo, Oct. 4th, 1861. }

To the Hon. the Common Council:

GENTLEMEN:—At the session of your Hon. Body on the 23d inst., two resolutions were adopted which read as follows: "That the action of the Council in disbanding Live Oak Company, No. 2, be rescinded and that the engine be restored to said company." "That so much of the resolutions adopted by this Council on the 12th of August, 1861, disbanding Engine Company, No. 8, and directing the Fire Marshal to take possession of all property and fire apparatus in the house of said company belonging to the city, be and the same is hereby rescinded."

In my annual messages I recommended that steam fire engines be purchased and substituted for the ordinary engine. The recommendations seem to have been approved by your Hon. Body, by the purchase of such engines and by discharging hand engines. I have never doubted the propriety or importance of the steam fire engine system and a paid fire department, instead of the hand and volunteer services. Such a system has many advantages to commend itself to popular favor, not only by reason of its utility and practical effects, but by its moral influences.

The condition of the department on the 1st of January, 1860, was as follows: One steam engine, eleven hand engines. On the 1st of January, 1861, two steam engines, eight hand engines. At present four steam engines and five hand engines in active service, and if those two companies are re-instated the present force will be larger in number than on the 1st of January last, without considering the greater efficiency of the additional steam engines over hand engines.

The force is now larger than the most timid and prudent citizen could desire, and in my opinion unnecessarily and extravagantly large. Economical considerations demand that the force be reduced. The appropriation for the support of the department, for the year, was made with the understanding that such should be the case. The appropriation will not be sufficient to sustain the department at the present rate of expenditure.

A number of engine houses are now vacant, and should be used as police stations, or exchanged for other property more suitable for such purposes; the remainder should be sold. I suggest to your honorable body that you should at once determine what system is to be pursued, and what property belonging to the city can be applied to other uses.

The only objection that is urged against disbanding the two companies mentioned, is that there are no other companies in their immediate vicinities, and that their respective localities are very much exposed. If such is the case, I doubt not but your honorable body will give the complaint your immediate attention, and remove the anticipated danger, but which should be done without any further increase, unless by the purchase of an additional steam engine.

The reasons I have assigned are sufficient to compel me, as an act of duty, to return the resolutions mentioned to your honorable body without my approval thereof.

I have been served with a summons to appear before the Superior Court, to answer to the demand of Christian Gerlach, who claims damages to the amount of two hundred and thirty-seven dollars.

Very respectfully,
F. A. ALBERGER, Mayor.

Laid on the table temporarily.

OFFICERS OF THE CORPORATION.

FROM THE CITY SURVEYOR.

In compliance with your order of Sept. 30th I have examined the wreck of the late Cazenovia Road Bridge over the Cazenovia Creek, with reference to ascertaining what portion of the old materials, intended to be used in the proposed repairs of the said bridge has been lost.

There is nothing left of the old bridge fit to be used, with the exception of the iron, of which, when reworked, there will be sufficient for a new bridge.

The south abutment is entirely washed away, and the north abutment nearly destroyed.

In view of all these facts, I submit herewith a plan for a first class single track bridge of 75 feet span (9 feet more than the old one) with stone abutments. The roadway to be 16 feet wide in the clear.

The proposed bridge is to be 18 inches higher than the old one, and will require the following quantities of work for its construction, at a cost, in my opinion, of about \$1,200.

Masonry 156 6-10 cubic yards; timber and plank 11,600 feet b. m.; old iron reworked 966 pounds, cast iron 140 pounds; embankment 300 cubic yards; painting \$30 00.

PETER ENSLIE, City Surveyor.

COMMUNICATIONS FROM HIS HONOR THE MAYOR.

BUFFALO, Oct. 14th, 1861.

To the Hon. Common Council:

GENTLEMEN:—I return without approval a resolution adopted on the 7th inst., directing the owners of lots on the east side of Jefferson street, between Clinton and William streets, to cause the sidewalk in front of their respective lots to be repaired within ten days, and if not done within that time, that the Street Commissioner cause the same to be done at an expense not to exceed one hundred dollars.

The property which would be taxed for the above improvement, if made, is in that part of the city known as "New Territory," and your honorable body has no authority to direct repairs of this character which exceed in cost fifty dollars, without first giving notice of intention, ordering the same by a two-thirds vote, and confirming an assessment for the expense before the work can be contracted for.

All of the aforesaid requirements have been neglected by your honorable body.

I have been served with summons to appear before C. T. Shattuck, Esq., Justice of the Peace, on the 15th day October, to answer to the demand of Thomas Myers.

Respectfully,
F. A. ALBERGER, MAYOR.

ALONZO TANNER, Comptroller.

Filed and subject matter referred to the Committee on Finance.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN.—On the 20th inst. there will become due \$375, interest on \$11,000, 7 per cent bonds, issued Oct. 2, 1853, same payable at this office, and I recommend that an order for said amount be drawn in my favor up in the General Fund, 1861, estimate for interest on the funded debt with which to pay such interest.

I also report that policies of insurance on school property in District No. 19, \$30; District 21, \$3; District 28, \$3 75; District 32, \$30, and District 23, \$3 75, amount

ing in all to \$70 50, will expire on the 21st instant, and I recommend that orders be drawn in favor of A. A. Eustaphleve, Secretary, on the several local funds in said School Districts for the above several sums in full payment for renewals of such insurance.

I also report in answer to your resolution adopted at your last meeting that the interest on securities belonging to the Grosvenor Library Fund, payable from New York and vicinity, has been paid in checks drawn in my favor, which have commanded a premium here of ¼ of one cent, making \$9 19-100 premium, in all which has been credited to said fund. I am not aware in what manner payments on these securities were received by my predecessors in office. When these securities with others are handed over to the Trustees, in accordance with your directions, I shall report to your body in detail the items constituting the gross amount of said fund to 1st prox. mo.

ALONZO TANNER,
Comptroller.

Ald. Palmer moved that such communication be received and filed; that orders be drawn as recommended, and that the subject matter of the balance of such communication be referred to the Committee on Finance. Carried.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN:—In compliance with a resolution "That the Comptroller be and he is hereby requested to report to this Council, whether in his opinion, the work in his office cannot be done for the balance of the year with three Clerks" reported by the Finance Committee and adopted by Your Honorable Body. I respectfully report that I have endeavored, since entering upon the duties of Comptroller, to discharge the same with care and fidelity to the usefulness of the Department and to the public interests. It is certainly the duty of a public officer to manifest the same care and economy in the discharge of the duties of office that he would in his own private affairs and if successful in the one case he will very likely be successful in the other. This I have done. The appropriations and expenditures for this Department for the years 1860 and 1861 have been largely less than any corresponding term prior thereto and since the enlargement of the boundaries of the city in 1854, while the duties of the office have, and will, in the nature of things, continue to increase. At present, I think, the work cannot be done with the force contemplated by the resolution. Perhaps on the first proximo I may be able to dispense with the services of the assistant book-keeper, for the balance of the year thereafter, and I shall act accordingly if I think it may be safely done, and the business of the office kept up. Respectfully,

ALONZO TANNER, Comptroller.

Filed, and subject matter referred to the Committee on Finance.

FURTHER FROM THE COMPTROLLER.

Gentlemen—Henry Baldwin, of Syracuse, has a State Comptroller's deed of 20 by 190 feet, commencing 256½ feet east of Michigan street, to be laid out on the south side of Canal Basin, being on sale of 1853, and his deed is dated January 3, 1856, recorded in Erie County Clerk's Office, December 23, 1857, in Liber 156 of Deeds, page

123. Mr. Baldwin called on me a few days since, and proposed to quit claim to the city for \$300, the original tax being less than \$2 00. The premises are a part of East Market street, and I am of the opinion that the streets,

together with the market ground on Elk street, were donated by the proprietors to the city. If so, the interest of the city may be of such a nature as to require little or no attention to clear this title. I have deemed it best to report to your Honorable Body the facts within my knowledge, as I informed Mr. Baldwin I would, in order that you may take such action as you may think advisable.

ALONZO TANNER,
Comptroller.

Referred to Committee on Finance.

FROM THE STREET COMMISSIONER.

On the 20th day of last May you ordered the bridge repaired across Prime Slip on Canal Street, at an expense not exceeding \$75, but in consequence of delay in advertising for proposals, and action being taken on the same, the price of oak lumber advanced, which increased the expense very materially, and on taking up the old floor it was discovered that a portion of the iron work was broken, the repair of which increased the expense \$19 22-100, and the repair as originally contemplated being \$70 59-100, thus making the aggregate expense \$89 81-100, exceeding the limited expense \$14 81-100, which was unavoidable in completing the bridge, therefore the undersigned respectfully ask the amount so limited be increased to \$90.

L. J. WATERS, Street Commissioner.

Received and placed on file.

Whereupon Ald. Palmer offered the following resolution:

That so much of the resolution passed May 20th, 1861, as limited the expense of repairing the bridge across Prime Slip, on Canal street, at \$75, be and is hereby rescinded, and that the Street Commissioner be and is hereby authorized and directed to cause said bridge repaired, at an expense not exceeding \$90. Adopted. Ayes, 19; noes, 0.

FROM THE CITY SURVEYOR.

At your last meeting the City Surveyor and the Chairman of the Committee on Wharves, Harbors and Ferries were authorized and directed to contract immediately with the lowest bidders for dredging Buffalo Creek, from the North Pier to South street and Buffalo harbor outside the North Pier.

On the 6th of May last, in pursuance of advertisements, the following propositions were received for dredging Buffalo Creek inside the North Pier:

Bernard Cunningham, at 12 cents per cubic yard.

Thomas Dunbar, at 14 cents per cubic yard.

William R. Strong, at 14 cents per cubic yard.

On the 3d of June last the following propositions were received for dredging Buffalo Creek outside the North Pier:

William R. Strong, 12 cents per cubic yard.

Thomas Dunbar, 23 cents per cubic yard.

All the above parties decline to enter into contract for the said work, giving as their reason for doing so that the proper season for dredging has nearly gone by.

In view of the above facts I received to-day propositions from Messrs. Dunbar & Strong, to do all the dredging in Buffalo Creek and Buffalo harbor for 20 cents per cubic yard.

They will do as much this fall as can be done with two dredges, and complete the balance of the work by the opening of navigation in the spring.

PETER EMSLIE, City Surveyor.

Ald Allen moved that said communication be received and filed, and that the Committee on Wharves, Harbors and Ferries, and the City Surveyor be authorized to contract with Messrs. Dunbar and Strong to dredge Buffalo Creek and harbor as recommended in said communication.

Ald Howard offered the following as a substitute for the motion of Ald. Allen.

Resolved, That it is the duty of this Council to cause all necessary dredging of Buffalo Creek without delay to meet the present wants of our lake commerce, even at the increase of expense reported by the City Surveyor above what the same might have been done, for if the same had been ordered in the early part of the season and the City Surveyor and Chairman of the Committee on Wharves, Harbors and Ferries be and they are hereby directed to contract with Messrs. Strong and Dunbar to do so much dredging in Buffalo Creek, both inside and outside the north pier as the wants of commerce shall demand this fall, and only so much, the same to be done under the direction of the City Surveyor, and the Chairman of the Committee on Wharves, Harbors and Ferries, at a price not exceeding 20 cents per cubic yard:

Ald. Dorr moved that the said communication from the Surveyor, and the resolution offered by Ald. Howard, be laid on the table temporarily. Carried.

The said communication from the City Surveyor, together with the resolution offered by Ald. Howard, were subsequently taken from the table on motion of Ald. Adams.

Whereupon Ald. Dorr offered the following as a substitute for the resolution offered by Ald. Howard and the previous motion of Ald. Allen:

Resolved, That the Committee on Wharves, Harbors and Ferries, with the City Surveyor, be hereby empowered to contract with Strong & Dunbar, to dredge at the mouth of Buffalo harbor, outside the North Pier, at a sum not to exceed twenty-five cents per cubic yard. The dredging to be done at once, with all the means they have, as fast as practicable, and as the weather will permit. The contract to be continued until Dec. 1st, 1861, unless stopped by the action of the Committee, on account of the fund being exhausted, or the channel being dredged deep enough. Adopted.

FURTHER FROM THE CITY SURVEYOR.

In compliance with your order of October 7th, I have measured the market grounds and Porter Square with a view of ascertaining the length of sidewalks to be built, which are as follows:

For the market ground, two sidewalks, from the curb line of Niagara street to the curb line of Dearborn street, each 243 feet long. Also two pieces on Niagara street, in front of the market grounds, 48 feet each. Making the total for the market grounds 582 feet.

The length of sidewalk on the westerly side of Porter Square, on Niagara street, is 381 feet.

PETER EMSLIE, City Surveyor.

Referred to the Committee on New Territory.

FROM THE FIRE MARSHAL.

The City Assessors reported the amount due A. P. Dunlap for salary as clerk in that office, for quarter ending Sept. 30, and recommended that an order be drawn for the same.

M. WIEDRICH, Receiver of Taxes.

Ald. Savage moved that such communication be received and placed on file, and that the subject matter thereof be referred to the Committee on Finance. Carried.

FROM THE CITY TREASURER.

By resolution of the 7th inst., you directed me to advertise and pay all orders against assessments previous to the year 1851, which have been transferred to the balance account.

By reference to the amended Charter, page 43, you will perceive that it is necessary that orders for these amounts must emanate from your Hon. body. Acting upon the above resolution I have to report that I have redeemed orders and returned to the Comptroller, to the amount of Two Hundred Eight 64-100 dollars, and there remain in this office orders amounting to One Hundred Nineteen 56-100 dollars, as per report appended, and for which amount I would ask that an order be drawn in favor of the Comptroller, and if there are no objections this will be my course of action redeeming, reporting weekly and have an order drawn for the amount.

J. S. TROWBRIDGE, Treasurer.

Whereupon Ald. Howard offered the following resolution:

That an order be drawn on the balance account for \$119 56 in favor of the City Treasurer, with which to take up the orders mentioned in the foregoing communication, and that the Comptroller on delivering the said orders take up and cancel the said orders. Adopted.

The following is such report:

HON. F. A. ALBERGER, Mayor:

Sir: In conformity with the rules and regulations of the Police Department, I herewith submit a statement of the business and condition of the department for the third quarter of the year 1861, which embraces the months of July, August, and September.

The number of arrests made within the time mentioned is eight hundred and four (804), and are as follows:

Drunk and disorderly.....	252
Disorderly.....	202
Drunk.....	211
Vagrants.....	37
Assault and battery.....	52
Selling obscene books.....	1
Indecent exposure.....	1

The number of arrests exceed that of the last quarter only two.

You will observe that six hundred and sixty-five of the persons arrested were charged with being drunk and disorderly, leaving only one hundred and thirty-seven charged with other offences.

You will also find that very few of the offences charged were of the character of burglary, forgery and larceny. In addition to the arrests reported there has been lodged in the several station houses, persons not charged with crime, two hundred and thirty-eight, being one hundred and thirty-eight less than lodged during the preceding quarter.

The amount of property which has been reported at my office as stolen is very small, much less than during the last quarter.

The amount of fines collected by the Watch House Justices and Police Constables, as returned, is one thousand three hundred and ninety-two dollars, an increase over the amount collected during the last quarter from the same source of four hundred and thirty-dollars.

The conduct of the Policemen and other officers of the Department, with two or three exceptions, have been good. Respectfully submitted,

GEO. DRULLARD, Chief of Police.

Total.....	\$2,712 40

I recommend that an order for \$2,712 40 be drawn in my favor upon the General Fund of 1861, estimate for interest on the funded debt, with which to pay the same.

ALONZO TANNER, Comptroller.

All. Howard moved that such communication be filed, and that an order be drawn as recommended. Carried.

All. Crowder and Swartz here appeared and took their seats.

FROM THE CITY ATTORNEY.

In compliance with your directions I hereby report that the action of the Common Council on the 25th day of September, 1857, was legal, that is, that the Common Council, as Commissioners of highways for the city, had the power to "cause such roads, used as highways, as shall have been laid out, but not sufficiently described, and such as shall have been used for twenty years, but not recorded, to be ascertained, described, and entered of record in the City Clerk's office," and I presume that

the said action of the Council was for the purpose of describing and recording Burton alley. But no such action could be effectual to lay out a new highway, or to change the location of any old street or highway; if, therefore, Burton alley is improperly described in the proceedings of September 25th, 1857, those proceedings are null and void, so far, at least, as they change the location of the alley, but if the alley was originally laid out as therein described, the proceedings are valid, and no further steps are necessary to be taken to establish the lines.

From the best information I can obtain on this subject, I am of the opinion that the following is a correct statement of the facts relating thereto: Burton alley was originally laid out and dedicated to the public use by Jabez Goodell, and ever since such dedication has been used as a public highway or street, I think that it is in fact a public highway, and that no action on your part is necessary to make it such. The only question is, what is its true location? That question being answered it only remains for the Common Council to have a correct description prepared and recorded.

I am informed by the City Surveyor that the description adopted by the Common Council September 25th, 1857, is erroneous and not in accordance with the dedication of the alley, and, that by actual survey, he finds the proper description to be the one adopted by you in your notice of intention to take and appropriate the property necessary to straighten the alley, &c.

If the City Surveyor is correct, the action of September 25th, 1857, although correct and valid upon its face, was void in fact, because it attempted to locate the alley differently from its original location and dedication by Mr. Goodell. This being so, the proper course for the Council to pursue is to rescind the resolution of September 25th, 1857, and locate the alley anew, as the same was originally laid out and opened, according to the present City Surveyor's report.

GEORGE WADSWORTH, City Attorney.

Ald. Palmer moved that such communication be referred to the Committee on Streets. Carried.

FURTHER FROM THE STREET COMMISSIONER.

The undersigned begs leave to call your attention to the exposed state of the approach to the southerly end of the Bridge across Cazenovia Creek, on the road leading from the Aurora Plank Road to Martin's Corners. The roadway is washed away for a distance of about 40 feet southerly from the bridge, and is liable to be washed away at all times when the water in the creek is unusually high, thus causing much damage, and great expense for repairs. To prevent such accidents, I recommend that piles be driven on the easterly side of the roadway, from the southerly end of the bridge to a point about 100 feet southerly therefrom.

Respectfully submitted,

L. J. WATERS, Street Commissioner.

Referred to the Committee on New Territory.

FURTHER FROM THE STREET COMMISSIONER.

And the undersigned recommend that orders be drawn on the local fund for the above named improvement, in favor of the parties, for the amount proposed.

L. J. WATERS, Street Commissioner.

Ald. Howard moved that such communication be received and placed on file, and that orders be drawn as recommended. Carried.

FROM THE CITY SURVEYOR.

In compliance with your order of October 14th, I submit herewith a grade and profile for a sewer, two feet in diameter, in the clear from the sewer in Virginia street, through Delaware Place, to a point 100 feet westerly from the westerly line of Delaware street. Commencing at the intersection of the centre line of Delaware Place, with the sewer in the centre of Virginia street, at an elevation of 80.20 feet above the base line of levels, thence rising southeasterly and easterly along the centre line of Delaware Place, 0.30 feet per 100 feet for a distance of 1,188 feet to a point 100 feet westerly from the west line of Delaware street, at any elevation of 83.61 feet above the base line of levels. The total length of sewer is 1,188 feet. The average depth of the excavation is 11.00 feet.

PETER EMSLIE, City Surveyor.

Referred to the Committee on Sewers.

FROM THE CITY TREASURER.

I would ask to be authorized to employ, for a term not exceeding fifteen days, at such compensation as you may think proper, for the purpose of adding to the Comptroller's report the Treasurer's balances, as per resolution of your Honorable Body.

J. S. TROWBRIDGE, Treasurer.

Whereupon Ald. Howard offered the following:

That the communication of the Treasurer be received and filed, and that he be authorized to employ a suitable person for the purpose mentioned in his communication, for a time not exceeding 15 days, and at an expense not exceeding twelve shillings per day. Adopted.

FROM THE CHIEF OF POLICE

I would respectfully represent, that one of the stoves in Police Station No. 1 has been for some time past perfectly useless, and the other will soon need replacing. The supply of wood at that and the other Station Houses is also nearly exhausted. I have accordingly caused two 'Littlefield Coal Burners' to be set up in place of the two old stoves, the parties agreeing to remove them, without cost to the City, provided they are not satisfactory.

In view of the present high price of wood, and the great superiority of the coal stoves, I would urge your honorable body to approve my action, and empower me to purchase said stoves, at an expense not exceeding *eighty dollars*. I have consulted with the Mayor and several members of the Police Committee, and they heartily agree with me in the course I have taken.

In my opinion, it would be much to the comfort and economy of the Station Houses, if the wood burners were in time entirely supplanted by the coal-burning stoves.

So far as tested, the latter heat the Station House far more thoroughly, and at much less cost of fuel.

I would also respectfully ask for authority to purchase, for use in the cells of the Station Houses, *one dozen* iron-bound tubs, which article is much needed just now, the expense not to exceed fifteen dollars.

Respectfully submitted,

GEORGE DRULLARD, Chief of Police.

Referred to the Committee on Police.

Ald. Beckwith and Scheu here appeared and took their seats.

The written resignation of J. A. Rathbun of the office of Inspector of Election for the 3d District of the Second Ward, was presented.

Ald. Savage moved that the subject matter of said resignation be laid on the table. Carried.

And the motion of Ald. Yaw as amended was then carried. Ayes, 15; Noes, 3.

MINUTES No. 38.

CORPORATION PROCEEDINGS.

IN COMMON COUNCIL,
Buffalo, Monday, Oct. 28, 1861,

COMMUNICATIONS FROM HIS HONOR THE MAYOR
BUFFALO, Oct. 25, 1861.

To the Hon. Common Council:

GENTLEMEN: I return without approval the resolutions adopted on the 14th inst. The first resolution provides for the repairing of a plank side walk on the westerly side of Hamburg street, between Mackinaw street and Sandusky street. The second provides for a work on same street similar to the first, except that the work is to be done between Sandusky street and the New York and Erie Railroad track. The first is in all respects similar to the others, except that the work is to be done between the New York and Erie Railroad track and South street.

It will be seen by reference to the above described localities that it is intended to repair a plank side walk on the west side of Hamburg street, between Mackinaw street and South street, and that by making three orders for the improvement three distinct works are created involving the expense of three distinct assessments.

I deem this procedure very objectionable, because there is actually but one work and that it creates additional and unnecessary expense to the tax payer, and gives occasion for complaint on their part of unnecessary small assessments. There should be but one work and one assessment.

I return without approval the following resolution: "That Genesee street be repaired from the easterly line of Jefferson street to a point 204 feet easterly of Jefferson street, by opening the gutter and repairing a culvert on the northerly side of said Genesee street." The objection is that there is no limit to the expense, and if the amount should exceed fifty dollars the work would be done in express violation of the Charter.

Respectfully,

F. A. ALBERGER, Mayor

COMMUNICATIONS FROM HIS HONOR THE MAYOR
BUFFALO, NOV. 7, 1861.

To the Hon. Common Council:

GENTLEMEN.—The Union Defence Committee have requested me to ask that your Honorable Body direct an order to be drawn in their favor for five thousand dollars. The semi-monthly pay roll amounts to nearly twelve hundred dollars, the payments are made to the families of volunteers on the second and fourth Saturdays in each month. The next pay day is on Saturday next, and the means in the possession of the Committee are not near sufficient to discharge outstanding obligations.

It is for this purpose that I have this day convened an extra session of your Hon. Body, and for the transaction of such other business as may come before you

I return, without approval, the resolutions adopted at your last session, directing sidewalk to be repaired on the easterly side of Michigan street, between Elk and Scott streets. The objection to the resolutions are that the order should be for one work instead of three, and that it is for the interest of tax-payers to have works consolidated as much as possible—preventing many small assessments, and the incidental expenses attached thereto.

I have been served with summons to appear before Charles Gardner, Esq., Justice of the Peace, on the 5th inst, to answer to the demand of James H. French.

Respectfully, F. A. ALBERGER, Mayor.

Received and placed on file.

The following was presented:

STATE OF NEW YORK, }

1861, at 2 o'clock, except in the case of Ald. Nathaniel Jones; which to the best of his belief was served by William Withers. JASPER HODGE.

Sworn to before me this 7th day of November, 1861.

OTIS F. PRESBREY, City Clerk.

Received and placed on file.

Whereupon Ald. Jones, being present, acknowledged service of notice of such special meeting.

Alberger, Chairman of the Union Defence Committee, and that the Comptroller deliver said order to the Treasurer of said Committee on filing with said Comptroller a receipt therefor. Adopted.

Ald. Adams then moved that the subject matter of so much of the foregoing communication from the Mayor as relates to the resolutions ordering side walks repaired, be referred to the Committee on Side and Cross Walks, and of so much thereof as relates to suit commenced by James H. French be referred to the City Attorney with power to defend. Carried.

FROM THE SUPERINTENDENT OF SCHOOLS.

In reply to the following resolution of your honorable
 body, passed at your last meeting:

"By Ald. Schen, that the Superintendent [of Schools be
 requested to report to the Council, in its next meeting,
 the average attendance of pupils at the Common School
 in the 11th District of the city of Buffalo, during each
 year since the first day of January, 1856, and also the
 gross amount of moneys paid for or on account of the
 maintenance of said school, including teachers salary,
 fuel, repairs and all necessary and incidental expenses
 of said school during each year since said 1st day of
 January, 1856. Adopted."

I have the honor to state that the gross amount of ex-
 penses of Public School No. 11, together with its atten-
 dance, has been as follows in each year:

Year.	Average Attendance.	Total do.	Total Cost.
1856	215	419	\$2,475
1857	216	463	3,125
1858	239	505	3,027
1859	No report.		
1860	220	383	2,611 25

Owing to the imperfect character of previous reports,
 the year 1860 is the only one which fully complies with
 your resolution. The annual cost in previous years is
 that of teachers salaries only, while in 1860 all the items
 of expense are included.

SANFORD B. HUNT.

Superintendent of Schools.

Received and placed on file.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

Wesley Emmons herewith renders his bill for repairs
 on Public School building No. 6, to the amount of \$295 47.
 I recommended this work, or rather one more considerably
 extensive, to you last Spring. Several tax payers of the dis-
 trict objecting to any expenditure which would occasion
 taxation, I consulted with them, agreeing on certain work
 as necessary, and the work was done by my order. I or-
 dered it in the full belief that you had directed it in con-
 formity with the general repairs ordered in June last.
 On investigation I do not find that you took such action.
 As Mr. Emmons has acted in good faith, and the repairs
 may be more extensively necessary for the comfort and wel-
 fare of the school, I respectfully request your sanction of
 the bill, and direct the usual reference of the
 order to be made.

SANFORD B. HUNT, Sup't of Schools.

Received and placed on file.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

The large attendance at the Central School renders it
 very necessary that some of the room, not now available,
 should be made so. At present the main halls afford the
 only room for hanging articles of dress, and two hundred
 and eighty boys and girls are common tenants of the
 whole building. At an expense within the means of the
 School Fund for this year, one of the basement rooms may
 be fitted up as a girls' cloak room and reception room,
 and connected with the main hall by a staircase. A fur-
 ther change can be made for the better, by removing the
 furniture of the laboratory to the first floor, and thus
 giving an additional recitation room, which is very much
 needed.

I respectfully recommend that the Chairman of the
 School Committee and myself be authorized to cause such
 improvements to be made.

SANFORD B. HUNT, Sup't of Schools.

Referred to Committee on Schools.

FROM THE CITY ASSESSORS.

There will be required for the use of this office 1000
 postage stamps for the month of November, for posting
 notices for local assessments. The undersigned there-
 fore respectfully ask your honorable body to direct that
 an order be drawn for ten dollars for that purpose.

LORENZ GILLIG, Assessor.

Filed and an order directed to be drawn.

FROM THE RECEIVER OF TAXES.

I have purchased 2000 penny postage stamps, to pre-
 pay notices of local taxes, and for which I have paid
 twenty dollars, (20)

I respectfully ask that an order be drawn for that
 amount.

GORDON BAILEY,

For the Receiver of Taxes.

Filed and an order directed to be drawn.

FURTHER FROM THE RECEIVER OF TAXES.

On the 9th Inst. there was received in this office sixty-
 one local tax rolls, and on the 15th Inst. thirty-five rolls,
 and on the 28th Inst. one roll, making in all ninety-seven
 local rolls received in this office since the 9th Inst. On
 nine of the foregoing rolls are over 7,000 names, and
 which will require (\$70) seventy dollars in one penny
 postage stamps, the balance of the rolls are many of
 them quite small, varying from one to twenty in number,
 and which will swell the number in the aggregate to from
 eight to ten thousand notices; and since the Assessors
 send a notice to each of the individual's named in the
 rolls, and the Receiver of Taxes is required by the Char-
 ter to advertise in the City paper five successive days
 after receiving them, that they can be paid in his office,
 I respectfully suggest the propriety of rescinding the
 resolution referred to in my communication of May 20th,
 1861, (Minutes No. 19, page 192).

MICHAEL WIEDRICH, Receiver of Taxes,

Per G. BAILEY.

Referred to Committee on Finance.

The following communication from the City Attorney was received:

I hereby report that I have examined an abstract of your proceedings as to assessment rolls No. 2533, and No. 2535 to No. 2548, both inclusive, and am of the opinion that said proceedings have been regular—except as to roll No. 2538,—"for repairing and maintaining the two bridges across Evans' Ship Canal on Erie and Water streets."

I think that there should be a separate assessment for repairing and maintaining each bridge, and that you have no power to make one assessment comprising the aggregate of two or more separate improvements.

Commencing in the centre of Edward street at a point 458½ feet west of Delaware street at an elevation of 40 20 feet above the base line of levels, thence easterly along the center line of Edward street, falling 0.80 feet per 100 feet for a distance of 503 feet, to the centre of Delaware street, thence continuing on the same grade southerly along the centre of Delaware street a distance of 97 feet to the termination of the present sewer in Delaware street, at an elevation of 38.40 above the base line of levels. The total length of the sewer is 600 feet, the average depth of excavation is 9 feet.

The above profile that I have reported secures to the petitioners the drainage that is so necessary for their property at much less expense, than if the sewer were taken into the Virginia street sewer.

The Committee on Fire, to whom was referred the subject matter of a plan for the better organization of the Fire Department of the city, report, that they have had the subject under consideration, have given it that care and investigation that a subject of so much importance demands, and are satisfied from the experience had for the past season with steam fire engines, that it is for the best interests of tax payers and citizens at large, and that it is the duty of this Council to employ or establish, as far as practicable, steam engines in place of the hand engines now in use. The Committee by this report do not intend to cast any discredit on the present hand force, deeming it as good and efficient as could possibly be constituted with hand engines; but knowing, from the experience had, that a steam department is so much more efficient than a hand department, the Committee deem it their duty to recommend to the Council the employment of two steam fire engines in addition to those now in use, and submit the following resolution, and recommend its adoption:

Resolved, That the Fire Marshal, with the approval of the Fire Committee, be and he is hereby authorized to rent two steam fire engines of Sidney Shepard for one year, with the agreement that if at the end of that time, or within six months thereafter, the city desires to purchase the said engines it can do so for the price of \$3,500 each, and the rent then paid shall be considered as a partial payment, the same as if the City had originally purchased the said engines for \$3,500 each; and the balance together with interest on all sums remaining unpaid from the date of the lease or leases shall then be paid, and the

said engines shall then become the property of the City of Buffalo.

COMMUNICATIONS FROM HIS HONOR THE MAYOR

MAYOR'S OFFICE,
Buffalo, Nov. 25, 1861. }

To the Hon. Common Council:

GENTLEMEN.—I have this day been served with summons and complaint on the part of the Buffalo and Hamburg Turnpike Company against the city of Buffalo. Also an order emanating from the Superior Court of Buffalo that the city of Buffalo and Levi J. Waters, Street Commissioner of the city of Buffalo, and his successors in office, and the officers of said city of Buffalo, and the agents or workmen of the defendants, or either of them, do refrain until some further or different order is made in the premises from taking down or in any manner removing or interfering with a certain bridge built and used by the plaintiff over the Buffalo Creek in the city of Buffalo." I have sent the papers to the City Attorney.

I beg to call the attention of your Honorable Body to the propriety of memorializing Congress and explaining to that body the necessity of making such appropriations as may be requisite to maintain the efficiency and permanency of Buffalo Harbor. Considering the great demand for money made upon Congress for the defence and perpetuity of the nation, it might seem objectionable and as exhibiting a want of patriotism to make applications of this character at the present time, but I think a careful consideration of the subject will approve of the project. Our harbor is situated at the foot of the chain of great lakes, and at the end of natural navigation for vessels. The present unfortunate civil war by curtailling or destroying other avenues of trade and the unprecedented demand for the products of the west has concentrated an unusual amount of business in our city, and the successful manner in which it has been conducted has demonstrated beyond all question the superiority of the route

through Buffalo over all others, and also demonstrated the importance of this fact in a national point of view.

The large quantity of grain that has flowed in a steady and uninterrupted tide through our city the past season, through the Erie Canal to New York, and thence to Europe, has resulted in influences and effects not easily appreciable. Statistics show that the exports from the port of New York has increased many millions over the exports for the last three years, notwithstanding there has been but little cotton and other southern products which have formed heretofore a very large proportion of the exports from that city. These exports have been paid for in specie and there has been a constant influx of the precious metals in return for our grain. The banks of the city of New York are the depositories of the specie of the Northern and Western States, and they have been enabled to furnish government with all its large demands, and thus have infused high and hopeful sentiments of success and future prosperity in the minds of our people at home, and renewed confidence in the permanency of our institutions abroad. The business and trade of the Northern and Western States the past season, has exhibited the anomaly of a country apparently growing rich when engaged in civil war. The exports of breadstuffs has had a material influence in shaping the diplomatic policy of the nations of Europe. The food furnished the people has taught their rulers the danger and impropriety of interfering with our domestic affairs.

It must be recollected that through no other channel could the immense supplies from the West have reached tide water this year. The Welland Canal could have transacted much more business than has presented itself, and thus by way of Lake Ontario, Oswego and Erie Canals have furnished a route for a portion; but this exception exhibits with great force the national aspect of our claims, as that route is through the territory of a foreign power, and beyond our immediate control.

Buffalo harbor, through the enterprise of our citizens and the liberality of the State, affords ample room for the present wants of commerce, but unfortunately it is so situated that at times vessels cannot enter, except at great risk, and instances have recently occurred in which they have been cast on the Erie breakwater, and vessels and cargoes seriously damaged or destroyed. The harbor at the end of the south pier fills rapidly with sand, and as the lake outside of the south pier has been filling rapidly, greater accumulations of sand may be anticipated, and a large and growing expense be annually entailed upon the city. Those difficulties will be wholly removed by extend-

ing the south pier on its present line several hundred feet into the lake, and additional harbor room created thereby, which the growing trade of the lakes will soon demand.

Efforts have been frequently made to obtain appropriations for the harbor, and have been successful, as far as congressional action was necessary, but have been finally rendered inoperative by the non-concurrence of the President. Unquestionably the present Congress, and I doubt not the Executive, must approve of the wise doctrine of protecting the harbors of the great lakes, as well of those on the seaboard. And as the great commercial operations of the year has placed our city in a position where her importance and her claims cannot be well overlooked or ignored, I would suggest that now is the time to accomplish this important purpose, and I respectfully recommend that your honorable body appoint a committee to take the matter into consideration; have suitable maps prepared, showing the present condition of the harbor, the proposed improvement, estimates of cost, statistics exhibiting the increase of commerce at the port, tonnage employed, arrivals and departures of vessels, exports and imports, and other subjects pertaining to and necessary to be obtained before memorializing Congress, which should be done by your honorable body at an early day as possible. If proper action is taken without delay I have good reason to believe that it will accomplish the desired purpose.

Very respectfully,

F. A. ALBERGER, Mayor.

Aid. Felton offered the following -

Resolved, That the communication be received, placed on file, and that that part of it which relates to the harbor be referred to the Committee on Wharves, Harbors and Ferries.

Aid. Palmer offered the following as an amendment to the motion of Aid. Felton:

Resolved, That so much of the Mayor's communication as relates to the injunction be referred to the City Attorney, and that he be directed to report what steps are necessary to be taken, at the next meeting of this Council.

Aid. Felton accepted the amendment offered by Aid. Palmer.

Aid. Storck offered the following, as an amendment to the motion of Aid. Felton as amended:

Resolved, That so much of the Mayor's communication as relates to the Buffalo harbor, be referred to a Special Committee of Five.

Aid. Sterk withdrew the foregoing amendment offered by him.

Aid. Storck then offered the following as a substitute for the amended motion of Aid. Felton:

Resolved, That so much of the Mayor's communication as relates to the injunctions be referred to the City Attorney, and that he be directed to report what steps are necessary to be taken at the next meeting of this Council; and so much as relates to the suit, and, also, that part that relates to the Buffalo Harbor be referred to a special committee of five.

Aid. Swartz called for a division of the question.—Granted.

The question was then taken on the first proposition of the motion of Aid. Storck, viz: that so much of the communication from His Honor the Mayor as relates to the

suit commenced against the City by the Buffalo and Hamburg Turnpike Company, be referred to the City Attorney, and that he be directed to report what steps are necessary to be taken, and the same was carried.

The question was then taken on the motion of Aid. Felton as originally made by him viz: that such communication be received and filed, and that so much of the same as relates to the Harbor be referred to the Committee on Wharves, Harbors and Ferries, and the same was carried.

The question was then taken on the resolution offered by Aid. Felton as amended, and the same was carried.

OFFICERS OF THE CORPORATION.

FROM THE COMPTROLLER.

GENTLEMEN:—In 1856, the Superintendent of Schools, by direction of the Council, sold the old school-house site in School District No. 1, to Wesley Chase and Son, at and for the price of \$3,200, providing that said Chase and Son could so arrange the payments as to meet the payments on the City bonds falling due in September and October, 1857, given in purchase of the new school lot in said district, and as will be seen at page 264 of Council Proceedings of 1856, the City Attorney was directed to prepare the necessary papers of conveyance and security.

The bonds referred to were two bonds of \$937 50 each, issued to E. S. Havens, Sept. 21, 1855, payable in two years—\$1,375. Bond to S. G. Haven for \$1,250, issued Oct. 1, 1855, payable in two years. Said purchasers have had no deed of the premises, but entered at once into possession, and have paid the bonds to E. S. Havens, and have kept the interest up on the bond to S. G. Haven, and nothing further has been done in the premises. It will be seen that \$75 was due the City, aside from paying or assuming said bonds. I am desirous of having this matter fully closed, and the Messrs. Chase also express a willingness to now pay the balance due the City, and take title by deed.

I would therefore recommend that the City Attorney be directed to draw the proper deed and papers, and that the same be executed by the proper officers on the part of the City, to be delivered on payment into the City Treasury of balance due—said bond to S. G. Haven to be paid by grantees, or assumed by them in said deed if City Attorney shall so advise, and that he report his action to your honorable body.

I also report that the City has a claim against the several Street Railways for Printing, and I recommend that the City Clerk be directed to present parties liable to pay with bills for such payment, and that he be authorized to receive payment, and that he pay amount so collected into the City Treasury, and report to your body.

ALONZO TANNER, Comptroller.

Filed, and recommendations adopted.

The Comptroller also reported the amounts due to the Clerks employed in his office, for services during the month of November.

Filed, and orders directed to be drawn.

FROM THE COMPTROLLER AND CITY TREASURER.

GENTLEMEN—On the 23d of September, a resolution from the Chairman of the Committee on Finance was adopted by you, referring to the undersigned the Comptroller's annual report, and we were by said resolution re-

quested to add to said report the debit and credit balances on the Treasurer's books on all local assessments mentioned in Schedule K, and report the same back to your honorable body at the earliest practicable day.

The Treasurer, under the direction of Ald. Howard, employed extra help in order to comply with the request of your body, but the additions have not yet been made, and with the progress now made it will not be completed in many weeks, and besides we are satisfied that such addition will be of no possible benefit to said report or to the tax payers, and will only be incurring useless additional expense, and consequently delay still longer the publication of these reports, which should have been published long since. We therefore report back said report, and recommend that the Comptroller's annual reports for 1859 and 1860 be published, 1,000 copies of each report, inclusive of 100 copies of each to be bound in cloth, as per samples furnished city job printers.

ALONZO TANNER, Comptroller,
J. S. TROWBRIDGE, Treasurer.

Ald. Adams moved that such communication be received and placed on file, and that the recommendations therein contained be adopted. Carried.

FROM THE STREET COMMISSIONER.

The undersigned submits for your consideration the propriety of constructing a sewer down Fort street, with a receiver, at or near the intersection of Niagara, Sixth and Fort streets. Large bodies of water concentrates at that point in the spring, and falls from the high ground on Sixth, Seventh and Niagara streets, which cannot find an outlet without passing down the westerly gutter in Niagara street to Albany street, and the flow is so great that the space under the platforms has not sufficient capacity to pass the water in such quantities, causing it to flood the pavement, and in cold weather the water freezes rendering the passage on the street very annoying and even dangerous, and also damaging the pavement. Such an improvement is a public necessity, and should have been made at the time Niagara street was paved, and ought not now to be delayed in consequence of the near approach of winter. Therefore, the undersigned recommend the same to your immediate consideration, that the work may be properly ordered and completed, if possible, the present season.

L. J. WATERS, Street Commissioner.

Referred to Committee on Sewers.

FURTHER FROM THE STREET COMMISSIONER.

In compliance with your directions the undersigned reports that he examined the public well, at the corner of William and Jefferson streets, and finds the reason for the water in the same being bad and unfit for use, is impure water passing into the well through a seam in the rock, about 6 feet below the surface of said rock.

L. J. WATERS, Street Commissioner.

Referred to the Committee on Water.

FURTHER FROM THE STREET COMMISSIONER.

In compliance with your directions the undersigned advertised for proposals for constructing a brick sewer in the center of Delaware Place from the sewer in Virginia street, easterly, to a point 100 feet westerly from Delaware street, and have received the following:

From John Drexler, per lineal foot—\$1 00.
From James McGlinn, per lineal foot—\$1 08.
From James Herraden, per lineal foot—\$0 99.
From Henry Harter, Jr., per lineal foot—\$0 97.

From John Wannop, per lineal foot—\$1 08.

From Churchard & Benzinger, per lineal foot—\$1 00.

L. J. WATERS, Street Commissioner.

Referred to Committee on Sewers.

FURTHER FROM THE STREET COMMISSIONER.

In compliance with your directions the undersigned advertised for proposals to deepen the well at the corner of Hickory and Clinton streets, by drilling the rock at the bottom of the same, and have received the following, to-wit:

FROM THE SUPERINTENDENT OF SCHOOLS.

The number of school desks recently thrown upon the hands of the city, in its suit with Mr. Mesmer, is 46, of which 34 are fitted for Third Departments, and 14 are designed for an Intermediate Department. Mr. O'Brian declines to permit their removal, without some assurance that he will be paid for their storage from May 1st, 1861.

I respectfully suggest that as these desks are now a source of expense for storage, and are needed in some of the Districts, that I be authorized, with the Chairman of the School Committee, to agree upon a reasonable compensation to Mr. O'Brian, and to place the desks where they are needed.

SANFORD B. HUNT,

Superintendent of Schools.

Referred to Committee on Schools.

FURTHER FROM THE SUPERINTENDENT OF SCHOOLS.

Public School No. 32 is now over-crowded in its Intermediate Department, some thirty pupils having no desks. I respectfully suggest that I be authorized to place the fourteen Intermediate desks, now stored by Mr. O'Brian, in the department mentioned, and that No. 32 be charged with the same, and their value placed to the credit of the Districts for which they were originally ordered by ex-Superintendent Cook.

I further report that Public School No. 31 has now but two departments open, while the present registration is 119 pupils, which is more than the average of Schools of three departments, while at the same time the number of scholars is rapidly increasing. The two rooms now oc-

cupied are over crowded, and an intermediate department is needed.

Such a department can now be opened at small expense. The building needs no change and can be readily adapted as follows: The seats now in use in the third story are intermediate seats and should be transferred to the second story, where, with the addition of one stove, chairs and teachers table, the furnishing would be complete.

The thirty-four full sized desks, now in store, should be placed in the Third Department, and, say, forty additional desks purchased, so as to seat 150 scholars. In this way the furnishing of No. 31 can be completed economically, and sufficient accommodations provided for this growing and prosperous school.

I respectfully suggest that I be authorized to make the improvements herein enumerated.

SANFORD B. HUNT,
Superintendent of Schools.

Referred to Committee on Schools.

Ald. Yaw, from the Committee on Fire, called up the following report from such Committee in relation to Steam Fire Engines, presented to the Council at its last meeting, and laid upon the table, viz :

The Committee on Fire, to whom was referred the subject matter of a plan for the better organization of the Fire Department of the city, report, that they have had the subject under consideration, have given it that care and investigation that a subject of so much importance demands, and are satisfied from the experience had for the past season with steam fire engines, that it is for the best interest of tax payers and citizens at large, and that it is the duty of this Council to employ or establish, as far as practicable, steam engines in place of the hand engines now in use. The Committee by this report do not intend to cast any discredit on the present hand force, deeming it as good and as efficient as could possibly be constituted with hand engines, but knowing, from the experience had, that a steam department is so much more efficient than a hand department, the Committee deem it their duty to recommend to the Council the employment of two steam fire engines in addition to those now in use, and submit the following resolution, and recommend its adoption :

Resolved, That the Fire Marshal, with the approval of the Fire Committee, be and he is hereby authorized to rent two steam fire engines of Sidney Sheppard for one year, with the agreement that if at the end of that time, or within six months thereafter, the city desire to purchase the said engines it can do so for the price of \$3,500 each, and the rent then paid shall be considered as a partial payment, the same as if the city had originally purchased the said engines for \$3,500 each ; and the balance together with interest on all sums remaining unpaid from the date of the lease or leases shall then be paid, and the said engines shall then become the property of the city of Buffalo.

MOTIONS, RESOLUTIONS AND NOTICES.

By Ald. Yaw—

Whereas, The Legislature of this State did, on the 16th day of April, 1861, among other things, enact that Section 87 of Title 12 of the Revised City Charter should be amended so as to read as follows—Section 87. The Salary of the City Treasurer may, by a vote of two-thirds of all the members elected to the Common Council, be paid at the rate of fifteen hundred dollars per annum for the years 1860 and 1861, subject to be fixed thereafter as provided in the 30th Section of the 4th Title of the act hereby amended—and

Whereas, We are aware that said amendment was petitioned for by nearly all the members of this Council, and believing it to be right and as simply just towards the present incumbent, that he should be paid such increased rate, particularly when it is taken into consideration that he has daily deposited in the banks of deposit, thereby increasing the interest account—and the prompt redemption of General Fund orders in the year 1860, save: to the city over two thousand dollars, and in the Local Fund orders a very much larger sum, thereby saving to the city in that year, in interest alone a much larger sum than would be required to pay his entire salary at such proposed increased rate—therefore,

Resolved, That the salary of the present Treasurer of the City of Buffalo, for the years 1860 and 1861, be and the same is hereby fixed at fifteen hundred dollars, and that the Comptroller, at the close of the present quarter, report to this Council and ask for an order in favor of said Treasurer for eight hundred dollars in addition to the amount he would otherwise be entitled to, were not this resolution adopted. And so much of the act or acts heretofore passed by this Council inconsistent with the above, be and the same are hereby repealed. Adopted. Ayes 19; Noes 0.

By Ald. Dayton—That the resolution passed November 7th, 1861, ordering an assessment for improving and maintaining the two public squares in the Twelfth Ward of the city of Buffalo, viz: Porter Square, fronting on the easterly side of Niagara street, commencing on the southerly corner of Parish street, and Market Square, fronting on the easterly side of Niagara street, on both sides of Amherst street, for \$2,471, be, and the same is hereby rescinded. Adopted. Ayes, 19; Noes, 0.

By Ald. Dayton—

Resolved, That the City Assessors be and are hereby directed to assess the sum of one thousand seven hundred and seventy-one dollars, for improving and maintaining Porter Square, said Square situated on the easterly side

of Niagara street, at the southerly corner of Parish street, in the Twelfth Ward; and that the Assessors are hereby directed to assess said sum of \$,771 upon the blocks of land adjoining said Square, and upon the district surrounding said Square, the boundaries of which shall be the boundary lines of the territory known as the Parish Mill Square or tract so called, as provided by Section 34 of Title 12 of the revised City Charter. Adopted.

Also, that the City Assessors be, and are hereby directed to assess the sum of seven hundred dollars for improving and maintaining Market Square situated on the east side of Niagara street, and both sides of Amherst street in the Twelfth Ward. That the Assessors are hereby directed to assess said sum of \$700 upon the blocks adjoining, and upon the district surrounding said Square, the boundaries of which shall be the boundary lines of the Territory known as the Parish Mile Square, or tract so called, as provided by Section 34 of Title 12 of the revised City Charter. Adopted.

By Ald. Allen, That the Committee on Public Lamps be authorized to extend the contract with James G. Turner for lighting, &c., the public lamps of the city from one to three years at a price not to exceed that now paid, provided the city shall continue lighting and using gas in the lamps. Referred to Committee on Public Lamps.

By Ald. Felton—That the Committee on Finance, together with the City Attorney, confer with the Board of Supervisors of Erie County in relation to the assessment made for several years upon the Western Transportation Company—and which was declared illegal by the Court of Appeals—to the end that such assessments may be charged upon the whole county, instead of the Eighth Ward. Adopted.

By Ald. Beckwith—

Whereas, At the session of this Council held Nov. 18, 1861, the Superintendent of Schools was directed to contract with teachers for the year 1862, by a resolution passed in the following terms, to wit:

“Resolved, That the Superintendent of Schools be and he is hereby authorized and directed to employ and contract with a sufficient number of suitable teachers, at the salaries and for the time above mentioned,” and

Whereas, The above action of the Council is plainly in contravention of Sec. 8, Art. v, of the Charter, as well as Sec. 50 of chapter 13 of the Ordinances, and all contracts made in pursuance thereof would be void as claims against the city, therefore

Resolved, That the above mentioned resolution passed at the last preceding session be and the same is hereby repealed, and all authority to enter into contracts for services to be performed in the year 1862 is withdrawn.

Ald. Beckwith moved that said resolution be adopted.

COMMUNICATIONS FROM HIS HONOR THE MAYOR.

BUFFALO, MAYOR'S OFFICE, }
December 30, 1861. }

To the Honorable the Common Council of the City of Buffalo:

GENTLEMEN—I return without my approval the resolutions below described and which were adopted at the last session of your honorable body:

1st.—A resolution directing an order to be drawn in favor of Charles Kawmeyer on the General Fund of 1861, on account of the Public Ground Department.

2d.—A resolution directing an order to be drawn in favor of Wm. E. Strong, on the fund for dredging Buffalo harbor inside of the north pier.

3d.—A resolution directing orders to be drawn on the Police Department, for the purpose of remitting fines imposed by Justice Lampman, Nov. 15th, 1861.

4th.—The resolutions directing sundry orders to be drawn in favor of Charles Thorn, to pay him for his services in superintending the dredging of Buffalo Creek.

5th.—A resolution directing an order to be drawn in favor of Otho F. Presbrey, for two hundred dollars, to pay for his services for compiling city charter, ordinances, &c.

6th.—A resolution ordering a special election to be held in the seventh ward of this city, for the purpose of electing an Alderman in place of Frederick M. Pratt, resigned.

7th.—A resolution annulling assessment roll 2569 for the purpose of paying the just compensation awarded to the owners of the land and property taken to lay out Carlton street, from Main street to Genesee street, together with the costs and expenses of ascertainment, amount \$3,573 67.

8th.—A resolution authorizing and directing the Receiver of Taxes to receive from certain parties the amount of the taxes charged to them respectively on the said roll No. 2,925, without any addition of interest in full payment for such taxes.

The objection to the First resolution is that the amount proposed to be paid was made in 1860, and should be paid from the funds of that year instead of the present.

To the Second resolution. That the expense of dredging the Creek, inside the north pier, is chargeable to two funds—one a general fund, the other a local. Orders, equal in amount, should be drawn on the two funds, instead of being drawn upon the one.

To the Third resolution. That no provision was made in the estimates of expenditure made for the Police Department, and that drafts of this character, in addition to similar one's thus drawn, has created, or will create a deficiency in that department. I have learned that there are good reasons why the penalties in this case should be remitted, and would therefore advise that the orders be drawn on the fund for City Attorney's legal expense department.

To the Fourth and Fifth resolutions, is that both of the persons named therein are employees of the city, and the receipts of salaries fixed by the Common Council prior to their appointments, and, consequently, of their acceptance of their respective positions. I think that section 8 of title 3, revised City Charter, is intended to prevent proceedings of this kind, it reads as follows: "The Common Council shall pay, by way of salary or otherwise, the several persons appointed by it, or elected by virtue of this act, to any office or place, a reasonable compensation for their respective services. Such compensation shall be fixed before the election or appointment of any officer, and shall not be changed during his term."

The oath of city officers recites, "and that I will faithfully discharge the duties of the office of _____ of the City of Buffalo, according to the best of my abilities."

It is my opinion that no officer has any legal claim for any services performed for the city during his term of office, other than his stated salary, and all payment received by an officer, (either by fees, perquisites, or pay for extra service, is an immoral procedure, and the exercise of it dangerous to the public good. I returned a resolution of like character with my objections to your Hon. Body, on the 3d of June last.

To the Sixth resolution. That as the charter contains no provision as to the length of public notice to be given for the holding of special elections, it is proper to be governed by its requirements as to such notices, in the section referring to annual elections. If this conclusion is correct, the election, if held under the resolution, would be illegal, because sufficient time was not given to complete the requisite notification. Sec. 10, Title 2, is as follows: "The City Clerk shall give notice, in writing, of every annual city election to the inspectors of elections, in the several election districts of the city, at least eight days before the day of election, and shall publish a previous notice once a week, for two weeks, in three daily papers of the city, specifying the time of the election, the places of holding the polls in the several election districts, the time of closing and opening the polls, and the list of officers to be elected." It is questioned whether the late election law, known as the "Registry Act," does not supersede our election law, and that the management of elections should be under its provisions. Without attempting to argue this point, I refer the matter back to your Hon. Body, recommending that you again order a special election, to be held in the 7th Ward of this city, and that sufficient time be given, so that the election laws may be complied with.

To the seventh resolution. That proceedings were taken by the Common Council to take and appropriate the land necessary to lay out Carlton street from Main street to Genesee street, August 5th, 1859, by their giving notice of intention. On the 26th of September the Council determined to take and appropriate land, and gave notice that they should make application for the appointment of Commissioners. The City Attorney reported on the 29th of January, 1860, that Commissioners had been duly appointed, viz: Elijah Ford, Charles Daniels and Job Gorton. The report of the Commissioners was presented and announced to the Council on the 12th of March, and a time designated for the hearing of parties who had filed objections to said report being confirmed. After several hearings the report of the Commissioners for laying out Carlton street, and estimating the damages due to parties, by reason of making said street, was confirmed, and the lands so taken became public property, and the city became charged with the payment of the damages for taking said lands, as determined upon by said Commissioners. The street has been so laid out, and no action can now be taken to rescind the report, unless by the written consent of two-thirds of all the persons owning land adjoining such street or highway, and by the payment of awards for damages. Thus it will be seen that the city cannot evade payment of the awards, and if not raised by local assessment will be compelled to pay from general fund, and thus the entire tax-paying community be assessed for the benefit of a few interested in this local work.

The Common Council directed an assessment to be levied, as per the resolution returned on the 26th of November, 1860, which assessment the City Clerk reported to the Council on the 4th of March, and that objections had been filed against the confirmation of said assessment. After hearing said objections, and frequent postponements the roll was referred back to the assessors for reconsideration. Said roll after receiving due attention

from the Board of Assessors was returned to the Common Council, and the assessment as received was in all respects similar to the first.

The City Clerk reported, on the 9th inst., that said roll had remained in his office more than ten days, and that objections had been filed against said roll. A hearing was set down, for the 23d inst., and on that day, although no one "appeared to object to the confirmation of said roll," your honorable body annulled same.

It will be seen that proceedings were commenced in August, 1859, and that the Commissioners' report was confirmed on the 12th of March, 1860, and that no provision has been or can be made for the payment of such awards except by a local assessment.

If the Assessors are ordered to make another assessment, I am assured that it will be similar to the others, because they have carefully made such assessment, and have every confidence in its justness and correctness. I have returned this resolution, because the awards for damages should be paid by the parties interested, and because some members of your honorable body were not aware of the position this matter would be placed by the annulling of the roll.

To the Eighth resolution. That Sec. 82, Title 8, Revised City Charter, declares that "If on any assessment more money than is necessary for the purpose shall be raised, the excess shall be credited to future repairs and maintenance of the improvement." I beg to refer to my messages on this subject, of March 19th, 1860, and June 10th, 1861. It has been the decision of my predecessors in this office, that where there is found no irregularities or illegality in the proceedings levying taxes, there is no power to remit the same or any portion thereof, and I have never doubted the correctness of their position.

Respectfully, F. A. ALBERGER, Mayor.

FURTHER FROM THE COMPTROLLER.

GENTLEMEN—In pursuance of chapter 764 of the laws of New York, passed April 17, 1857, the undersigned, with his Honor the Mayor and City Treasurer, have, after duly advertising for proposals, made a contract with Rockwell & Baker, agents, for doing all the job printing for the city for the year 1862, their proposal being found to be much the lowest of any proposition received.

The Board at the same time proceeded to take evidence, as required by said act and the Post Office regulations, as to the newspaper having the largest, actual *bona fide* circulation, to be designated as the official paper for the year 1862. There were three contestants, viz: The *Evening Courier and Republic*, *Morning Express* and *Buffalo Commercial Advertiser*, and after various adjournments, and after receiving all the evidence to be obtained or offered, the Board awarded the publication of all ordinances and other matters required by law, or the ordinances of said city, or by resolutions of the Common Council, to the *Buffalo Commercial Advertiser*, as the newspaper having the largest, actual *bona fide* circulation within the city limits, for thirty days next preceding the 21st day of December, 1861, and said paper to be the official paper for the city for the term required by said act and the award aforesaid. FURTHER FROM THE STREET COMMISSIONER.

On the 9th day of April, 1863, you directed "the Street Commissioner to notify the owners of property fronting on Main street, between Ulica street and Scajaquada Creek, to remove the buildings, fences, &c., from said street within 30 days, and if not done in that time, the Street Commissioner cause the same to be done, and report the expense." Since that time the undersigned notified the several parties in compliance with your directions, and all the obstructions have been removed, except in front of property owned by Augustus Barr, and the several Estates of William Miller and James McLeish. The persons representing the two first have from time to time promised to remove the obstructions, but the last Estate have refused, and claim title to the land; and the Attorney for the Heirs of James McLeish informed the undersigned that he should bring action against the Street Commissioner personally for trespass, should he execute said order. Therefore, the undersigned respectfully assents that your honorable body take such action as will make the City liable for all damage, and protect and defend the Street Commissioner in the premises.

L. J. WATERS, Street Commissioner

Referred to Committee on New Territory.

FROM THE SUPERINTENDENT OF SCHOOLS.

In paying off the teachers on the last pay-roll, the order of Miss Georgina McMaster, Principal of Primary Department in No. 13, was drawn at \$44 44, instead of \$57 77, the latter being the correct amount. The mistake was corrected at the Erie County Savings Bank, on my representation, and I recommend that an order be drawn in favor of Georgina McMaster for \$33 33, subject to the claim of the Erie County Savings Bank.

SANFORD B. HUNT,

Superintendent of Schools.

Ald. Wheeler moved that such communication be received and filed, and that an order be drawn as recommended. Carried.

Wesley Emmons and John Wild have completed their contracts for building a Primary School house in District No. 15, and the work has been duly accepted by myself. The work has been done in a good and substantial manner and in compliance with the terms of the contract. They have hitherto received orders, in part payment, to the amount of twelve hundred dollars, thereon. I now recommend that an order be drawn in their favor on the local fund of School District No. 15, for six hundred and forty-four dollars (\$644) being in full payment and discharge of the amount due them on the above named contract.

I beg leave to state in addition, that the new school house will be ready for occupation on Monday next; that the total expense of building and completely furnishing it will but little exceed \$2,500; and that I have insured the building for \$1,500, and the furniture for \$300, in the Buffalo Mutual Insurance Company—the policy bearing date from noon of Saturday, December 25th. I have also deemed it advisable to put coal stoves in the new building, and to make an experimental trial as to the

comparative cost of coal and wood for fuel in the Schools. I am confident that a sound economy requires the substitution of coal for wood at an early day,

SANFORD B. HUNT,

Superintendent of Schools.

FURTHER FROM THE FIRE MARSHAL.

FROM THE CHIEF OF POLICE.

GEO. DRULLARD, Chief of Police.

The Overseer of the Poor reported the amount due to Donald Bain, clerk employed in his office, for services during the months of July and December. Filed and orders directed to be drawn.

FROM THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

The undersigned would respectfully report, that many firemen who entered the fire department with the expectation that at the end of five years faithful service they would be enabled to procure a certificate that would warrant their exemption from military and jury duty, who have at great expense and loss of time prepared and equipped themselves for the duties of firemen, that now find themselves, after having faithfully served in the department from three to four years, in consequence of the disbanding of their companies upon the introduction of the steam engines, unable to complete the term of service requisite to the procurement of their certificates, and consequently deprived of the benefit of the firemen's benevolent fund, which they have aided in accumulating; the few remaining companies being located at so great a distance from their residences that it is next to impossible for them to serve the remainder of their five years term in those companies.

The undersigned would therefore respectfully suggest to your honorable body the propriety of obtaining such amendments to the city charter as shall enable the Common Council to grant certificates of exemption to all firemen who shall have faithfully served three and one-half years in the fire department.

WILLIAM TAYLOR, Chief Engineer.

The Chair stated to Ald. Bemis that he must reduce his protest to writing.

Ald. Bemis then presented the following protest in writing:

Whereas, This Council is convened to-day pursuant to adjournment, for the purpose of closing unfinished business, which has long been before the Council for its action thereon, and the representations at the time of adjournment on Monday last were, that this meeting would be for that purpose only. Therefore, it is improper and unjust for the Council, in the last moments of its official existence, to enter upon the transaction of other business than that which has long been before the Council. And as no pressing necessity exists at this time to justify this Council in proceeding to the election of Police Justice or policemen, or Clerk to Chief of police, except that it be to gratify one of a political nature—and to serve the behests of the party—I would therefore protest against the action of the Council, at this time, in appointing the officers above referred to.

Ald. Rutter was excused from further attendance at this meeting.

MINUTES No. 47.

CORPORATION PROCEEDINGS.

IN COMMON COUNCIL,
BUFFALO, Monday, Jan. 6, 1862,
9 o'clock, A. M. }

Present—Asaph S. Bemis, President of the Council, and Aldermen Adams, Allen, Beckwith, Brush, Crowder, Dayton, Dorr, Felton, Goebel, Grass, Hannover, Hopkins, Jones, Mills, Palmer, Russell, Rutter, Savage, Storck, Schen, Wheeler, Walsh, and Yaw.

Absent—Aldermen Swartz.

The reading of the minutes of the last meeting being in order,

Ald. Adams moved that the same be approved without reading.

Ald. Bemis objected to their approval without reading.

The motion of Ald. Adams was then lost—ayes 13, noes 8.

The Clerk then read the minutes of the last meeting.

Ald. Felton was called to the Chair.

Ald. Bemis moved that the minutes be corrected, by inserting the following protest from Ald. Bemis at the proper place:

Whereas, This Council is convened to-day pursuant to adjournment, for the purpose of closing unfinished business, which has long been before the Council for its action thereon, and the representations at the time of adjournment on Monday last were, that this meeting would be for that purpose only. Therefore, it is improper and unjust for the Council, in the last moments of its official existence, to enter upon the transaction of other business than that which has long been before this Council. And, as no pressing necessity exists at this time to justify this Council in proceeding to the election of Police Justice or policemen, or Clerk to Chief of Police, except that it be to gratify one of a political nature—and to serve the behests of the party—I would therefore protest against the action of the Council, at this time, in appointing the officers above referred to.

Ald. Wheeler moved that the City Clerk be heard on the subject. Carried.

The City Clerk then addressed the Council.

The question was then taken on the motion of Ald. Bemis and the same was carried.

Ald. Bemis moved that the minutes be further corrected so that they shall show that he was present when

the certificate of canvass of votes given for the office of Police Justice, to fill vacancy were being signed, and that he did not sign such certificate. Lost—ayes, 9; noes, 11.

Ald. Adams then moved that the minutes of the last meeting as this day corrected be now approved. Carried.

The President resumed the Chair.

Ald. Adams offered the following:

Resolved, That the Council proceed to canvass the returns of the last General Election held in the several Wards in the City of Buffalo, on the 5th day of November, 1861. Adopted.

The City Clerk then laid before the Council, the certificates of the Inspectors of Election of the several Election Districts of the City of Buffalo, of the result of the annual City Election, held in said City on the 5th day of November, 1861, and also a tabular statement showing such result.

Ald. Felton offered the following:

Resolved, That the several persons having the greatest number of votes for the several offices required to be filled at the late election, as they appear in the tabular statements, be and they are hereby declared duly elected.

Ald. Adams offered the following, as a substitute for the resolution offered by Ald. Felton:

Resolved, That the persons receiving the greatest number of votes at the late Annual Election held in the City of Buffalo, for the respective offices, as shown by the tabular statement of the Clerk—except Wm. A. Sutton as an Alderman from the 7th Ward—be, and they are hereby declared duly elected to such respective offices.

Ald. Adams withdrew the substitute offered by him.

Ald. Adams then moved to amend the resolution offered by Ald. Felton, by inserting after the word "required," the words "by the notice of the City Clerk."

Ald. Adams moved the previous question, which was ordered. Ayes, 14; Noes, 10.

The motion of Ald. Adams was then carried. Ayes, 14; Noes, 10.

The question was then taken on the resolution of Ald. Felton, as amended by the motion of Ald. Adams, and the same was adopted. Ayes, 18; Noes, 6.

GENTLEMEN OF THE COMMON COUNCIL:—In pursuance of the provisions of the City Charter, this Council is convened to-day for the purpose of canvassing the returns of the Inspectors of Elections, and to ascertain and certify who were elected at the last general election to the various city offices required to be filled at such election. This duty having been performed, it but remains for me to declare this Council dissolved.

But, gentlemen, I cannot allow our official relations with each other to thus terminate without availing myself of the opportunity here presented to express to you my very grateful thanks for the generous and honorable manner in which I have been upheld and sustained in the discharge of the duties that have devolved upon this Chair.

It is an old and true saying, that "to err is human;" and if, in the judgment of any member of this Council, I have erred in the discharge of my duty as its Presiding Officer, I beg that such member will be assured that it was the head, and not the heart, that erred.

It is, however, a matter of much satisfaction to me to reflect that, during the term I have occupied this Chair by your suffrages, I can call to mind no instance wherein my decisions and ruling upon your deliberations have been by you reversed.

For the very flattering compliment paid me in the resolution you have adopted, making such honorable mention of the manner in which I have discharged the duties of President of this Council, I beg to assure

you, gentlemen, it but adds to [the many honors and civilities hitherto received by me at your hands; and the remembrance of the sentiments expressed in the resolution will long find a place in my most treasured recollections.

Again thanking you for the many courtesies you have extended to me, I now declare our official relations at an end, and this Council dissolved.

OTIS F. PRESBREY, City Clerk,
